YABU PUSHELBERG

# COLLECTION EXTENSIONS

The 2025 ELIO collection captures the essence of outdoor lounging with the introduction of new sofas, daybeds, and poufs. Expanding on the softly rounded silhouette of the original series, the low profiles and graceful curves evoke the beauty of water-smoothed pebbles. Every element is crafted to prioritize comfort and versatility, blending organic shapes with modern sophistication. Modular back and armrest options invite personalized compositions, ensuring each creation is distinctly your own.

# COLLECTION ADDITIONS

Blending the beauty and durability of teak with the sophisticated charm of woven Canax® sling seats, AMANU introduces new lounging additions. Central to the ensemble is the signature three-seater sofa with generously spacious seating. The collection's new daybed offers a refined retreat, featuring a delicate floating effect reminiscent of the collection's dining chairs. Completing the new ensemble is a selection of variously shaped coffee tables, each imbued with the distinctive look of the collection's dining table, fitting any outdoor setting.

YABU PUSHELBERG

# TABLE ADDITIONS

The timeless DUNES table, with its gently domed sculptural base and smooth circular top, welcomes a 2025 addition. The new low table features not one but three of its signature bases in varying sizes, supporting an organically shaped, pebble-inspired top. As unpretentious as the original monobase, this low table complements any outdoor setting. Available in solid teak for warmth, a terrazzo-inspired finish, or with contrasting materials, making a design statement, it allows you to customise outdoor spaces just as you envisioned.

# NEW COLLECTION

At first glance, the new LUCCA collection feels instantly familiar, making it easy to love. Then dive deep, and subtle design details emerge. The armchair and lounge chair feature graceful silhouettes inspired by Japanese calligraphy, while the armrests and woven textile bands pay tribute to Southern braiding techniques. The soft fibre's core offers gentle stretch for enhanced comfort while sinking into its cushions. The dining table's shield-shaped supports and rounded ceramic top make it a timeless centrepiece, complementing any outdoor setting.

# ORGANIC CORNER MODULE

SENJA introduces an innovative extension module featuring a 135-degree angle. This addition enhances the sofa's modular versatility, allowing for the creation of organically shaped settings. Effortlessly connect it with the existing sofa, armchair, and lounge components, or position it at the end, creating a cozy enclosure. Alternatively, it can stand alone as an isle of relaxation. This uniquely angled SENJA module continues to push the boundaries of outdoor comfort and style, ensuring every corner to be inviting and chic.

# CESTA

MONICA ARMANI

# SWIVEL LOUNGE CHAIR

CESTA draws its inspiration from traditional basket weaving methods. From ancient plaiting and coiling to modern industrial weaving designed for elevated outdoor style, enjoyment, and durability, today's artisans interpret time-honoured skills using aluminium and rope. Distinguished by clean lines and minimal adornment, CESTA's woven backrest plays the starring role. The sumptuous cushioning complements the sleek frame, while the seat offers gentle movement from side to side, making it perfect for relaxed groupings and intimate conversations.

## THE ART OF LEISURE

Living the good life outside with family and friends, is the very core of our family brand. We feel privileged continuing the heritage of our father Lode and grandfather Henri, who laid the foundations of a shifting lifestyle towards a luxury outdoor living experience.

And year by year, our tribe grows stronger.

Following the launch of our Los Angeles flagship store, we are opening the doors of our flagship showroom in the design capital of the world, Milan. We are thrilled to invite you to join us on our journey and experience the good life outside, worldwide. Let's celebrate innovation, craftsmanship and timeless luxury design together. Live it, love it, share it.

Have a wonderful outdoor year.

# CTR

PIERGIORGIO CAZZANIGA

CTR looks effortless in all its ingenuity. With a lightness of touch,  
the open weave adds subtle elegance to any outdoor scene.

CTR meridiennes in white/linen, cushions in chalk, deco cushions in natté ochre with piping in canvas lace and canvas lace with piping in canvas tweed brown. DUNES side table in teak. NOMAD pouf L in natural sandy dunes, S in sujän ochre. SHINDI rug in hemp.

The CTR collection catches your eye with a tube in powder-coated stainless steel that follows its outline in one continuous line. The open weave of the backrest appears to float unsuspected around the upholstered seat. The CTR collection is a complex design created with effortlessness and innovation.

CTR lounge chair in wengé/wengé, cushion in tagika moss with deco cushion in leaf with piping in canvas lace. DUNES side table in teak. VIS à VIS sofa in teaj with cushions in natural off-white, deco cushions in natural off-white. VIS À VIS coffee table 99x99cm in teak. MADAME LATOQUE standing lamp ø30cm in moss. SHINDI rug in hemp.

CTR lounge chair in wengé/linen, with cushions in natural dark brown and taman linen. T-TABLE low dining ø125cm in wengé with top in lava stone wengé. MONSIEUR LEBONNET standing lamp 60cm in linen. MADAME LATOQUE standing lamp 30cm in linen.

CTR chairs in linen/linen, cushions in knit rosemary. NOX table 352cm in linen with top in lava stone moss. SHINDI rug in hemp.

# BRANCH

LIEVORE ALTHERR MOLINA

Inspired by tree branches, the Branch collection has a sleek, organic look that relies on a sophisticated design and well-thought-out materials.

BRANCH side chairs and dining table ø125cm in linen, seat cushions in natural sandy dunes. MONSIEUR LEBONNET standing lamp ø60 and ø40cm in linen. MADAME LATOQUE standing lamp ø40cm in linen.

BRANCH dining table 300x110cm in wengé with teak top, arm and side chairs in wengé, seat cushions in canvas seasalt.

Just as sunlight filters through the branches of a tree, so it illuminates the Branch collection. Slender legs and lattice seats give Branch a delicate lightness, while the clever design and hi-tech materials make the collection highly comfortable and durable. "Branch strengthens the emotional connection with nature. It creates a feeling of respect and fascination with the natural environment", says designer Manel Molina.

BRANCH loungers in wengé, cushions in natural sandy dunes. DUNES side table in teak. LANTERNS high and low in teak.

# KOS

STUDIO SEGERS

The Kos collection enhances the robust character of teak with a purified yet powerful twist.

PURE sofa in teak with cushions in naram pearl, deco cushions in taman poivre, gealic mushroom and natural dark brown with piping in canvas lace. KOS lounge chairs in teak with cushion in taman linen. T-TABLE low dining table ø90cm in linen with top in lava stone wengé. DUNES side table in terrazzo by Tribù. SHINDI rug in linen.

Kos is beautiful on its own, yet combined with other collections its robustness and graceful design add excitement to any outdoor setting. Kos is the perfect companion to create the essence of outdoor living, any time of the year.

KOS lounge in teak with cushion in knit rosemary.

# PURE

ANDREI MUNTEANU

True simplicity offers infinite versatility. The sculptural Pure family captures that in the most sophisticated, ingenious way, adding luxurious elements to its never outdated heritage.

PURE sofa in teak with cushions in natural aged ivory, deco cushions in natté basalt, rustic weave cord, taman linen, natural aged ivory with piping in canvas tweed brown and natté wengé with piping in linen.  
VIS-À-VIS coffee table 99x99cm. in teak. LANTERN high and low. SHINDI rug in wengé.

PURE sofa in teak with cushions in naram pearl, deco cushion in taman linen, gaelic mushroom, natural dark brown with piping in linen, sujàn hemp, dalsace flax and gaelic sandstone. ELIO lounge chairs with cushions in taman linen, deco cushion in gaelic mushroom. DUNES coffee and side table in teak. MAI square pouf in hemp. NATAL ALU X round table in clay. SHINDI rug in linen. MONSIEUR LEBONNET standing lamp ø40cm in linen. MADAME LATOQUE standing lamp ø30cm in linen.

The Pure collection truly changed the way we think about outdoor furniture. And even after decades, its bestseller story continues. New contemporary elements like a two seat extension, a luxurious lounge and cabana are taking Pure's modularity to yet another level. Together with the five existing modular elements, comfortably accessorized with deep stylish cushions, Pure creates timeless and harmonious outdoor rooms, effortlessly adapting to every possible atmosphere.

PURE lounge in teak with cushion in naram pearl.

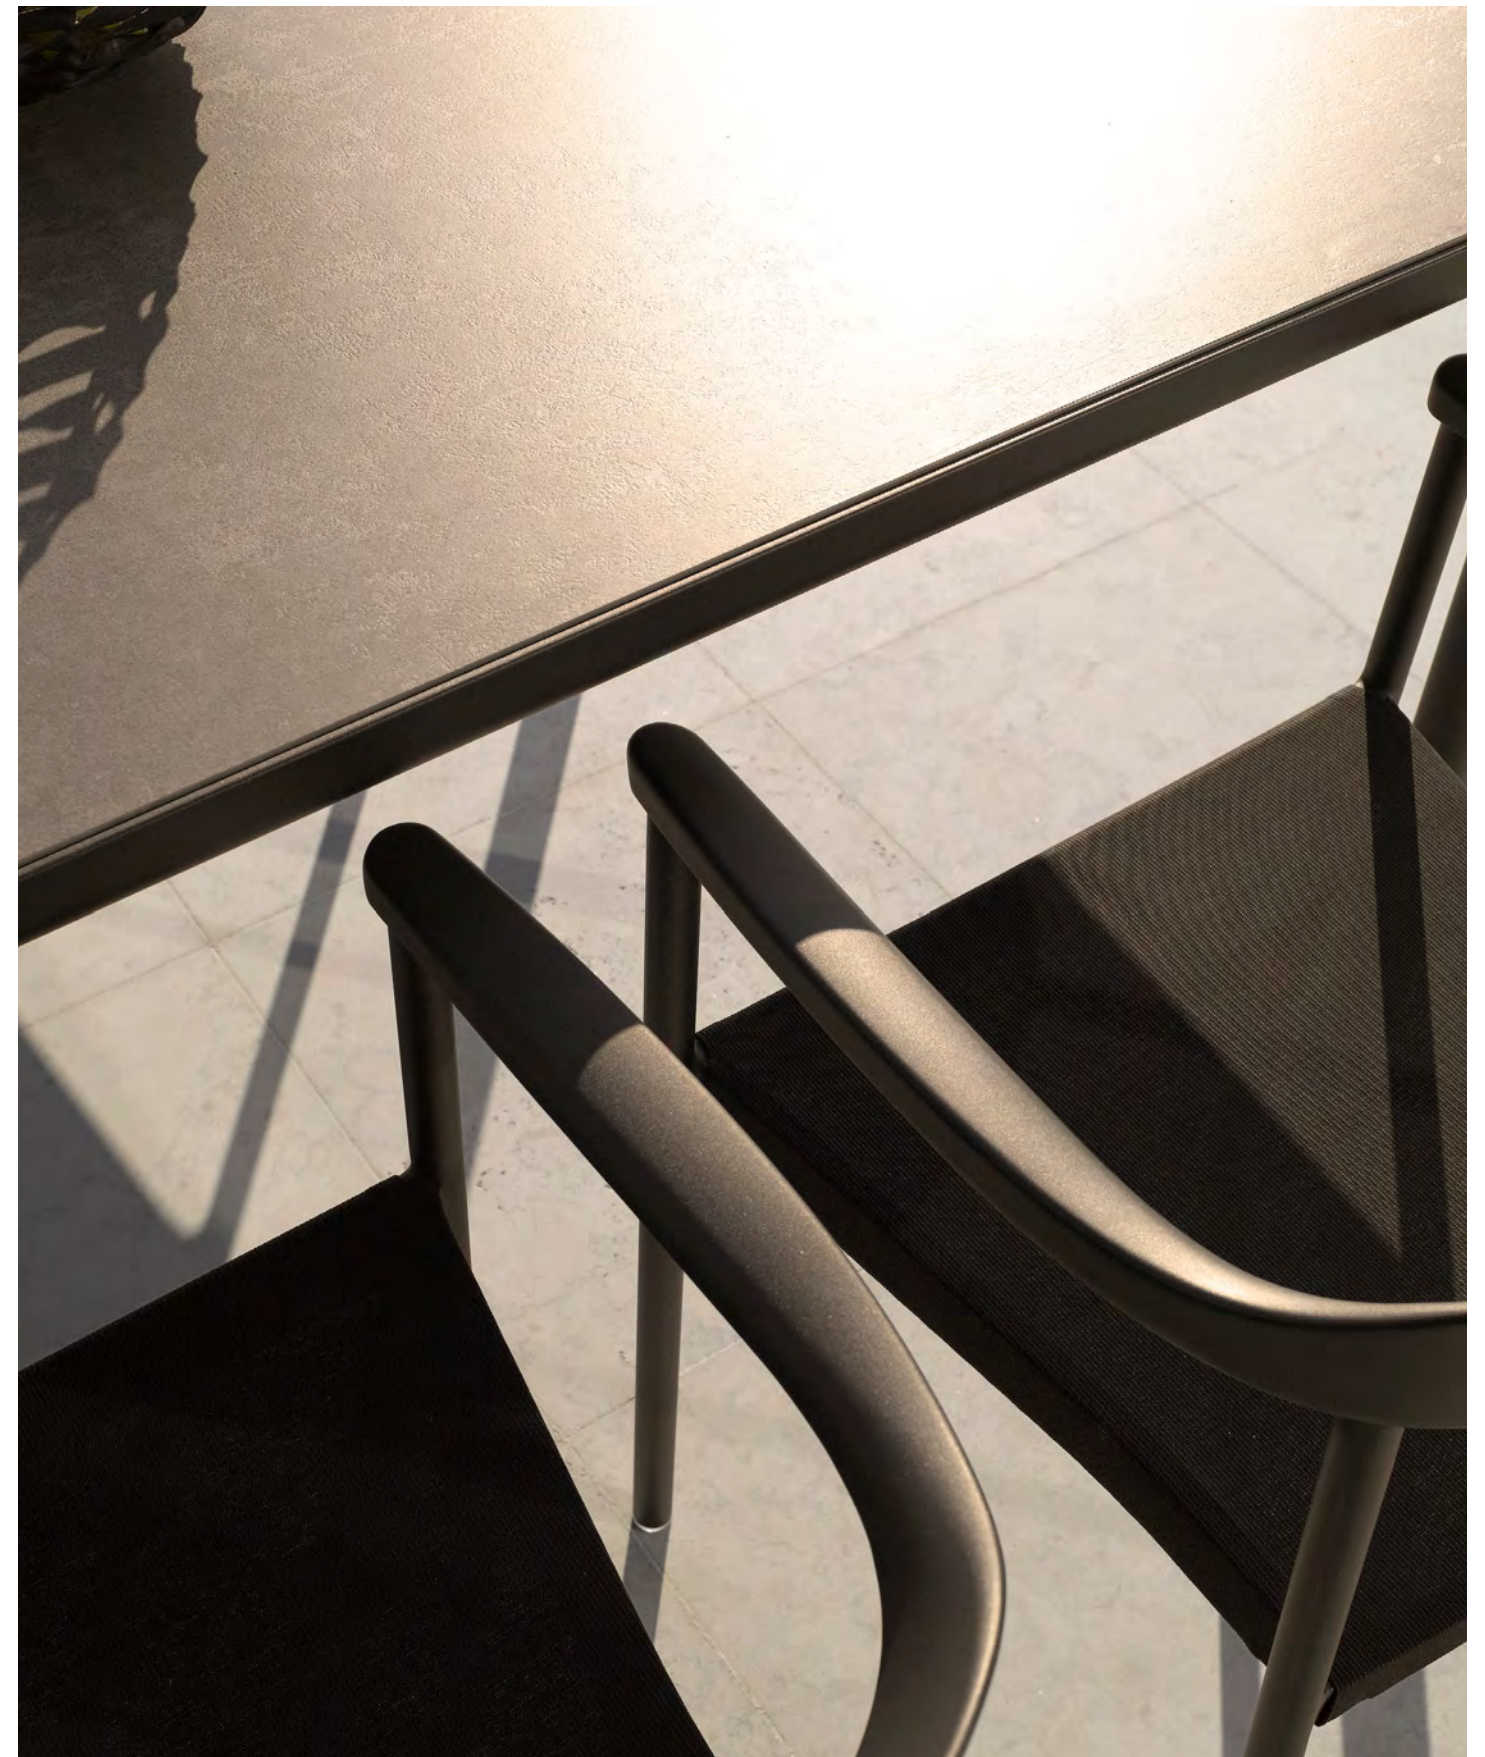

PURE loungers in teak with cushions in naram pearl. GOBI basket large in linen.

# ILLUM

MERCKX & MAES

The Illum collection is an ode to form and function. Durable materials are used throughout the collection, with smooth transitions from crisp to soft lines.

ILLUM lounge and armchairs in wengé, bench and dining table 267x100cm in wengé with teak top.

ILLUM lounge in wengé.

The Illum collection refers to the classical Scandinavian furniture archetypes, translated with updated materials for outdoors. Aluminium is used like sculpted wood and Batyline® for the seating, serving both looks and durability. Batyline® has a lasting high tension and is known to be UV resistant, quick dry and dirt repellent. The soft-curving back of the chair provides an inviting view and seating comfort. Functionality is paramount for Illum, without compromising on comfort and class.

ILLUM armchairs in white and dining table 267x71cm in white with top in ceramic piombo.

TAO oval dining table in wengé. ILLUM armchairs in clay with cushion in naram almond.  
SHINDI rug in linen.

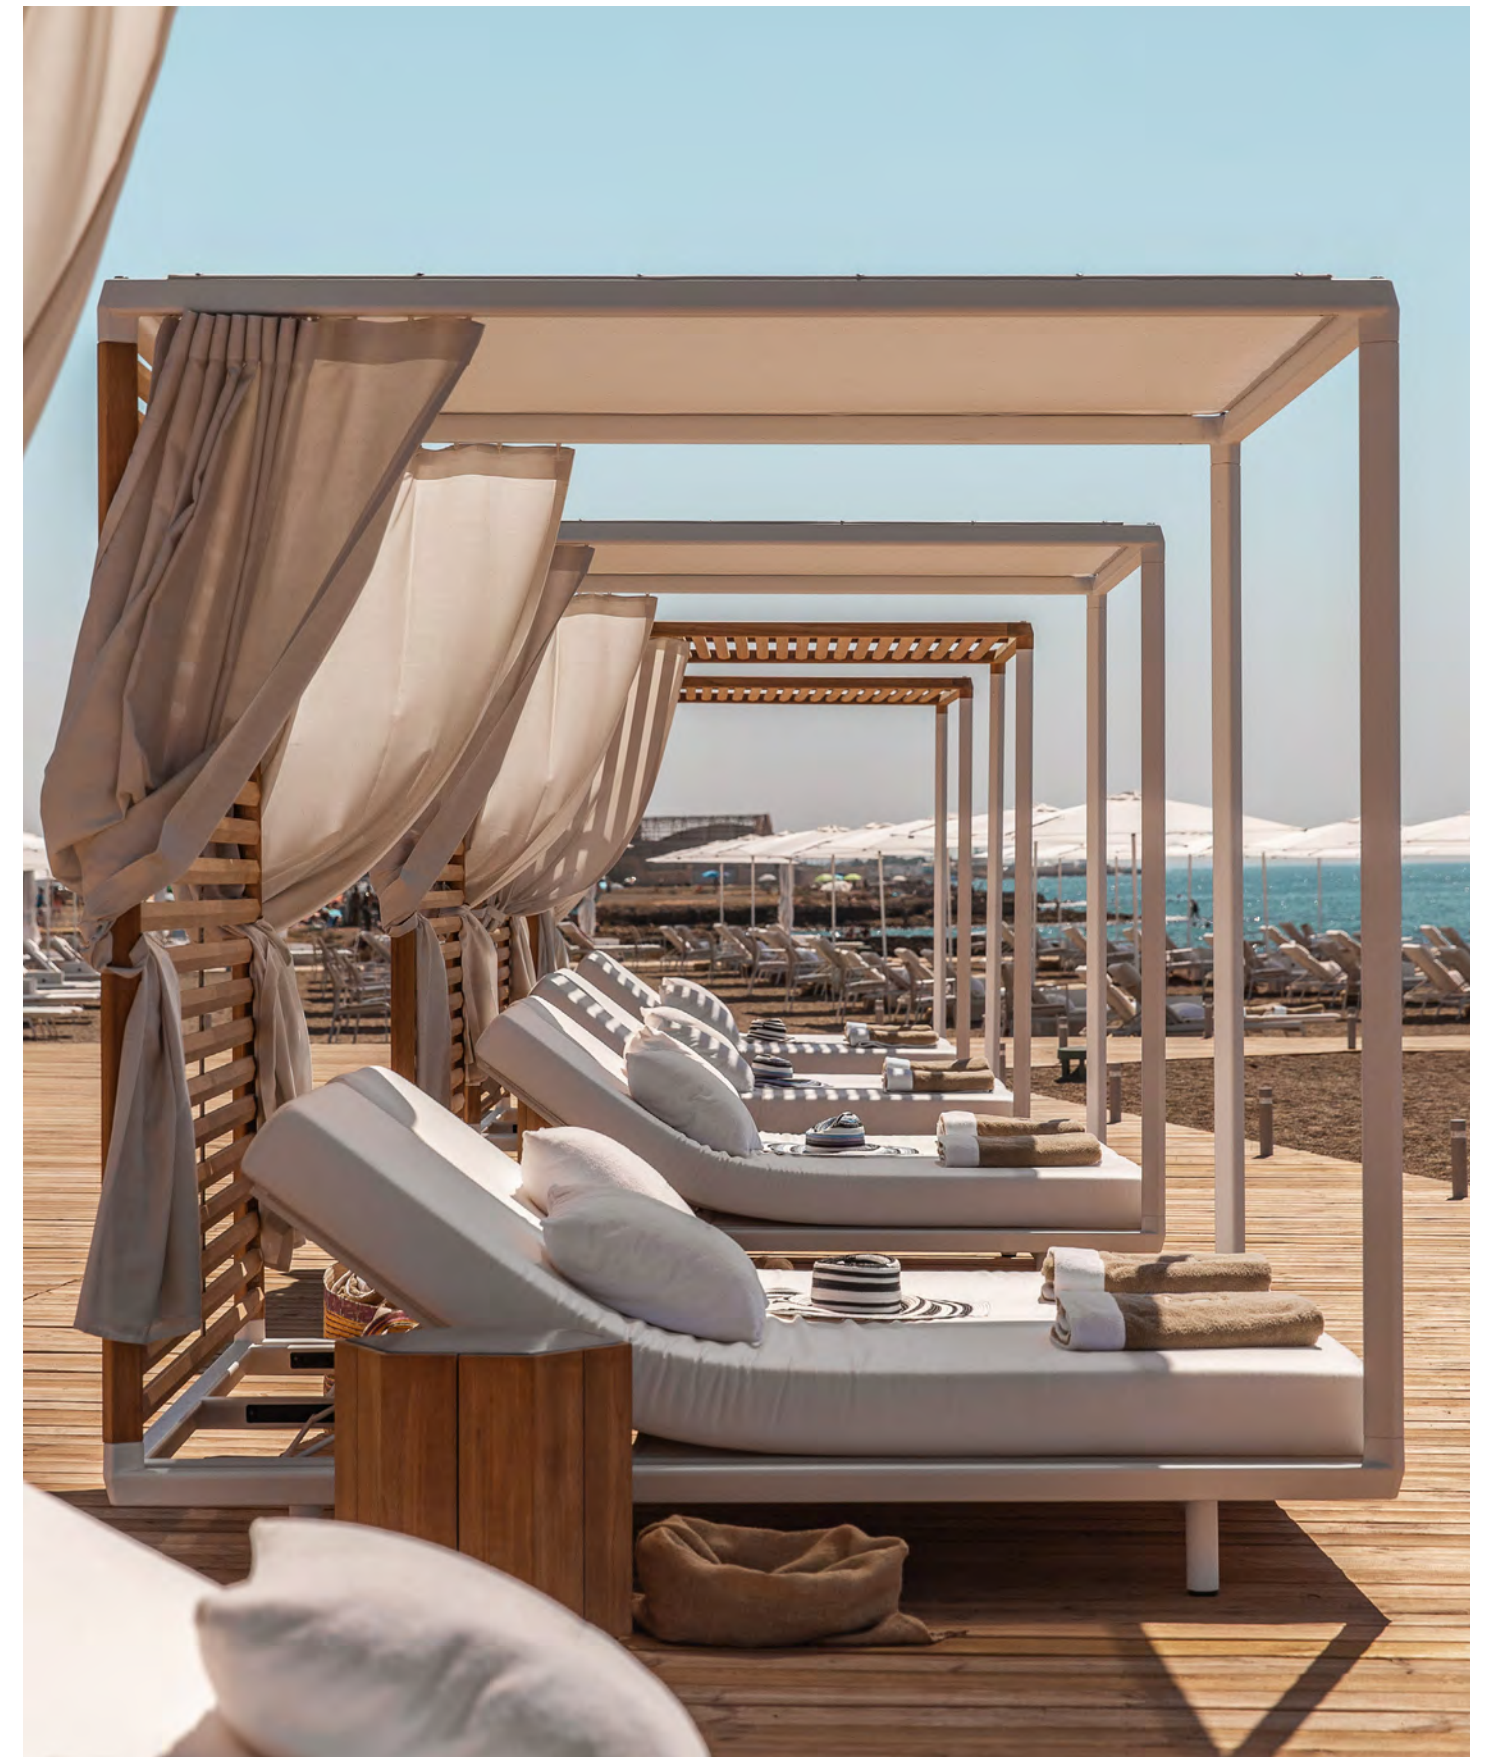

When it comes to comfort and luxury, Pavilion undoubtedly triumphs. The classic canopied bed was given a modern yet timeless look with customization options according to your preference. This well-designed daybed is your perfect companion for outdoor relaxing in style

# PAVILION

MONICA ARMANI

Pavilion introduces contemporary design and  
luxurious elegance at its best.

# MONSIEUR TRICOT

ILIA ECKARDT

Monsieur Tricot is a distinctive collection of knitted and hand crocheted outdoor lighting that give a warm glow and cast beautiful shadows.

MONSIEUR LEBONNET standing lamps ø30cm, ø40cm and ø60cm in linen. MADAME CACHET standing lamps ø50cm in linen. MADAME LATOQUE standing lamp ø30cm in linen. CTR lounge chairs in wengé/linen, cushions in natural dark brown and taman linen. T-TABLE low dining table ø125cm in wengé with top in lava stone wengé.

MADAME LATOQUE hanging lamp ø30cm and ø40cm in wengé. MADAME CACHET hanging lamp ø40cm in wengé.

Monsieur Tricot is a collection of distinctive knitted and hand crocheted outdoor lighting. The hanging and standing lamps, designed by Belgian designer Ilia Eckardt, merge traditional techniques with high-performance materials and modern technology. Ilia grew up immersed in the Belgian fashion scene, his mother working for Belgian fashion designers like Raf Simons and Dries Van Noten. Fascinated by their world, he designed his own outdoor lighting collection which he composed as a family. Meet the handsome Monsieur Lebonnet, the graceful Madame Latoque, the chic Madame Cachet and their nephew Monsieur Ellipse. The lights give a warm glow and cast beautiful shadows for long summer nights.

FOUR SEASONS HOTEL THE SURF CLUB  
MIAMI BEACH, FLORIDA

CAP VERMELL GRAND HOTEL  
MALLORCA, SPAIN

**FOUR SEASONS RITZ**  
LISBON, PORTUGAL

Architect: Openbook

The historic Four Seasons Ritz, located in the heart of Lisbon, truly embodies the cultural soul of Portugal. Outside, you can see the city's rolling hills and brightly tiled facades surrounding the pool area. The perfect place to relax after a day of sightseeing through the city or to unwind in the sun on a comfortable Senja lounge, Pavilion or Mood daybed.

In this exclusive oasis in the middle of the city, you can worship their unique sense of style of art-deco merged with an updated Louis XVI aesthetic, along with many important contemporary local artworks filling their halls. After a day of exploring the city's sights, CURA restaurant offers a seasonally inspired, Michelin-starred gastronomic experience.

Tribù was asked to create luxury outdoor furniture for the entire pool area varying from Pavilion and Mood daybeds and bar chairs, to Natal alu sofas, Senja loungers and Drops side tables. All these Tribù collections are well-depicted at the Four Seasons Ritz's outdoor space, exuding discrete luxury in the warmest colours. Perfectly fitting for the vibrant and colourful city of Lisbon.

FOUR SEASONS  
BURJ ALSHAYA, KUWAIT

©AYNUR MAMEDOVA

FOUR SEASONS MEGÈVE  
MEGÈVE, FRANCE

Bring together the Rothschild family heritage, a luxury hotelier and Tribù's classic Mood Club Chairs and what do you have? The Four Seasons Hotel Megève, destination of choice for the chic ski set since it opened in 2017.

A natural palette of stone, wood, lambswool and sheepskin unites the four interconnecting hotel chalets, the two-Michelin-starred restaurant and spa. Celebrated interior designer Pierre-Yves Rochon, known as 'the master of grande luxe', has made comfort the key to his gorgeously indulgent bedrooms, suites and public spaces.

Tribù's Mood Club Chairs are the perfect addition to the guest balconies, deep, cocooning seats from which to take in the spectacular snow-capped views of Mont d'Arbois. Their earth-brown woven seat backs in Tribù's exclusive Tricord material and warm teak frames are both weather resistant and highly durable. The Studio Segers design celebrates the appeal of natural textures and Tribù's technically advanced, soft-touch materials.

ST. REGIS MALDIVES VOMMULI RESORT  
MALDIVES

Guests arriving at The St. Regis Maldives Vommuli Resort by private sea plane might be struck first by the lush green of the tropical island, then by what could be the silhouette of a giant lobster and a whale shark.

Singapore-based architects WOW | Warner Wong Design have blended natural forms and traditional materials in their striking design for this five star resort. WOW is known for its culturally sensitive designs based on in-depth research into local building materials, designs and customs.

The terraces of the Villas on land and overwater are immaculately furnished with a plush Mood Daybed and Armchairs in teak and warm brown are accented by a Branch Bistro Table in wengé colour.

PETTOLECCHIA IL LIDO  
FASANO - PUGLIA, ITALY

#### M/Y DRAGON, COLUMBUS CLASSI 80MT

M/Y Dragon is an exceptional new yacht from Italian firm Columbus Yachts, a Palumbo Superyachts brand.

The exterior areas, which are all different in character, were furnished using only Tribù collections for the freestanding furniture, specified by the project's interior designer Francesco Guida. "The handwoven tricord of the back of the Mood armchairs, daybeds and club chairs is in perfect harmony with the natural atmosphere I had in mind. Ultimately the classic modernity of the interiors find the perfect continuity in the exterior areas creating the "timeless relaxing atmosphere" the owner requested." – Francesco Guida.

When Dragon is anchored, additional sun-trap decks open out at the bow, furnished with Mood daybeds, Vis à Vis loungers, poufs and Ile side tables.

Across the width of the teak bridge is the 200-metre-square 'beach club'. Here, Mood bar chairs are paired with Pure sofas, Mood low tables and poufs to create a flexible, relaxed club atmosphere.

# SOFAS

## SOFAS

### TOSCA

MONICA ARMANI

P. 89, 90-91, 92

The Tosca outdoor sofa is simultaneously warm and inviting, stylish and intriguing. It was the first time TRIBU called upon a female designer to draw an outdoor furniture piece and that is evident in the design. Rounded forms, tapered legs and an elegant seating shell in powder-coated stainless steel, upholstered with extra-wide braiding. The material for the braiding is genuinely innovative: foam mousse is encased in a seamless sheath of knitted textile and polyolefine which makes the material weather-resistant, but also surprisingly soft to the touch. The seating comfort is especially pleasant, thanks to the comfortable outdoor cushions.

### CTR

PIERGIORGIO CAZZANIGA

Italian designer Piergiorgio Cazzaniga does with the CTR collection what he is good at: making complex designs appear effortless. The frame of the sofa is made of profiles in powder-coated stainless steel that are bent in one continuous line. The corners are straight, yet the tubes keep a round form, which requires great mastery. The backrest is attached to the frame at only 2 points and appears to float unsuspected above the seat. The open weave refers to the ancient tradition of weaving and gives flexible support to the back. The seat is upholstered with a water-repellent cushion which can be easily removed.

**MOOD**

STUDIO SEGERS

P. 114, 118

The airy design of the Mood collection and its warm combination of teak and handwoven backs will immediately create an intimate atmosphere on your patio. The rounded design of the durable teak gives the sofa a warm and friendly tone. The weave in Tricord has a very soft touch, but can nevertheless defy all weather conditions. Tribù has developed a range of natural colours that fit in with any type of outdoor environment. The comfortable outdoor cushions can be left out in the rain, thanks to the ventilating, water-repellent filling. The back cushions are available in various styles to match every taste.

**ELIO**

YABU PUSHELBERG

Elio, referring to the Greek sun god Helios and designed by Canadian design firm Yabu Pushelberg, is inspired by the motion of light as it reflects and refracts on landscapes and objects. Multiple soft shades of yarn are woven into one strand, which mimics the hues of natural light and makes each chair unique. The handwoven seat in weather-resistant Tricord rope, draws inward to create a warm, intimate cocoon effect. The 2-seat sofa is framed by natural teak, which supports the seating shell primarily through the back legs that cross the shell.

**SURO**

CHRISTOPHE DELCOURT

P. 14-15

The Suro Banquette truly enhances the combination of two materials: the elegant rigor of teak wood or powder coated aluminium and the flexibility of the braided rope weaving. Both materials elegantly blend into an exceptional design. The wood and aluminium both affirm the structure of the seat. The fiber backrest, as if hanging from the seat, forms an embracing cocoon-like flower petal which provides unique comfort thanks to its roundness.

The modular Nodi sofa has a strong personality, yet it sits easily in an outdoor space without dominating it. The frame has an airiness and architectural appeal thanks to its curve, grace and open weaving. The extra-soft cushion filling makes Nodi one of the most comfortable outdoor sofas, as well as one of the most flexible. With three seating elements and four seat depths you can create your own personal sofa.

STUDIO SEGERS

P. 122-123, 124-125

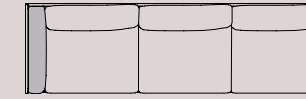

A subtle frame with attractive, curved armrests contrasts beautifully with the volume of the outdoor cushions which are supported by a weave in broad textile straps. Thirteen different modules compose the outdoor sofa of your liking. The aluminium frame of the sofa is powder-coated with ultra durable structure lacquer. The outdoor cushions can be left outside, even in the rain. The ventilating filling is covered with a laminated polypropylene cover which is water resistant. All stitches have an extra inside cover to prevent water from penetrating.

PIERGIORGIO CAZZANIGA

P. 41, 46-47, 81, 84-85, 131, 186-187, 195

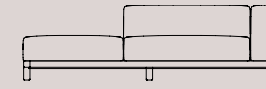

Slender, teak platforms support comfortable outdoor cushions without any visible back or arm structure. Tribù uses only the very best plantation wood from East-Java. Every log is handpicked during the cutting process of the tree. The cushions are supported by brackets in stainless steel 304L and can be left outside, even in the rain. The ventilating filling is covered with a waterproof, laminated polypropylene cover which is water resistant. All stitches have an extra inside cover to prevent water from penetrating. The simple, modular system allows for endless compositions from a small meridienne sofa to a large corner sofa with side tables.

# LOUNGE CHAIRS

## LOUNGE CHAIRS

### AMANU

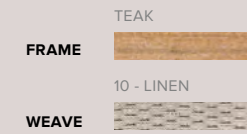

YABU PUSHELBERG

P. 25, 28-29, 31, 33, 35, 122, 125

The refined Amanu collection brings interior quality outside, combining comfort and sustainability. The chairs feature woven, hemp-based Canax® sling seats that seem to float from a slimline-teak frame, sourced from sustainably managed Indonesian plantations. The slightly tapered legs provide lightness and grace, while the smooth, half-rounded armrests and the elegantly finished cushions make the chairs extremely comfortable.

### SURO

CHRISTOPHE DELCOURT

P. 7, 8-9, 12-13, 14-15, 16-17, 173

The Suro lounge chair truly enhances the combination of two materials: the elegant rigor of teak wood or powder coated aluminium and the flexibility of the braided rope weaving. Both materials elegantly blend into an exceptional design. The wood and aluminium both affirm the structure of the seat. The fiber backrest, as if hanging from the seat, forms an embracing cocoon-like flower petal which provides unique comfort thanks to its roundness.

## LOUNGE CHAIRS

### ELIO HIGH BACK

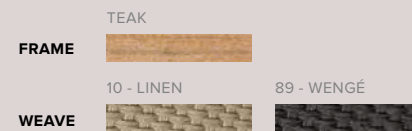

YABU PUSHELBERG

P. 71

Elio, referring to the Greek sun god Helios and designed by Canadian design firm Yabu Pushelberg, is inspired by the motion of light as it reflects and refracts on landscapes and objects. Multiple soft shades of yarn are woven into one strand, which mimics the hues of natural light and makes each chair unique. The handwoven seat in weather-resistant Tricord rope, draws inward to create a warm, intimate cocoon effect. The high back, deep seat and generous cushion make it perfect for daydreaming. The chair is framed by natural teak, which supports the seating shell primarily through the back legs that cross the shell.

Code 02520

W28" D34.75" H39.75" SH15"  
W71cm D88cm H101cm SH38cm

### NOMAD

MONICA ARMANI

P. 55, 91, 102-103, 104-105

The deep cushion of the Nomad lounge chair is stitched to cocoon the body, folding over the armrests and moulding into the broad curve of the backrest. Designer Monica Armani used what she calls 'noble teak wood' for its warmth, smoothness and strength. Slender legs and contoured armrests give the chair its elegant profile and the smartly stitched cushion is as luxurious as it is comfortable. Nomad, like its name, works well wherever it is placed, in combination with a lounge set-up or as a stand-alone piece.

Code 05012

### TOSCA LOW DINING

MONICA ARMANI

P. 92-93

The Tosca deep-seated low dining chair adds low-key luxury to relaxed dining. The elegant seating shell in powder-coated stainless steel is upholstered with an extra-large, vertical weave. The material is genuinely innovative, a combination of textilene and polyolefin is knitted over a tube of EPDM foam without any visible joint. Next to its weather-resistant features, the material is also surprisingly soft to the touch. The ton-sur-ton colours emphasise the chic character of this lounge chair and the comfortable outdoor cushions guarantee a pleasant seating comfort.

## LOUNGE CHAIRS

### TOSCA

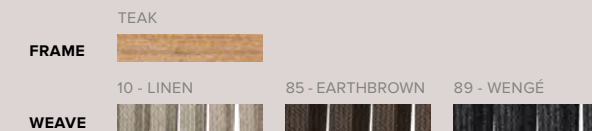

MONICA ARMANI

P. 89, 90

The Tosca outdoor collection is simultaneously warm and inviting, stylish and intriguing. It was the first time Tribù called upon a female designer to draw an outdoor furniture piece with a more feminine touch. Monica Armani succeeded in her challenge: rounded forms, tapered legs and an elegant seating shell in powder-coated stainless steel, upholstered with extra-wide braiding. The material for the braiding is genuinely innovative: foam mousse is encased in a seamless sheath of knitted Textilene® and polyolefine which makes the material weather-resistant, but also surprisingly soft to the touch. The seating comfort is especially pleasant, also thanks to the comfortable outdoor cushions.

W34.75" D29.25" H30.75" SH15.75"  
W88cm D74cm H78cm SH40cm

### MOOD

STUDIO SEGERS

P. 115, 116-117

The airy design of the Mood collection and its warm combination of teak and handwoven backs will immediately create an intimate atmosphere on your patio. The rounded design of the durable teak gives the lounge chair a warm and friendly tone. The weave in Tricord has a very soft touch, but can nevertheless defy all weather conditions. Tribù has developed a range of natural colours that fit in with any type of outdoor environment. The comfortable outdoor cushions can be left out in the rain, thanks to the ventilating, water-repellent filling.

### PURE

ANDREI MUNTEANU

With the Pure Sofa, designer Andrei Munteanu reduces design to the essence, devoid of all excess: pure simplicity and elegance. This modular outdoor sofa consists of five elements that combine easily into a corner sofa, long couch, lounge bed, etc. The sofa is available in high-quality teak from Indonesian plantations. Deep casual cushions to sink into create an informal, relaxed look and are available in numerous luxury outdoor fabrics. In addition to casual cushions, the Pure sofa armchair is also available with Miami cushions.

### VIS À VIS

PIERGIORGIO CAZZANIGA

The Vis à vis collection gives wooden outdoor furniture a new dimension. Teak is designer Cazzaniga's favourite outdoor material, it is natural, soft to touch and extremely durable. When he started to design the collection, he thought of a place where people could be outside and communicate with each other in total comfort. The result was a lounge with royal dimensions and an integrated side table, designed in a way that two loungers fit into each other.

LOUNGE CHAIRS

NATAL ALU

STUDIO SEGERS

The Natal Alu collection combines functionality with impeccable class and a strong charisma. The straight, angular lines of the aluminium frame contrast beautifully with the curved seat in Batyline® which seems to float within the frame. In 1999, the stainless steel version with teak seat won a Henry van de Velde design award. Today the design is still very much in style, although updated with more low-maintenance materials. Batyline is UV and stretch-resistant, dirt-repellent and quick-drying.

W58cm D70cm H72cm SH39cm

NODI

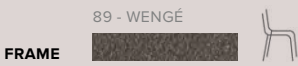

YABU PUSHHELBERG

P. 51, 188

Light and airy, Nodi's silhouette is characterised by twisted-interlaced rope in weather-resistant Canax®, stretched across a precise geometric wireframe. Refined proportions and a minimalist approach to materiality lend a casual lightness to the collection. The slim profile of the arm is angled slightly inward in a welcoming gesture. The open weave in Canax®, a combination of PVC and natural hemp, crosses in vertical and horizontal lines, providing shape and structure to the seat and back.

Code 01912

W23.5" D28.25" H28" SH14.5"  
W60cm D72cm H71cm SH37cm

CTR

PIERGIORGIO CAZZANIGA

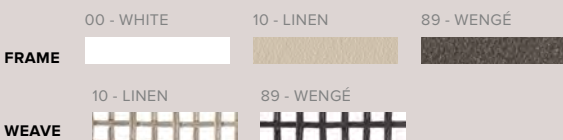

P. 130-131, 132-133, 174-175

Italian designer Piergiorgio Cazzaniga does with the CTR collection what he is good at: making complex designs appear effortless. The frame of the chair is made of profiles in powder-coated stainless steel that are bent in one continuous line. The corners are straight, yet the tubes keep a round form, which requires great mastery. The backrest is attached to the frame at only 2 points and appears to float unsuspected above the seat. The open weave refers to the ancient tradition of weaving and gives flexible support to the back.

Code 01102

W31" D30.25" H30" SH17.75"  
W79cm D77cm H76cm SH45cm

KOS

STUDIO SEGERS

P. 146-147

Basic chic with an excellent, well-studied seating comfort is the best way to describe the Kos collection. The combination of the broad slats and the pure but powerful design, reinvents teak in a modern, robust way. Tribù uses only the very best Javanese plantation wood for its teak outdoor furniture. Its quality is locally controlled by subsidiary Tribù Asia.

MONICA ARMANI

P. 94-95, 98-99

The Tosca outdoor collection is simultaneously warm and inviting, stylish and intriguing. It was the first time Tribù called upon a female designer to draw an outdoor furniture piece with a more feminine touch. Monica Armani succeeded in her challenge: rounded forms, tapered legs and an elegant seating shell in powder-coated stainless steel, upholstered with extra-wide braiding. The material for the braiding is genuinely innovative: foam mousse is encased in a seamless sheath of knitted textile and polyolefine which makes the material weather-resistant, but also surprisingly soft to the touch.

## ELIO

YABU PUSHELBERG

P. 76-77, 78-79

Elio, referring to the Greek sun god Helios and designed by Canadian design firm Yabu Pushelberg, is inspired by the motion of light as it reflects and refracts on landscapes and objects. Multiple soft shades of yarn are woven into one strand, which mimics the hues of natural light and makes each chair unique. The handwoven seat in weather-resistant Tricord rope, draws inward to create a warm, intimate cocoon effect. The chair, perfect for relaxed dining, is framed by natural teak, which supports the seating shell primarily through the back legs that cross the shell.

## TOSCA COUNTER HEIGHT

MONICA ARMANI

The Tosca counter-height chair is a perfect fit for a pool-house kitchen counter. Or pair it with the Illum counter-height table, which is 13cm lower than a regular bar table for poolside cocktails. The chair's elegant seating shell in powder coated stainless steel is upholstered with an extra-large, vertical weave, developed exclusively by Tribù. A great deal of research resulted in a unique product with a natural and soft appearance, that is nevertheless 100% weatherproof and stain-repellent.

CHAIRS

## CTR

PIERGIORGIO CAZZANIGA

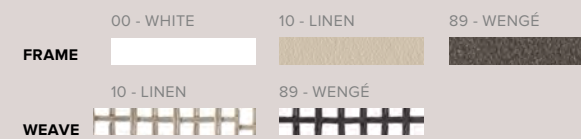

P. 127, 134-135

Italian designer Piergiorgio Cazzaniga does with the CTR collection what he is good at: making complex designs appear effortless. The frame of the chair is made of profiles in powder-coated stainless steel that are bent in one continuous line. The corners are straight, yet the tubes keep a round form, which requires great mastery. The backrest is attached to the frame at only 2 points and appears to float unsuspended above the seat. The open weave refers to the ancient tradition of weaving and gives flexible support to the back. The seat is upholstered with a water-repellent cushion which can be easily removed.

## BRANCH

LIEVORE ALTHERR MOLINA

P. 137, 140

Inspired by tree branches, the Branch outdoor chair looks fluid and organic. Behind the airy, slimline appearance lies a sophisticated design and well-thought-out materials. The aluminium die-cast frame is powder-coated with a double layer for a superior scratch and uv-resistance. The seat and back are made of polypropylene, reinforced with fibre glass. The seating comfort of the garden chair is extraordinary thanks to the anatomic resilience of the back. Aluminium and polypropylene are excellent outdoor materials, easy to clean, weather-resistant and 100% recyclable. The Branch garden chair is available with armrests or without and is stackable for easy storage.

Code 07618

W59cm D57cm H80cm SH47cm

## BRANCH SIDE

LIEVORE ALTHERR MOLINA

P. 137, 138-139, 140-141

Inspired by the branches of a tree, the Branch collection has a sleek, organic look. The idea behind the collection was to design a chair that blends in completely with nature and optimally resists all weather conditions. Behind the slender appearance lies a sophisticated design and a well-considered choice for durable, easy-to-maintain, recyclable materials. The technique of high-pressure injection gives the aluminum frame a firm stability and the resilience of the polypropylene backs ensures excellent seating comfort. The Branch chair is available with or without armrests, both stackable for easy storage.

## NATAL ALU

STUDIO SEGERS

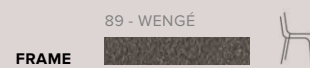

P. 121

The Natal Alu collection combines functionality with impeccable class and a strong charisma. The straight, angular lines of the aluminium frame contrast beautifully with the curved seat in Batyline® which seems to float within the frame. In 1999, the stainless steel version with teak seat won a Henry van de Velde design award. Today the design is still very much in style, although updated with more low-maintenance materials. Batyline is UV and stretch-resistant, dirt-repellent and quick-drying. The aluminium frame is corrosion-resistant and has a lovely matte look thanks to the textured powder coating. The chairs are also stackable for easy storage.

## NODI

YABU PUSHELBERG

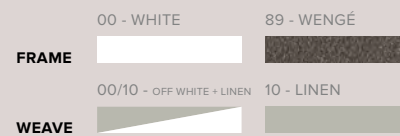

P. 52-53

Light and airy, Nodi's silhouette is characterised by twisted-interlaced rope in weather-resistant Canax®, stretched across a precise geometric wireframe. Refined proportions and a minimalist approach to materiality lend a casual lightness to the collection. The slim profile of the arm is angled slightly inward in a welcoming gesture. The open weave in Canax®, a combination of PVC and natural hemp, crosses in vertical and horizontal lines, providing shape and structure to the seat and back. Strong and durable, the rope work is also gently forgiving, adding to the ease and comfort of each chair.

**CHAIRS**

**ILLUM**

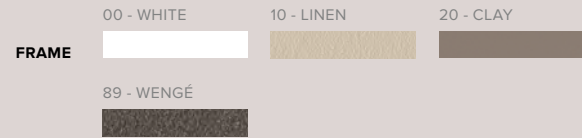

MERCKX & MAES

**P. 161, 163, 166-167, 168-169**

The Illum collection refers to the classical Scandinavian furniture archetypes, translated with updated materials for outdoors. Aluminium is used like sculpted wood and Batyline for the seating, serving both looks and durability. Batyline has a lasting high tension and is known to be UV resistant, quick drying and dirt repelling. The soft-curving back of the chair provides an inviting view and seating comfort. Functionality is paramount for Illum, without compromising on comfort and class.

# TABLES

## TABLES

### AMANU

YABU PUSHELBERG

P. 26-27, 34

Exploring the organic beauty and durability of teak, Yabu Pushelberg crafted a dining table that exudes the notion of togetherness. The broad, ceramic tiles seem to float on the discreet, yet sturdy teak frame, creating a remarkable lightness. The rounded edges of both the teak profiles and the outer ceramic tiles, convey a soft and harmonious look that stands out by its simplicity.

## ILLUM TEAK

MERCKX & MAES

**P. 78-79**

The teak Illum table maintains the slender proportions of the aluminium version, using the finest teak from carefully managed plantations in East Java. The table top connects with the legs in a smooth curve, the corners being hand-sculpted and sanded from a solid piece of wood. There are no hard edges on this Illum table – all contours are rounded for a soft, pleasing look and feel.

## TOSCA DINING / LOW DINING

MONICA ARMANI

**P. 92-93**

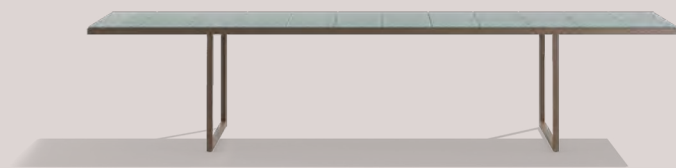

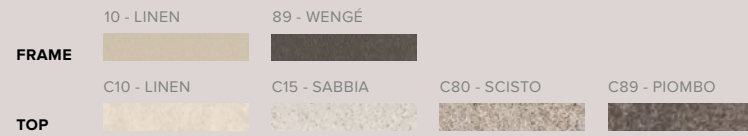

To complete the exclusive Tosca collection, Monica Armani designed a refined dining table with the same elegant, tapered legs and a ceramic table top with a unique oval shape. It is the perfect combination of technical perfection and sophisticated beauty. The ceramic, adorned with a subtle pattern, is laminated on glass, water-jetted in an oval shape and then CNC-milled. Ceramic is an ideal outdoor material, as it is completely UV-resistant, frostproof, extremely scratchproof and completely stain-repellent, not to mention easy to maintain.

## TAO OVAL

MONICA ARMANI

P. 112-113, 168-169

The elegant Tao table collection is a lesson in perfectly balanced contrasts – bold sculptural pedestals and slim tabletops that are pleasing to the touch. Designer Monica Armani uses refined lightened concrete that evokes a look of elegant solidity. The central pedestal of the newest addition to the Tao collection, supports a finely milled grand oval tabletop, invitingly extending outdoor experiences. Tao tables come in natural linen and warm wengé tones to create striking centerpieces for any setting.

### OTTO

MARC MERCKX

P. 12, 16, 41, 42, 45, 47, 81, 85, 114, 117, 151, ...

Otto was inspired by a rhythmic 'ribbon' pattern, often found in Italian bar counters from the '40s. The collection also refers to ancient architectural pillars with their typical fluted pattern. Using merely one simple element, an endless yet interesting surface can be created. Wich not only significantly reducing the waste of precious teak, but creates a durable timeless design that accommodates many outdoor purposes.

## HEXAGON

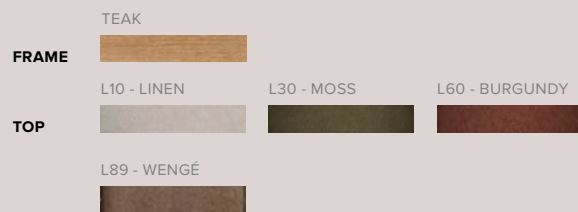

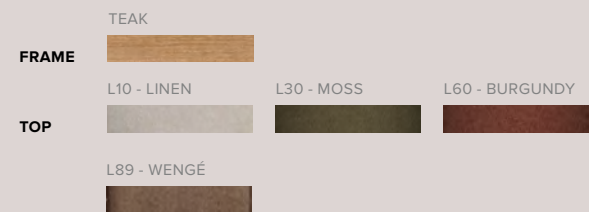

MARC MERCKX

P. 193, 171

The rugged basalt columns of the Giant's Causeway in Northern Ireland were the inspiration for the Hexagon side table. It comes in a variety of heights and sizes, like the basalt columns, which makes a strong statement when grouped together. The sturdiness and pure symmetry of honeycomb also influenced these teak side tables. Hand crafted glazed lava stone, each piece unique and available in a selection of 4 colours, adds to the bold, natural look.

### MAI

ILIA ECKARDT

P. 8-9, 12-13, 118-119, 151, 154-155, 183, 184

The organic structure of the fully knitted Mai collection originates from the design philosophy of creating intense connection between people and nature, incorporating elements of nature into design. Designer Ilia Eckardt's contemporary approach to traditional knitting techniques results in this sophisticated leaf inspired texture that subtly plays with directions, showcasing experimentation in the design.

### GOBI

ILIA ECKARDT

P. 12, 44, 91, 92, 98, 111, 146, 151, 159, 180-181

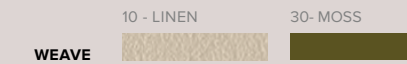

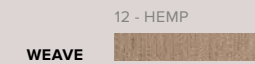

The idea of GOBI was inspired by Ilia Eckardt's innovative handmade crochet technique and is an enlarged version of a heritage knit stitch. It's an impressive handmade piece consisting of recycled yarn, with strong visual impact and a reflection of true skill. The contemporary take on celebrated craftsmanship and the presence of a mood-enhancing organic feel flawlessly embody nature.

ACCESSORIES

LOFT

TRIBÙ STUDIO

By combining your choice of Tribù furniture and accessories, you can create the perfect outdoor entertaining space. Adding a rug brings these design elements together and adds a focal point to the scene. The Loft outdoor rugs are available in white, wengé and linen and are made of a coloured weave of PVC-coated polyester.

MONSIEUR TRICOT

ILIA ECKARDT

P. 107, 112-113, 127, 176-177

Monsieur Tricot is a collection of knitted and hand crocheted outdoor lighting elements that will turn your outdoor space and garden into a magical place. The lamps combine traditional techniques with high-performing materials and modern technology. Designer Ilia Eckhardt composed his collection as a family. Meet the handsome Monsieur Lebonnet, the graceful Madame Latoque, the chic Madame Cachet and their nephew Monsieur Ellipse.

### General Information

Dimensions and technical details may be subject to changes without prior notice. Tribù cannot be held responsible for any possible printing errors.  
Medidas y acabados técnicos pueden sufrir cambios sin aviso previo. Tribù no puede ser considerado responsable por posibles errores de impresión.

The reproduction of colors may differ from reality.  
La representación de los colores puede variar de la realidad.

In the case of the shade of wengé, the designation refers exclusively to the shade and not to the material.  
En el caso de la tonalidad Wenge, la denominación se refiere únicamente a la tonalidad y no al material.

When ordering a sofa configuration that is not shown in the price list, please include a sketch with your order.  
Cuando solicite una configuración de sofá que no se muestra en la lista de precios, por favor incluya un boceto con su pedido.

# WARRANTY

## GARANTÍA

### Terms of warranty

A warranty period of 3 years applies to all Tribù branded furniture items and 1 year for cushions, fabrics and protective covers, against all manufacturing and material errors that would affect their use. The warranty commences on the day the product was bought from an official Tribù trading partner (see date on the proof of purchase).

The warranty applies to manufacturing and material errors that occur during normal usage, and not to errors or deficiencies occurring in the course of time or normal usage (wear and tear). Conditions not covered by this warranty include – but are not restricted to – colors fading, changes in wood textures, scratches occurring during use, damage resulting from defective maintenance or incorrect use, etc. The warranty does not for example cover discoloration or colors running, cracks, scratches or tears occurring in the varnish due to usage.

### Condiciones de garantía

Para todos los productos de la marca Tribù se aplicará un período de garantía de 3 años (1 año por cojines, telas y fundas protectoras) contra defectos de fábrica o material. La garantía empezará el día el día indicado en la fecha de la factura, en que dicho producto fue adquirido a través de un dealer oficial de Tribù.

La garantía se aplicará a errores de material y producción surgidos durante el uso normal, no a errores o imperfecciones que se deben al paso del tiempo o el uso normal (desgaste). Las circunstancias no cubiertas por la presente garantía incluyen – pero no se limitan a – los desvanecimientos de color, cambios en las texturas de madera, rasguños causados por el uso, daños ocasionados por un mantenimiento defectuoso o un uso erróneo, etc. La garantía no cubrirá, por ejemplo, colores desteñidos o corridos, grietas, rasguños o fisuras de la laca originados por el uso del producto.

Lava stone	02370D-10-Lx	02370D-89-Lx
------------	--------------	--------------

This is an additional cost versus the price for teak (regular p60-61 & deep p62-63)

Este suplemento adicional es debido a la diferencia de precio entre teca y lavastone (estándar p60-61 & profundo p62-63)

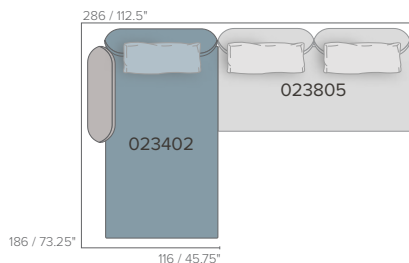

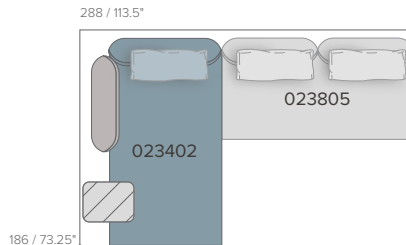

The table tops mentioned are in teak. For lava stone there is an additional cost.  
 Los tableros mencionados son de teca. Para la piedra de lava hay un coste adicional.

Limited availability

Roots

The Dunes and Roots collections are defined by the elegant pattern of the wood grain. Chiseled out of Tribù's plantation-grown teak, every detail, every knot, every crack is proudly on display.

Las líneas Dunes y Roots se definen por la elegancia de sus vetas. Son elaboradas con teca cultivada en plantaciones de Tribù y cada detalle, cada nudo, cada grieta, se desgastan con orgullo.

A perfect quality is the cornerstone of Tribù's company philosophy. This is guaranteed by a careful selection of the most durable materials, a long term cooperation with industrial partners, each an expert in their field, and a rigorous testing of our models in compliance to both EU and USA standards.

**BIFMA X5- RANGE**

BIFMA (Business and Institutional Furniture Manufacturers Association) is an American standard that sets the acceptance levels and test parameters for evaluating the safety, durability and structural adequacy of contract furniture.

**EN 581-1:2006**

A EU standard that specifies the general safety requirements for seating and tables.

**EN 1728:2012**

A EU standard that specifies the mechanical requirements (strength and stability) and test methods for furniture seating.

**EN 1022:2005 6**

A EU standard that measures the stability of domestic furniture.

**CPSD-HL-01012-MTHD**

Measures the effect of extreme temperature change (24hrs at -17°C/0 °F and 48°C/120°F).

**CPSD-HL-01063-MTHD**

Measures the moisture content of wood, which should be between 8 and 12%.

**CPSD-HL-01010-MTHD/ASTM B117-11**

Measures the resistance to corrosion of metal parts.

**AATCC 16**

Measures the colourfastness to light.

**AATCC106**

Measures the colourfastness to sea water.

**AATCC162**

Measures the colourfastness to chlorinated pool water.

**ASTM B117-11**

Tests the corrosion resistance of coated metals in a controlled atmosphere.

Calidad perfecta es la base de la filosofía empresarial de Tribù. Esta calidad está garantizada por una cuidadosa selección de los materiales más duraderos, una larga colaboración con los mismos socios industriales, cada uno experto en su campo y la prueba extensa de nuestros modelos para cumplir tanto con las normas UE y las normas EE.UU.

**BIFMA X5- range**

BIFMA (Business and Institutional Furniture Manufacturers Association) es una norma americana que establece la aceptación de niveles y los parámetros de prueba para la evaluación de la seguridad, durabilidad y para la adecuación estructural para los muebles de proyectos.

**EN 581-1:2006**

Una norma de la UE que establece los requisitos generales de seguridad para sillas y mesas.

**EN 1728:2012**

Una norma de la UE que establece los requerimientos mecánicos y métodos de prueba (resistencia y estabilidad) para los muebles de asiento.

**EN 1022:2005 6**

Una norma de la UE que mide la estabilidad de los muebles para uso doméstico.

**CPSD-HL-01012-MTHD**

Medir el efecto de la temperatura extrema (24 h a -17 ° c y 48 ° c).

**CPSD-HL-01063-MTHD**

Medir el contenido de humedad de la madera. Esto debe ser entre 8 y 12%.

**CPSD-HL-01010-MTHD/ASTM B117-11**

Medir la resistencia a la corrosión de partes metálicas.

**AATCC 16**

Medir la solidez de los colores a la exposición a la luz.

**AATCC106**

Medir la solidez de los colores cuando se expone al agua de mar.

**AATCC162**

Medir la solidez de los colores cuando se expone al agua de la piscina con cloro.

**ASTM B117-11**

Prueba la resistencia a la corrosión de los metales lacados en una atmósfera controlada.

# FIRE RETARDANT CUSHIONS

## COJINES IGNÍFUGOS

---

For projects, Tribù is able to offer fire retardant cushions (foam and fabric).

We are happy to work with you on your project and find the best solution.  
Please do not hesitate to contact our contract department ([teamcontract@tribu.com](mailto:teamcontract@tribu.com)) for a tailored solution.

---

Para proyectos Tribù puede ofrecer cojines ignífugos (relleno y tejido)

Estaremos encantados de trabajar con usted en su proyecto y encontrar la mejor idea.  
Póngase en contacto con nuestro departamento de proyectos ([teamcontract@tribu.com](mailto:teamcontract@tribu.com)) para una solución a su medida.

## OUTDOOR FILLING

All our cushions are weatherproof, which means you can leave them outside, even during short periods of rain. To preserve the beautiful appearance of the cushions, it is best to keep them indoors during autumn and winter. Depending on the design of the cushions, there are 2 different systems:

**water-repellent fillings** have a cover in a laminated, water-repellent polypropylene material which prevents water from penetrating. The thread used to stitch the seams swells when getting wet, preventing water from penetrating through the seams. On top of that, the seams are protected on the inside with an extra covering. If nevertheless water should penetrate, the material is breathable, letting moisture out to prevent molding.

(AMANU, CTR BACK CUSHIONS, ELIO, MOOD SOFA, NATAL ALU SOFA, NODI SOFA, NOMAD EASY CHAIR, PURE SOFA CASUAL, SENJA, TOSCA AND VIS À VIS SOFA)

**water-permeable fillings (dryfoam)** have an open cell structure so air can circulate freely. Water passes through the filling but dries quickly thanks to the large open pores, substantially inhibiting fungal growth.

(CTR SEAT CUSHIONS, NODI, PAVILION DAYBED, PURE SOFA MIAMI, REGISTA, KOS)

## NODI SOFA, an incomparable comfort

In addition to the water-repellent properties mentioned above, the cushions of our Nodi Sofa are filled with an innovative, new generation material with a remarkable softness, outstanding shape-retention and excellent breathability.

This new, natural and recyclable polyester fibre is set to change the world of synthetic foams and fibres used for cushion fillings. As a result of its unique molecular structure, it maintains its bounce even after repeated compressions and quickly recovers its airy volume. Thanks to its high durability, its

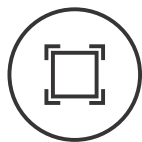

unique texture is retained for a long time.

Nodi's back cushions consist of compartments fully filled with this new fibre, combined with recycled memory-foam particles. This provides excellent support and form stability.

The seat cushions are filled with high quality PU foam with a padding in non-carded microfibre that has been developed for its softness, fluffiness and comfort, creating a seat cushion with the same performance as feathers and down.

Outstanding softness

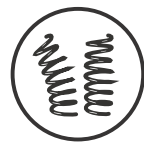

Excellent shape retention

Comfortable stretch

Highly ecological

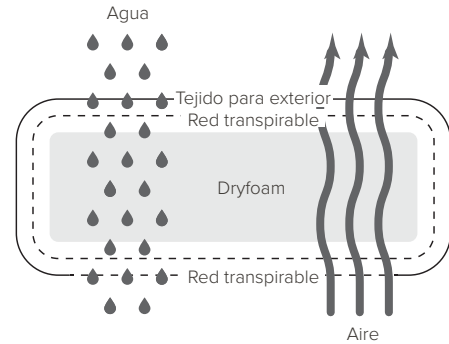

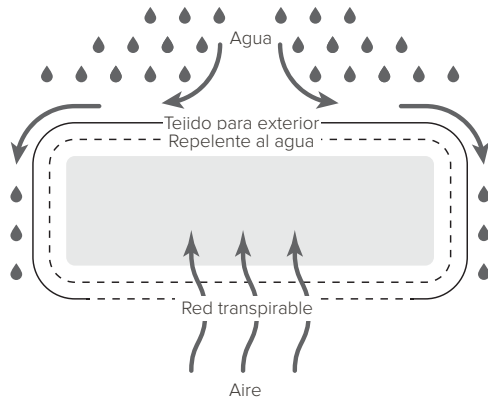

Superior rebound

## RELLENOS PARA EXTERIOR

Todos nuestros cojines son impermeables, lo que significa que se pueden dejar afuera, incluso durante periodos cortos de lluvia. Para mantener la hermosa apariencia de los cojines, es mejor mantenerlos en el interior durante el otoño y el invierno. Dependiendo del diseño de los cojines, hay dos diferentes sistemas:

los cojines impermeables tienen alrededor del relleno una funda de polipropileno laminado impermeable que impide que el agua entre en el relleno. El hilo utilizado para las costuras se infla cuando se moja, de modo que el agua tampoco puede entrar por las costuras. Además, la cara interna de las costuras también está protegida por una funda adicional. Si, a pesar de todo, el agua lograra penetrar, la humedad puede salir, ya que el relleno es transpirable.

(AMANU, CTR COJINES RESPALDO, ELIO, MOOD SOFA, NATAL ALU SOFA, NODI SOFA, NOMAD EASY CHAIR, PURE SOFA CASUAL, SENJA, TOSCA AND VIS À VIS SOFA)

los cojines permeables al agua (los de espuma seca) tienen una estructura celular abierta que permite que el aire circule libremente. El agua penetra en el relleno, pero se seca rápidamente gracias a los poros grandes y abiertos, de modo que las posibilidades de formación de moho son muy escasas. (CTR COJINES DE ASIENTO, NODI, PAVILION DAYBED, PURE SOFA MIAMI, REGISTA, KOS)

## SOFÀ NODI, un confort incomparable

Además de las propiedades impermeables mencionadas anteriormente, los cojines de nuestro sofá Nodi Sofa están rellenos de un innovador material de última generación, extraordinariamente mullido y con una transpirabilidad excelente, que además conserva su forma de manera excepcional.

Esta nueva fibra de poliéster natural y reciclable establecerá un antes y un después en el mundo de las fibras y las espumas sintéticas utilizadas en los rellenos de cojín. Incluso después de ser sometido a repetidas presiones, mantiene sus propiedades para recuperar su forma original y su esponjoso volumen. Gracias a su alta durabilidad, su textura única su

forma original durante mucho tiempo.

Los cojines del respaldo del sofá Nodi están compuestos por compartimentos totalmente rellenos de esta nueva fibra, en combinación con partículas de espuma viscoelástica recicladas, lo que proporciona un apoyo excelente y evita que se deformen.

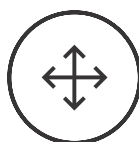

Por su parte, los cojines del asiento están rellenos de espuma de poliuretano de alta calidad, con un acolchado en microfibra, que se caracteriza por ser mullida, esponjosa y cómoda. En definitiva, todo ello permite obtener un cojín de asiento con los mismos resultados que las plumas y el plumón.

Extramullido

Excelente conservación de la forma

Elasticidad y comodidad

Altamente ecológico

Resistencia superior

# FABRIC TYPES

## TIPOS DE TEJIDOS

### INFORMATION

Tribù offers a selection of 118 different outdoor fabrics, all carefully chosen to match our discreet luxury character. Each fabric is engineered with high performance characteristics that provide resistance to fading from sunlight and offer a long life. Durable, yet very tactile. Within our range, we work with 3 different fabric types, see overview beneath. You can find more info on these fabric types on the following pages.

### INFORMACIÓN

Tribù dispone de una gama de aproximadamente 118 tipos de tejidos para exterior, todos ellos seleccionados cuidadosamente para mantener el lujo propio de nuestra marca. Todos los tejidos han sido producidos con características de alto rendimiento, son resistentes a los efectos del sol y garantizan una prolongada vida útil. Resistentes, pero aún así muy agradables al tacto. Dentro de nuestra gama trabajamos con 3 tipos de tejidos, consulte la tabla de abajo. En las páginas siguientes encontrará más información al respecto.

### INFORMATION

Acrylic fabrics are durable, high-performance synthetic fabrics made from acrylic fibers. They have a number of advantages including mildew-resistant properties and a minimal absorbency of liquids. The acrylics Tribù uses are solution-dyed which means that they are dyed before the yarn is created. A liquid acrylic solution is mixed with the dye and is then formed into a fiber so it already has color before it is spun into a yarn. This process guarantees an optimal colour fastness. Their ability to breathe prevents mold from building up on the surfaces of the fabric. The open weave provides air flow helping to reduce heat and humidity. In addition to the technical performance, acrylic fabrics have a very soft look and feel, creating the perfect ambiance for your outdoor furniture. Our solution dyed fabrics are treated with a special Teflon® coating to make them water repellent and resistant to stains, grease, fluids and salt or chlorine water.

### MAINTENANCE

The covers of all our cushions can be removed and cleaned. All solution dyed acrylics can be washed at 30° C. After washing we recommend to apply Textile Protector (p. 189) which provides the fabric with an invisible, water- and stain repellent film.

---

### INFORMACIÓN

Los tejidos acrílicos son duraderos y de alta calidad, elaborados a partir de fibras acrílicas. Tienen varias ventajas, como una alta resistencia al moho y una mínima absorción de líquidos. El acrílico que Tribù utiliza está coloreado en masa. Esto significa que las fibras se han coloreado antes de fabricar el hilo. Se mezcla una solución acrílica líquida con el tinte y a continuación se crea una fibra que ya tiene todo su color antes de elaborar el hilo con ella. Este proceso garantiza una estabilidad óptima del color (una resistencia al envejecimiento del color de 7/8) gracias a su transpirabilidad, no da cabida al moho. El tejido abierto también favorece a la circulación de aire, por lo que los tejidos no se calientan ni se quedan pegajosos. Además de sus extraordinarias características técnicas, los tejidos acrílicos también tienen un aspecto y un tacto suave, de modo que le ayudarán a crear el ambiente perfecto en su terraza. Todos nuestros tejidos han recibido un tratamiento con Teflon®, por lo que son impermeables, evitan la adherencia de la suciedad y las grasas y son resistentes al agua salada y clorada.

### MANTENIMIENTO

Todas las fundas de almohadones se pueden quitar y lavar. Los tejidos acrílicos se pueden lavar a 30° C. Después de cada lavado, recomendamos aplicar Textile Protector (pág. 189) para crear una película invisible e impermeable que evita la adherencia de la suciedad.

# SOLUTION DYED POLYOLEFIN

POLIOLEFINA COLOREADA EN MASA

---

KNIT, LINEN, TAGIKA, TAMAN, TWIST

---

## INFORMATION

Solution dyed polyolefin fabrics are the perfect combination of ecology (100% recycable), durability and performance, being twice as strong as acrylics. Polyolefin fabrics are resistant to water, mildew and stains. Combined with their high abrasion and pilling resistance, it makes them the perfect fabrics for your outdoor furniture. Their UV-resistance is dependent on the colour and might be lower than solution dyed acrylic fabrics (test results can be found on the back of your sample swatch and on p. 138-143). In case of lower results, slight fading of the colour might occur after 2 years.

## MAINTENANCE

The cover of all our cushions can be removed and cleaned. All solution-dyed polyolefin fabrics can be washed at 30° C. After washing we recommend to apply Textile Protector (p. 189) which provides the fabric with an invisible, water- and stain repellent film.

---

## INFORMACIÓN

Los tejidos de poliolefina coloreados en masa son la combinación perfecta de respeto por el medio ambiente (100 % reciclable), durabilidad y prestación. Son dos veces más resistentes que el acrílico. Los tejidos de poliolefina son resistentes al agua, el moho y las manchas. En combinación con su alta resistencia al desgaste y la formación de pelusas, son los tejidos perfectos para su sofá de exterior. Su resistencia a los rayos ultravioleta depende del color y podría ser inferior a la de los tejidos acrílicos coloreados en masa (puede consultar los resultados de las pruebas en el reverso del paquete de muestras de tejidos o en la pág. 138-143). En caso de que presenten una resistencia más baja, el color puede aclararse después de 2 años.

## MANTENIMIENTO

Todas las fundas de almohadones se pueden quitar y lavar. Todos los tejidos de poliolefina se pueden lavar a 30 °C después de cada lavado, recomendamos aplicar Textile Protector (pág. 189) para crear una película invisible e impermeable que evita la adherencia de la suciedad.

# PVC COATED POLYESTER

POLIÉSTER RECUBIERTO DE PVC

---

SUNSCAPE

---

## INFORMATION

These fabrics are composed of polyester that is coated with PVC. The polyester provides strength and dimensional stability, while the PVC coating makes the material waterproof and resistant to dirt, mildew, oil, salt, chemicals and UV rays. It also gives the material added strength and durability.

## MAINTENANCE

PVC coated fabrics are very maintenance friendly and can easily be cleaned with clear water, a pH- neutral soap and a soft brush. Rinse with clear water. Stubborn stains can be removed with Synthetics Super Cleaner (p. 188).

---

## INFORMACIÓN

Estos tejidos se han elaborado a partir de hilo de poliolefina recubierto de PVC. La poliolefina ofrece resistencia y estabilidad dimensional, mientras que el recubrimiento de PVC impermeabiliza el material y lo hace resistente a la suciedad, el moho, el aceite, la sal, los productos químicos y los rayos ultravioleta. Además, también lo hace más sólido y duradero.

## MANTENIMIENTO

Los tejidos requieren un mantenimiento muy sencillo y se pueden limpiar fácilmente con agua y un detergente líquido Ph neutro. Enjuagar con agua y Synthetics Super Cleaner (p. 188).

# LEGEND FABRIC PROPERTIES

## EXPLICACIÓN PROPIEDADES DE LA TELA

---

**Abrasion resistance:** fabric's ability to withstand surface wear from rubbing.

**Martindale test**

Fabric is mounted flat and rubbed in a figure eight-like motion using an abrasive surface. The number of cycles endured before the fabric shows an objectionable change in appearance is counted and determines the fabric's abrasion rating.  
20.000 = general contract upholstery  
40.000 = heavy duty upholstery

**Colour fastness**

Colour fastness to weathering (ISO 105-B04):

The fabrics undergo a series of light, rain and temperature changes. The result is expressed in a discoloration degree where grade 1 means full discoloration and grade 8 means no discoloration.

**Tribù UV-test**

The fabrics are tested for UV resistance with an aging accelerator in compliance with ISO standard 4892-2 for 5.000 hours and outdoors in Florida, Indonesia and Belgium. Based on these tests the fabrics are awarded a maximum score of 5.

**Pilling**

The fabric's propensity to pilling. Maximum score is 5 (= least inclined).

---

**Resistencia a la abrasión:** capacidad del tejido para resistir el desgaste por la fricción.

**Prueba Martindale**

El tejido se estira y frota con un movimiento en forma ocho utilizando un abrasivo. El número de ciclos realizados antes de que el tejido muestre un cambio notable en la apariencia se cuenta y determina el índice de abrasión del tejido.  
20.000 = tejido de uso general en el sector contractual  
40.000 = tejido para uso intenso

**Resistencia del color a la intemperie**

Durante la prueba ISO105-BO5, los tejidos se someten a distintos cambios de temperatura y luz, y a la lluvia. El resultado se expresa en grado de decoloración, siendo el grado 1 una decoloración total y el grado 8 una decoloración inexistente.

**Prueba Tribù UV**

Se comprueba la resistencia UV de los tejidos con un acelerador de envejecimiento de conformidad con la norma ISO 4892-2 durante 5.000 horas, así como a los choques térmicos (congelación y sobrecalentamiento). La puntuación máxima es 5.

**Pilling**

La formación de bolitas de fibras enmarañadas, en la superficie de un tejido. El número máximo de puntos es de 5 (= inclinación más baja).

# ALUMINIUM

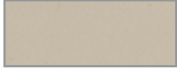

## ALUMINIO

BRANCH, FORUM, ILLUM, NATAL ALU, PAVILION, SENJA & SURO

### INFORMATION

Aluminium is a non-ferrous metal, which combines great mechanical rigidity with light weight. This makes it especially suitable for furniture. If treated correctly, it has a good resistance to corrosion. By powdercoating aluminium, this corrosion resistance can even be enhanced. After a chemical pre-treatment, an epoxy powder is applied statically and baked. Tribù always uses European, ultra-durable and scratch-resistant polyester powdercoatings that guarantee a UV-resistance of 15 years. For certain collections (Branch & Illum) parts of the frame are die-cast under high pressure which results in a seamless and extremely solid frame. Additionally, an extra epoxy primer coat is applied for these collections.

### MAINTENANCE

Powder coated aluminium is easy to clean with clear water and a pH-neutral fluid detergent. Stubborn stains can be removed with Aluminium Cleaner (p. 186). If necessary, use a soft brush to remove the dirt from the pores. To protect the frame against the adhesion of dirt, Aluminium Protector (p. 186) can be used which applies an invisible protective film.

### INFORMACIÓN

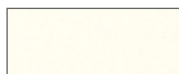

El aluminio es un metal no ferroso que combina una alta rigidez mecánica con un peso ligero. Esta característica lo hace especialmente adecuado para la fabricación de mobiliario. Si se trata correctamente, el aluminio ofrece una gran resistencia a la corrosión, que se incrementa todavía más si se pinta en polvo. Tras un tratamiento químico previo, se aplica una pintura en polvo mediante un tratamiento electrostático y posteriormente se cuece.

Tribù utiliza siempre pinturas de poliéster en polvo europeas ultra-durable a los arañazos y con una resistencia a los rayos ultravioleta de 15 años. En determinadas colecciones (Branch y Illum), algunas partes del aluminio se moldean por inyección a alta presión, con lo cual se consigue una estructura sin juntas y muy resistente. En estas colecciones se aplica también una capa adicional de imprimación epoxi.

### MANTENIMIENTO

El aluminio requiere un mantenimiento sencillo, con agua y un detergente líquido Ph neutro. Las manchas persistentes se pueden eliminar con Aluminium Cleaner (p. 186). Si es necesario, se puede utilizar un cepillo suave para eliminar la suciedad de los poros. aluminium Protector (p. 186) crea una película invisible que evita la adherencia de la suciedad en la estructura.

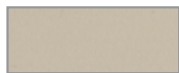

### INFORMATION

Stainless steel is an iron alloy in which the resistance to corrosion is increased by the addition of chrome, molybdenum and nickel. When exposed to air, a chromium oxide skin is formed spontaneously that protects the metal against rust. By powdercoating stainless steel, you can increase its corrosion resistance to the same level as that of aluminium. For its powdercoated stainless steel furniture Tribù uses 304L stainless steel that is ceramic blasted before it is powdercoated. Tribù always uses European, ultra-durable and scratch-resistant polyester powdercoating that guarantee a UV-resistance of 15 years.

### MAINTENANCE

Powdercoated stainless steel is easy to clean with clear water and a pH-neutral fluid detergent. Stubborn stains can be removed with Aluminium Cleaner (p. 186). If necessary, use a soft brush to remove the dirt from the pores. To protect the frame against the adhesion of dirt and to reduce fingerprints, aluminium Protector (p. 186) can be used which applies an invisible protective film.

---

### INFORMACIÓN

El acero inoxidable es una aleación cuya resistencia a la corrosión se incrementa mediante la adición de cromo, molibdeno y níquel. El óxido de cromo, una dura capa cerámica que protege el metal contra la oxidación, se forma espontáneamente por exposición al aire. Al revestir el acero con una pintura en polvo, su resistencia a la corrosión se iguala a la del aluminio. Para el acero inoxidable pintado en polvo, Tribù utiliza acero 304L radiado previamente con gránulos cerámicos. Tribù utiliza siempre pinturas de poliéster en polvo europeas ultra-durable a los arañazos y con una resistencia a los rayos ultravioleta de 15 años.

### MANTENIMIENTO

El acero inoxidable pintado en polvo requiere un mantenimiento sencillo, con agua y un detergente líquido Ph neutro. Las manchas persistentes se pueden eliminar con Aluminium Cleaner (p. 186). Si es necesario, se puede utilizar un cepillo suave para eliminar la suciedad de los poros. aluminium Protector (p. 186) crea una película invisible que evita la adherencia de la suciedad en la estructura.

#### INFORMATION

Because Tribù makes no concessions when it comes to quality, we only use carefully selected, fully grown teak, which is harvested in accordance with the strictest environmental standards from the three highest quality Indonesian plantations in the East of Java. The local productions are checked all year round by subsidiary Tribù Asia, based in Semarang and led by a European management. Tribù designs its furniture in the way that the wood is used as efficiently as possible.

Teak is classed as the most premium wood on the planet and therefore the most suitable species for outdoor furniture. Beyond its beauty, teak possesses some natural properties that other woods don't have. It is extremely durable, stable, water and weather resistant. This is due to the high levels of natural oils which result in minimal moisture absorption, giving it great stability. Moreover, the wood is extremely resistant to fungi, as well as against parasite attacks and insects.

A tree is mature after 75 to 80 years. The trees are ringed, which means that the lower band of the bark is removed. The tree then loses most of its sap. About two years later it is felled and sawed up. Tribù selects each log based on its structure. Drying the wood is a very important phase and determines how it reacts later on. The time and speed of drying depends on the thickness of the material. Ideally the level of moisture lies between 8 and 12%.

#### MAINTENANCE

Teak left in its natural state, is virtually maintenance-free. It can be left outside all year round, surviving even the most extreme weather conditions. New teak will experience natural oil surfacing that appears like a "watermark" or irregular pattern of discoloration. These areas are part of the natural maturing process and can be removed with gentle washing with Teak Super Cleaner (p. 184).

Over time, untreated teak furniture which is exposed to sun and rain will turn silver grey. This process is cosmetic and does not harm the strength or quality of the wood.

To avoid the annual cleaning of the wood, you can apply Teak Sealer (p. 184). Teak Sealer contains UV protection to slow down the graying from the sun as well as a fungicide to prevent the growth of mold and mildew. Teak Sealer can be applied to new teak or old teak furniture after it has been cleaned. We recommend using Teak Super Cleaner (p. 184) to clean soiled furniture. If Teak Sealer is applied every season, a simple cleaning with water and a pH neutral soap will do for years. Teak Sealer is a sealer and is not the same as varnish. It is breathable, letting the natural oils escape without bubbling or peeling like varnish.

Teak Protector (p. 185) protects the wood against stains and green deposit, without colouring the wood. We recommend to apply it after each cleaning.

#### USE OF VARNISH AND OIL ON TEAK

Teak is protected by its own natural oils that migrate to the surface of the wood and make the wood virtually impervious to water. As such, the use of varnish and oil (especially linseed oil) on teak furniture is not recommended. Products such as varnish and polyurethane may peel and chip and require vigorous sanding to remove. Oiling teak does not prevent the wood from graying, and often results in mold and mildew growing on the furniture. Removing mold and mildew on the surface requires washing the furniture with bleach and soap followed by sanding. Tribù and authorities from the timber profession itself tend to advise against the use of teak oil.

#### OIL STAINS ON CUSHIONS

Because teak does not absorb water and is rich in natural oils and silicates, the weathering process includes oil surfacing. This teak oil can cause stains on cushions. Fabric stained by natural teak oil can be cleaned with soap and water or a special eucalyptus-based cleaner. Please be aware oil surfacing is a naturally repeating process that cannot be prevented.

### INFORMACIÓN

En cuestiones de calidad, Tribù no deja nada al azar, por lo que tan sólo utiliza árboles de teca adultos cuidadosamente seleccionados y cultivados respetando las normas de medio ambiente más estrictas y procedentes de las tres plantaciones de mejor calidad de Java Oriental. Las producciones locales son controladas durante todo el año por nuestra filial Tribù Asia, establecida en Semarang y dirigida por una administración europea. Tribù diseña su mobiliario con vistas a que la madera se utilice de la forma más eficiente posible para minimizar la cantidad de residuos.

La teca está considerada como la madera de mejor calidad del mundo y por tanto es la más adecuada para el mobiliario de exterior. Además de su belleza, la teca tiene varias propiedades naturales que otras maderas no tienen. Es extremadamente duradera, estable y resistente al agua y la intemperie, en parte, gracias a su alto nivel de aceites naturales, que limita al máximo la absorción de humedad y le aporta una alta estabilidad. Además, la madera de teca es extremadamente resistente a los hongos, los parásitos y los insectos.

El árbol alcanza la edad adulta a los 75 - 80 años. Los árboles se anillan, lo cual significa que se elimina la capa más inferior de la corteza. De esta forma, el árbol pierde la mayor parte de su savia. Alrededor de dos años más tarde, se corta y se sierra. Tribù selecciona cada lote según su estructura. El secado de la madera es una fase fundamental y determina su reacción posterior. El tiempo de secado depende del grosor del material. El nivel ideal de humedad se encuentra entre el 8 % y el 12 %.

### MANTENIMIENTO

La teca es una madera única y por su naturaleza apenas requiere mantenimiento. Los muebles de teca pueden permanecer en el exterior durante todo el año, incluso en las condiciones meteorológicas más extremas. En la madera de teca nueva, el aceite natural sale al exterior, por lo que puede presentar marcas de agua o irregularidades en el color. Este efecto forma parte del proceso natural de maduración y se puede eliminar limpiándola suavemente con Teak Super Cleaner (p. 184).

Con el transcurso del tiempo, y debido a la exposición al sol y la lluvia, la teca no tratada se tornará de color gris plata. Se trata de un proceso estético y no tiene influencia ninguna en la resistencia ni en la calidad de la madera. Para evitar la limpieza anual con Teak Super Cleaner se puede utilizar el Teak Sealer (p. 184). El Teak Sealer protege la madera de los rayos ultravioleta y evita que se ponga gris debido al sol. Además, es fungicida y previene la aparición de hongos y mildiu. Teak Sealer se puede utilizar en mobiliario de teca tanto nuevo como antiguo una vez limpio. Recomendamos utilizar Teak Super Cleaner (p. 184) en muebles muy sucios. Si se utiliza el Teak Sealer una vez al año, será suficiente una simple limpieza con agua y un jabón neutro durante años. Teak Sealer es un sellador, no un barniz. Es transpirable, de modo que los aceites naturales de la madera pueden salir al exterior sin formar burbujas ni zonas desconchadas.

Teak Protector (p. 185) protege la madera de las manchas y el moho sin dar color y es aconsejable aplicarlo después de cada limpieza.

### USO DE BARNIZ Y ACEITES EN LA MADERA DE TECA

La teca se protege con sus propios aceites naturales, que emergen a la superficie de la madera y la hacen impermeable. Se desaconseja el uso de barnices y aceites (especialmente el de linaza). Productos como el barniz y el poliuretano pueden descamarse y sólo se pueden retirar lijando fuerte la madera. Los aceites de la teca no evitan que la madera se ponga grisácea y suelen fomentar la aparición de hongos y mildiu. Para eliminarlos, se puede limpiar la zona afectada con un producto blanqueador y jabón, y después lijarla. Tribù y la industria del mueble aconsejan no aplicar aceites a la teca.

### MANCHAS DE TECA EN ALMOHADONES

Dado que la teca no absorbe la humedad y es rica en aceites naturales y silicatos, con el tiempo, el aceite emerge a la superficie. Este aceite puede provocar manchas en los almohadones que se pueden eliminar con jabón y agua o un limpiador especial a base de eucalipto. Tenga en cuenta que la aparición de aceite en la superficie de la teca es un proceso natural y repetitivo y no se puede evitar.

### INFORMATION

Tribù only uses high grade virgin polypropylene compound for the production of the Vintage and Branch collection. The mass dyed PP is made anti-static, anti-fungal, frost resistant and stain repellent by the addition of additives. Also, contact with salt or chlorine water causes no problems. A very high percentage of UV stabilizing additives guarantees extremely high colour fastness, even after a long exposure to sunlight. Sharp objects should be avoided as they may cause scratches.

### MAINTENANCE

Our synthetic furniture pieces are easy to maintain with clear water and a pH neutral soap. Stubborn stains can be removed with Synthetics Super Cleaner (p. 188). If necessary, use a soft brush to remove dirt from the pores. For extra protection we recommend Synthetics Protector (p. 188) or aluminium Protector (p. 186) which apply an invisible film and reduces the adhesion of dirt.

---

### INFORMACIÓN

Tribù utiliza solamente compuestos de polipropileno puro de alta calidad para las colecciones que contienen plástico. El polipropileno coloreado en masa es antiestático, antihongos, antihumedad y resistente a las manchas gracias a la adhesión de aditivos. También es resistente al contacto con el agua salada o clorada. Gracias a su alto porcentaje de aditivos estabilizadores de los rayos ultravioletas se consigue una estabilidad del color extremadamente alta, incluso después de una exposición prolongada al sol. Se aconseja evitar los objetos punzantes puesto que pueden provocar arañazos.

### MANTENIMIENTO

El plástico es fácil de limpiar con agua y un detergente líquido Ph neutro. Las manchas persistentes se pueden eliminar con Synthetics Super Cleaner (p. 188). Si es necesario, se puede utilizar un cepillo suave para eliminar la suciedad de los poros. Si se desea mayor protección, aconsejamos el uso de Synthetics Protector (p. 188) o aluminium Protector (p. 186), para crear una película invisible que evita la adherencia de la suciedad.

#### INFORMATION

Batyline® is a polyester fibre which is coated with solution dyed PVC and then woven. The fibres are then melted together to create an extremely stretch and tear-resistant fabric that keeps its shape perfectly. Apart from its exceptional mechanical strength, it has a high chemical resistance. The synthetic coating guarantees an extremely high weather and UV-resistance. The fact that no moisture is absorbed, results in rapid drying, maximum stain and mould-resistance and simple cleaning. The most important feature is its pliancy and optimal seating comfort.

Canatex® is the marriage between Batyline® and a natural fibre, hemp. The combination of the two leads to more subtle colours and a natural touch, leaving all the technological advantages of the product untouched.

#### MAINTENANCE

Batyline® is easy to clean with clear water and a pH-neutral soap. Stubborn stains can be removed with Synthetics Super Cleaner (p. 188). If necessary, use a soft brush to remove dirt from the pores. Do not use acid, alkaline or chlorinated products that can harm the hardware of your furniture.

For extra protection we recommend Synthetics Protector (p. 188) which applies an invisible film and reduces the adhesion of dirt.

#### INFORMACIÓN

Batyline® es un tejido de hilo de poliéster recubierto de PVC coloreado en masa. Los hilos se funden para crear un tejido altamente resistente a los desgarros y que mantiene la forma perfectamente. Además de su extraordinaria resistencia mecánica, Batyline® también presenta una alta resistencia química. La capa de pvc sintético garantiza una resistencia extrema a la intemperie y los rayos ultravioleta. Batyline® no absorbe la humedad, se seca muy rápido y es resistente a las manchas y los hongos. También es un material muy flexible, por lo que es muy cómodo y agradable.

Canatex® es una variante especial que combina Batyline® con fibras de cáñamo naturales. Esta combinación permite crear colores más sutiles y un aspecto y tacto más naturales manteniendo al mismo tiempo todas las ventajas tecnológicas del producto.

#### MANTENIMIENTO

Batyline® requiere un mantenimiento muy sencillo y se puede limpiar fácilmente con agua y un detergente líquido Ph neutro. Las manchas persistentes se pueden eliminar con Synthetics Super Cleaner (p. 188). Si es necesario, se puede utilizar un cepillo suave para eliminar la suciedad de los poros. No utilice productos ácidos, básicos ni clorurados que puedan deteriorar el herraje de su mobiliario.

Para una mayor protección, recomendamos el Synthetics Protector (p. 188) que aplica una película invisible que reduce la adherencia de la suciedad.

**INFORMATION**

Canax® is a unique combination of natural hemp and synthetic fibres. Unbreakable polyester fibres give strength and stability. PVC makes the Canax® stain repellent and resistant to outside influences, fungi, frost and UV radiation. The hemp finally, gives the material a surprisingly matte look and a natural touch, almost like leather. Canax® is also a CO2 positive product. As hemp is a natural product, differences in colour and structure may appear, giving the furniture - together with the hand weaving - a unique craft appearance, which cannot be regarded as a fault.

**MAINTENANCE**

Canax® requires hardly any maintenance and is easy to clean with clear water and a PH neutral soap. Stubborn stains and persistent green deposit can be removed with Synthetics Super Cleaner (p. 188). Use a soft brush to clean between the weave.

For extra protection we recommend Synthetics Protector (p. 188) which applies an invisible film and reduces the adhesion of dirt.

**INFORMACIÓN**

El Canax® es una combinación única de fibras de cáñamo e hilos sintéticos. Las fibras de poliéster irrompibles proporcionan fuerza y estabilidad. El PVC hace que el color del material no varíe y sea resistente a los hongos, las heladas y las manchas. La fibra de cáñamo proporciona un sorprendente aspecto mate y natural, casi comparable al cuero. Además, Canax® es un producto CO2 positivo. La fibra de cáñamo es un producto natural y por ello puede sufrir variaciones en el color y la estructura. Al estar tejido a mano proporciona a la pieza un aspecto único y artesanal, sus pequeñas variaciones no se han de ver como un defecto.

**MANTENIMIENTO**

Canax® requiere un mantenimiento muy sencillo y se puede limpiar fácilmente con agua y un detergente líquido Ph neutro. Las manchas persistentes se pueden eliminar con Synthetics Super Cleaner (p. 188). Puede utilizar un cepillo suave para eliminar la suciedad incrustada en el tejido.

Para una mayor protección, recomendamos el Synthetics Protector (p. 188) que aplica una película invisible que reduce la adherencia de la suciedad.

**INFORMATION**

Canax® straps are a unique combination of natural hemp and synthetic fibres. Unbreakable polyester fibres give strength and stability. PVC makes the straps stain repellent and resistant to outside influences, fungi, frost and UV radiation. The hemp finally, gives the material a surprisingly matte look and a natural touch. As hemp is a natural product, differences in colour and structure may appear, giving the furniture a unique craft appearance, which cannot be regarded as a fault.

**MAINTENANCE**

The Canax® straps require hardly any maintenance and are easy to clean with clear water and a pH neutral soap. Stubborn stains and persistent green deposit can be removed with Synthetics Super Cleaner (p. 188). Use a soft brush to clean between the weave.

For extra protection we recommend Synthetics Protector (p. 188) which applies an invisible film and reduces the adhesion of dirt.

**INFORMACIÓN**

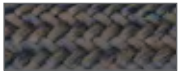

El Canax® es una combinación única de fibras de cáñamo e hilos sintéticos. Las fibras de poliéster irrompibles proporcionan fuerza y estabilidad. El PVC hace que el color del material no varíe y sea resistente a los hongos, las heladas y las manchas. La fibra de cáñamo proporciona un sorprendente aspecto mate y natural. La fibra de cáñamo es un producto natural y por ello puede sufrir variaciones en el color y la estructura. Al estar tejido a mano proporciona a la pieza un aspecto único y artesanal, sus pequeñas variaciones no se han de ver como un defecto.

**MANTENIMIENTO**

Las cintas en tejido Canax® requieren un mantenimiento muy sencillo y se pueden limpiar fácilmente con agua y un detergente líquido Ph neutro. Las manchas persistentes se pueden eliminar con Synthetics Super Cleaner (p. 188). Puede utilizar un cepillo suave para eliminar la suciedad incrustada en el tejido.

Para una mayor protección, recomendamos el Synthetics Protector (p. 188) que aplica una película invisible que reduce la adherencia de la suciedad.

**INFORMATION**

Tricord® is a brand new composite material for which Tribù has exclusivity. It is a unique combination of nautical and synthetic fibres. The inside consists of unbreakable polyester that gives it strength and stability. The outside is a combination of nautical fibres that create a surprisingly soft touch and natural appearance. The composition of these nautical fibres (polyolefin) makes Tricord® completely resistant to outside influences: frost, water, fungi and UV-rays.

The furniture is hand woven - no two pieces are ever alike. The unique craft appearance is part and parcel of the charm of the product and cannot be regarded as a fault. The backs of the Mood and CTR collection can be purchased individually and easily replaced if necessary.

**MAINTENANCE**

Before use, we recommend to treat the Tricord® weave with Textile Protector (p. 189) which applies an invisible, dirt and water repellent film. The straps can be cleaned with clear water and a ph-neutral detergent or Synthetics Super Cleaner (p. 188). Allow the detergent to act for a while, then rinse abundantly with clean water. Drying may take a while on cloudy days.

After cleaning, treat with Textile Protector (p. 189). The cleaning will become easier and will require mainly rinsing with clean water.

**INFORMACIÓN**

El Tricord® es un material compuesto nuevo diseñado en exclusiva para Tribù. Se trata de una combinación única de fibras náuticas e hilos sintéticos. El interior está compuesto por fibras de poliéster irrompibles que aportan al tejido resistencia y estabilidad. El exterior es una combinación de fibras náuticas que aportan al material un aspecto y un tacto naturales. La composición de estas fibras náuticas (poliolefina) hace que el Tricord® sea resistente a todos los agentes exteriores: heladas, agua, hongos y rayos ultravioleta. Los muebles se tejen a mano, ninguna pieza es igual a otra. El aspecto único y artesanal que ello proporciona forma parte del encanto de este producto y no se ha de ver como un defecto. Los respaldos de la colección Mood y CTR se pueden adquirir por separado y son fáciles de sustituir en caso necesario.

**MANTENIMIENTO**

Antes de su uso, recomendamos aplicar Textile Protector (p. 189) a las cintas de Tricord® para incrementar su resistencia a las manchas y su impermeabilidad. Se puede limpiar con agua y un detergente líquido Ph neutro o con Synthetics Super Cleaner (p. 188). Es recomendable dejar actuar el detergente durante unos minutos.

A continuación, trate con el Textile Protector (p. 189), que tiene un efecto repelente de manchas y asegura que el tejido se seque más rápido. Esto hará que la limpieza sea más fácil y menos frecuente.

# TOSCA WEAVE

## TRENZA TOSCA

---

TOSCA

### INFORMATION

The extra-large weave that is used for the Tosca collection is made with a material that was developed exclusively by Tribù. A great deal of research went into the material, resulting in a unique product with a natural and soft appearance, that is nevertheless 100% weatherproof. An EPDM foam filling is over braided with a tubular, seamless cover of knitted textile and Tricord (polyolefin). The material is fungi-resistant, stain-repellent, does not fade and dries relatively quickly. It is 100% suitable for outdoor use in any environment. However, to minimize cleaning, we advise to use our covers when not using the furniture.

### MAINTENANCE

Rinse the braiding regularly with clean water. For intensive cleaning, use Synthetics Super Cleaner (p. 188). This cleaner also works perfectly for the powdercoated stainless steel frame. Always rinse the furniture with clean water after treatment with cleaning agents. Allow the braid to dry and treat with Textile Protector (p. 189). This will apply an invisible stain repellent film which enables the furniture to dry quicker. The cleaning will also become easier, less frequent and requires mainly rinsing with clean water.

---

### INFORMACIÓN

La trenza extra ancha empleada en la colección Tosca es un material desarrollado en exclusiva por Tribù. Se ha necesitado mucha investigación previa antes de dar con un material de apariencia suave y natural, pero 100 % resistente a los elementos climatológicos. Se recubre una base de espuma con una capa tubular y sin costuras de tejido y Tricord (poliolefina). El material es resistente al moho, a las manchas y a los rayos ultravioleta, y de secado relativamente rápido. Es apto para uso en exterior en cualquier entorno. Para minimizar la limpieza, recomendamos cubrir los muebles con fundas cuando no los utilice.

### MANTENIMIENTO

Limpie el tejido regularmente con agua. Las manchas persistentes se pueden eliminar con Synthetics Super Cleaner (p. 188). Este producto también se puede utilizar para limpiar la estructura de acero inoxidable pintada en polvo. Aclare siempre los muebles después con agua. Deje secar bien el tejido y después trátelo con Textile Protector (p. 189) para evitar la adherencia de suciedad y permitir que el tejido seque más rápido. Además, la limpieza será más fácil y menos frecuente.

### INFORMATION

The textilene straps of the Natal Alu Sofa consist of a coated polyester weave. The combination of PVC and polyester guarantees a lasting high tension and provides an excellent resistance to all weather conditions. The straps dry quickly and are stain repellent. A fungi-repellent treatment prevents the formation of mold.

### MAINTENANCE

The textilene straps are easy to clean with clear water and a pH-neutral soap. Stubborn stains can be removed with Synthetics Super Cleaner (p. 188). If necessary, use a soft brush to remove dirt between the straps. Do not use acid, alkaline or chlorinated products that can harm the hardware of your furniture.

For extra protection we recommend Synthetics Protector (p. 188) which applies an invisible film and reduces the adhesion of dirt.

---

### INFORMACIÓN

Las bandas de textileno de la colección Natal Alu Sofa están compuestas por un tejido de poliéster recubierto, igual que Batyline. La composición del material garantiza una tensión prolongada del asiento y una excelente resistencia a los elementos climatológicos. Las bandas no pierden el color, son resistentes a las manchas y de secado rápido. Un tratamiento fungicida previene la aparición de hongos debido a la humedad.

### MANTENIMIENTO

Las bandas de textileno se pueden limpiar fácilmente con agua y un detergente líquido Ph neutro. Para las manchas persistentes puede utilizar Synthetics Super Cleaner (p. 188). Para eliminar la suciedad incrustada en el tejido utilice un cepillo suave. No utilice sal ni productos clorurados que puedan deteriorar el herraje de su mobiliario.

Para una mayor protección, recomendamos el Synthetics Protector (p. 188) que aplica una película invisible que reduce la adherencia de la suciedad.

#### INFORMATION

Ceramic has been used for centuries for all kinds of purposes. With its unique characteristics it is the ideal material for outdoor table tops. Ceramic is UV-resistant, frost proof, extremely scratchproof and completely stain-repellent. The ceramic used by Tribù is coloured in the mass and guarantee years of carefree pleasure. The raw materials are selected very carefully by suppliers from Western and Southern Europe only. Every top is unique. For example, the Scisto colour may show subtle veins, but this is not the case for every top. The ceramic table tops are slightly bended so water can flow off.

#### MAINTENANCE

Ceramic is very easy to maintain with clear water and a pH-neutral soap. Stubborn stains can be removed with Ceramic & Lava Stone Cleaner (p. 187). To protect the ceramic, Ceramic & Lava Stone Protector (p. 187) can be used. This applies a highly water and soiling repellent coating, which also makes the surface brighter, smoother and easier to clean.

#### INFORMACIÓN

La cerámica se utiliza desde hace siglos para todo tipo de fines y es el material ideal para las planchas de las mesas de uso exterior. Es altamente resistente a las manchas, los ácidos, los arañazos, el fuego, la humedad y los rayos ultravioleta. La cerámica que Tribù utiliza está coloreada en masa y garantiza un disfrute duradero sin preocupaciones. La selección de las materias se realiza de forma muy escrupulosa por parte de proveedores la zona sur y occidental de Europa.

Cada tablero es único. Por ejemplo, la variante Scisto puede mostrar pequeñas vetas\*, pero no es así en todos los casos. Las planchas cerámicas para mesas están ligeramente curvadas para que el agua pueda caer.

#### MANTENIMIENTO

La cerámica requiere un mantenimiento sencillo, con agua y un detergente líquido Ph neutro. Las manchas persistentes se pueden eliminar con Ceramic & Lava Stone Cleaner (p. 187). Ceramic & Lava Stone Protector (p. 187) crea una película protectora invisible sobre la cerámica que la hace impermeable y evita la adherencia de la suciedad. La superficie queda más brillante, más lisa y más fácil de limpiar.

## INFORMATION

Our tables in lightened concrete do not contain gravel, like ordinary concrete, but a mix of quartz granulates and fibres, making the material a lot lighter. Nevertheless, it is very sturdy\* and durable. Frost and heat have no influence and the colouring in the mass ensures that your table will retain its original colour for a long time. Each furniture piece is hand-finished by an Italian craftsman, giving it a unique patina and a smooth surface texture.

However, lightened concrete is a natural product and sensitive to stains. Despite the fact that we treat our tables with a concrete conditioner that reduces stains and moisture absorption, some caution is required, as with natural stone and marble.

\*We recommend a maximum load of 22lb/10kg on the coffee table tops.

## MAINTENANCE

For daily cleaning, dip a soft, clean cloth in a solution of warm, clear water and a pH-neutral fluid detergent. Rinse thoroughly and let dry. Stains should be wiped off immediately, especially acidic substances (juice, coffee, red wine, balsamic vinegar,...) since they may cause permanent stains. Also bird droppings and leaves may cause permanent stains if not removed immediately. We recommend to use a protective cover if you are not using your table.

Oil, grease and wax stains can be removed by using Tribù Oil, Wax and Grease Remover (p. 190). Do not use corrosive or acidic detergents.

To protect your table, we recommend to use Tribù Lightened Concrete Conditioner (p. 190) regularly. However, this product does not protect against acidic substances. It can also be used for removing stains. Depending on the type of stain and its age, the stain can be completely removed or its intensity reduced.

Lightened concrete contains natural fibers that can surface over time due to temperature fluctuations, which could feel slightly unpleasant to the touch. If this happens, we recommend to lightly hand sand the table top with a sanding disc making circular movements until the surface feels smooth again.

### INFORMACIÓN

Nuestras mesas de hormigón aligerado no contienen grava, como el hormigón que se utiliza habitualmente, sino una mezcla de gránulos de cuarzo y fibras que lo hacen mucho más ligero. Sin embargo, es muy resistente\* y duradero. Las heladas y el calor no le afectan, y su coloreado en masa procura que la mesa conserve su color original de manera óptima. La superficie sedosa y los preciosos tonos, únicos en cada mesa, garantizan un aspecto elegante y sofisticado.

Aun así, el hormigón aligerado es un producto natural y sensible a las manchas. Aunque aplicamos a nuestras mesas un acondicionador de hormigón que reduce el efecto de las manchas y la absorción de humedad, se requiere cierta precaución, como con la piedra natural y el mármol. Le invitamos a repasar atentamente los siguientes consejos.

\*La carga máxima de las mesas auxiliares bajas es de 10 kg.

### MANTENIMIENTO

Limpie con agua y un detergente neutro suave, o con Lightened Concrete Conditioner de Tribù. Este producto también actúa como protector. Le recomendamos tratar la mesa periódicamente con este producto. Las manchas deben ser eliminadas inmediatamente, especialmente las sustancias ácidas (jugo de fruta, café, vino tinto, vinagre balsámico,...) para evitar manchas permanentes. También los excrementos y las hojas de los árboles pueden causar manchas permanentes si no se eliminan inmediatamente. Recomendamos utilizar una funda protectora si no se utiliza la mesa.

Las manchas de aceite, grasa y cera se pueden eliminar con el Oil, Wax and Grease Remover de Tribù (p. 190). No utilice detergentes corrosivos o ácidos.

Para proteger vuestra mesa, os aconsejamos utilizar regularmente el Lightened Concrete Conditioner de Tribù (p. 190). Sin embargo, este producto no protege contra las sustancias ácidas. También se puede utilizar para quitar las manchas. Según el tipo de mancha y su edad, la mancha puede ser eliminada completamente o su intensidad reducida.

El hormigón aligerado contiene fibras naturales que pueden aflorar con el tiempo debido a cambios de temperatura, y hacer que la parte superior de la mesa sea ligeramente desagradable al tacto. En caso de que esto ocurra, puede lijarse a mano suavemente la superficie con un disco lijador, realizando movimientos circulares continuos.

#### INFORMATION

Granite is an igneous rock that is formed deep below the earth's surface by compression. Because the pressure below the Earth's surface is so high, granite is immensely hard. After diamond, it is the strongest rock species on earth. Granite is little porous and has good scratch resistance. Germs and fungi have no chance. The name granite comes from the Latin 'granus', which means 'grain'. This 'granular' look is typical of granite. No two table tops will be ever alike. Tribù granite table tops have a 'leather touch' finish. This soft, brushed finish accentuates the natural colour of the material and gives a unique, soft touch.

#### MAINTENANCE

Granite can be cleaned with water and pH neutral soap. Granite Cleaner/Protector (p. 189) refreshes the gloss of the granite and makes it water and stain repellent. Do not use aggressive detergents as they attack the lime in the stone.

#### INFORMACIÓN

El granito es una roca magmática que se forma por compresión en la profundidad de la corteza terrestre. Dado que la presión bajo la corteza terrestre es tan alta, el granito es extremadamente duro. Se trata de la piedra más resistente después del diamante. El granito apenas es poroso y tiene una buena resistencia a los arañazos. No da cabida a las bacterias ni los hongos. El término granito procede del latín 'granus', que significa 'grano'. Este aspecto 'granulado' es típico del granito. Ningún sobre de mesa será igual a otro. Los sobres de mesa de granito Tribù tienen un acabado con aspecto 'cuero'. El acabado suave y cepillado acentúa el color natural del material y aporta un tacto suave.

#### MANTENIMIENTO

El granito se puede limpiar con agua y un detergente Ph neutro. Para una limpieza regular, recomendamos Granite Cleaner/Protector (p. 189). Además de limpiarlo, este producto devuelve el brillo al granito, lo hace impermeable y evita la adherencia de la suciedad. No utilice detergentes agresivos que puedan deteriorar la cal de la piedra.

# GLAZED LAVA STONE

## PIEDRA DE LAVA ESMALTADA

---

HEXAGON, NOX, SENJA, TAIRU & T-TABLE

---

### INFORMATION

Glazed lava is a unique and handcrafted material that expresses the natural aspect of lava stone. It offers the inherent strength of the volcanic stone combined with all the surface qualities associated with enamels. The density of the lava rock stone allows it to be used in one large piece. Once molten lava, the stone can withstand the very high temperatures used in the glazing process. Glazing makes sure the finished product is UV stable, impervious to water and resistant to heat, frost, chemicals and stains. It is very easy to maintain. Tribù chose for a subtle craquelé effect. As it is a natural product, you will find "aesthetic imperfections" that are just peculiar characteristic of both natural stone and handcrafted finishing. No table top in glazed lava stone will therefore be the same, making it so unique and attractive.

### MAINTENANCE

Glazed lava stone is easy to maintain with clean water and a pH neutral liquid detergent. Possible stains can be removed with Ceramic & Lava Stone Cleaner (p. 187). To protect the surface we recommend Ceramic & Lava Stone Protector (p. 187) which fills the micro pores so dirt particles won't attach to the surface and will be rain-washed.

---

### INFORMACIÓN

La piedra de lava esmaltada es un material único y tradicional que enfatiza el aspecto natural de la piedra de lava de una manera preciosa. Combina la fortaleza de la piedra de lava con las ventajas de los esmaltes. Gracias a la alta densidad de la piedra de lava, esta se puede utilizar en piezas grandes. Debido a que en algún momento fue lava fundida, la piedra puede soportar perfectamente las altas temperatura durante el proceso de esmaltado. La capa de esmalte hace que el material sea muy resistente al agua, al hielo, al calor, a las manchas y a la radiación UV. Tiene una alta resistencia a los productos químicos y prácticamente no requiere mantenimiento.

Tribù eligió un sutil efecto craquelado. Debido a que es un producto natural, sus "imperfecciones estéticas" son inherentes al material. Por lo tanto, ninguna encimera de piedra de lava esmaltada será igual. Esto es lo que hace que sea tan única y atractiva.

### MANTENIMIENTO

La piedra de lava esmaltada se puede limpiar fácilmente con agua limpia y con un detergente líquido con pH neutro. Las manchas se pueden eliminar con el producto Ceramic & Lava Stone Cleaner (p. 187). Para la protección recomendamos el uso del producto Ceramic & Lava Stone Protector (p. 187). Este producto llena los microporos del material, de manera que la suciedad no se puede adherir a la superficie y será arrastrada cuando caiga un chaparrón de lluvia.

**INFORMATION**

Travertine, a captivating natural stone, boasts unique characteristics and extensive applications. Formed by mineral deposits in natural springs, it features a distinctive porous texture that lends an elegant and rustic charm to both indoor and outdoor spaces. Its soft, neutral tones range from warm beige to cool gray, ensuring that every top is unique.

This originality is intensified by the stain-sensitive nature of the material. Oil, red wine, as well as other liquids and acids are absorbed, resulting in a permanent stain. This makes it a 'living thing' that, in time, displays subtle changes in colour and even surface structure. A product that becomes more and more unique with use, perfect for people who appreciate a table with personality.

**MAINTENANCE**

For daily cleaning, rub with a soft clean cloth immersed in a solution of hot, pure water and a pH-neutral detergent. Rinse thoroughly and leave to dry. Spills should be wiped up immediately, particularly acids, which can stain. Bird droppings and leaves can also stain if not removed immediately. We advise you to cover your table with a protective cover when not in use.

**INFORMACIÓN**

El travertino, una piedra natural cautivadora, ofrece características únicas y amplias aplicaciones. Formado por depósitos minerales en fuentes naturales, presenta una textura porosa distintiva que confiere un encanto elegante y rústico a espacios tanto interiores como exteriores. Sus suaves tonos neutros van del beige cálido al gris frío, lo cual garantiza que cada encimera sea única.

Esta originalidad se ve intensificada por la sensibilidad a las manchas de este material. El aceite, el vino tinto así como otros líquidos y ácidos son absorbidos, resultando en una mancha permanente. Esto lo convierte en un "elemento vivo" que, con el tiempo, presenta sutiles cambios de color e incluso de la estructura de la superficie. Un producto que se vuelve cada vez más único con el uso, perfecto para quienes valoran una mesa con personalidad.

**MANTENIMIENTO**

Para la limpieza diaria, frote con un paño suave y limpio sumergido en una solución de agua limpia caliente y un detergente de pH neutro. Aclare a fondo y deje secar. Limpie inmediatamente los derrames, sobre todo los ácidos, que pueden manchar. Los excrementos de pájaros y las hojas también pueden dejar manchas si no se eliminan inmediatamente. Le aconsejamos que cubra la mesa con una funda protectora cuando no la utilice.

## INFORMATION

Comprising natural stones or other aggregates in a binding agent like cement, terrazzo is a versatile and enduring material, fusing art with functionality. Tribù's innovative terrazzo-inspired products are made of natural stones set in lightened concrete with a blend of fibres which enhance durability, setting them apart from traditional terrazzo.

Although polished by hand, the composite exhibits a distinctive speckled appearance with open structure. As a result, our terrazzo-inspired material evolves over time, displaying subtle changes in colour and surface structure.

## MAINTENANCE

For daily cleaning, dip a soft, clean cloth in a solution of warm, clear water and a pH-neutral liquid detergent. Rinse thoroughly and let dry. Stains should be wiped off immediately, especially acidic substances (juice, coffee, red wine, balsamic vinegar,...) since they may cause permanent stains. Also bird droppings and leaves may cause permanent stains if not removed immediately. Oil, grease and wax stains can be removed by using Tribù Oil, Wax and Grease Remover (p. 190). Do not use corrosive or acidic detergents.

To protect your table, we recommend to use Tribù Lightened Concrete Conditioner (p. 190) regularly. However, this product does not protect against acidic substances. It can also be used for removing stains. Depending on the type of stain and its age, the stain can be completely removed or its intensity reduced.

## INFORMACIÓN

El terrazo, compuesto de piedras naturales u otros agregados en un aglutinante como el cemento, es un material versátil y duradero que combina el arte con la funcionalidad. Los innovadores productos de Tribù inspirados en el terrazo están hechos de piedras naturales fijadas en hormigón aligerado con una mezcla de fibras que aumentan su durabilidad, diferenciándolos del terrazo tradicional.

Aunque está pulido a mano, el compuesto ofrece un característico aspecto moteado con una estructura abierta. Por consiguiente, nuestro material inspirado en el terrazo evoluciona con el tiempo, mostrando cambios sutiles en el color y la estructura de la superficie.

## MANTENIMIENTO

Para la limpieza diaria, sumerja un paño suave y limpio en una solución de agua limpia templada y un detergente líquido de pH neutro. Aclare a fondo y deje secar. Las manchas deben limpiarse inmediatamente, especialmente las sustancias ácidas (zumo, café, vino tinto, vinagre balsámico,...) ya que pueden producir manchas permanentes. También los excrementos de pájaros y las hojas pueden causar manchas permanentes si no se eliminan inmediatamente.

Las manchas de aceite, grasa y cera pueden eliminarse utilizando Oil, Wax and Grease Remover de Tribù (p. 190). No utilice detergentes corrosivos o ácidos.

Para proteger su mesa, le recomendamos utilizar regularmente Lightened Concrete Conditioner de Tribù (p. 190). Sin embargo, este producto no protege contra las sustancias ácidas. También puede utilizarse para eliminar manchas. Según el tipo de mancha y su antigüedad, podrá eliminarse completamente o reducirse su intensidad.

#### INFORMATION

Illia Eckhard's goal was to uncover the true essence of the basket. He created Gobi after conducting an in-depth study of skill and artisanship, which we believe are the most authentic expressions of people's humanity and creativity. The beauty of the Gobi basket makes it a stellar example of Belgian dexterity and artisanship. Each one is made by skilled artisans using traditional weaving techniques.

The ropes are made from recycled plastic bottles, with an outer layer of recycled acrylic. The result is a unique product every time, with slight differences in colour and shape.

To maintain the original look and feel of your Gobi baskets, we recommend not leaving them out in the rain, as they take a long time to dry out. If your baskets do get wet, it's best to leave them to dry out fully in the open air, allowing all the moisture to evaporate. We have decided not to produce protective covers, as we believe it's better to bring the baskets indoors when it rains.

#### MAINTENANCE

Our synthetic furniture pieces are easy to maintain with clear water and a pH neutral soap. Stubborn stains can be removed with Synthetics Super Cleaner (p. 188). If necessary, use a soft brush to remove dirt from the pores. For extra protection we recommend Synthetics Protector (p. 188) which apply an invisible film and reduces the adhesion of dirt.

#### INFORMACIÓN

Illia Eckhard se propuso encontrar la verdadera esencia de la cesta. Así, creó Gobi después de realizar un profundo estudio de la artesanía y el trabajo manual, que creemos que son las expresiones más auténticas de la humanidad y la creatividad de las personas. La belleza de la cesta Gobi la convierte en un ejemplo fantástico de la destreza y la artesanía belgas. Cada una de ellas está hecha por hábiles artesanos que utilizan técnicas de tejido tradicionales.

Las cuerdas están hechas de botellas de plástico recicladas, con una capa exterior de acrílico reciclado. El resultado es un producto único, con ligeras diferencias de color y forma.

Para mantener el aspecto y el tacto originales de sus cestas Gobi, le recomendamos que no las deje al aire libre bajo la lluvia, ya que tardan mucho en secarse. Si sus cestas se mojan, es mejor dejarlas secar completamente al aire para que se evapore toda la humedad. Hemos decidido no fabricar fundas protectoras, ya que creemos que, en caso de lluvia, es mejor llevar las cestas al interior.

#### MANTENIMIENTO

Estos materiales son fáciles de limpiar con agua y un detergente líquido Ph neutro. Las manchas persistentes se pueden eliminar con Synthetics Super Cleaner (p. 188). Si es necesario, se puede utilizar un cepillo suave para eliminar la suciedad de los poros. Si se desea mayor protección, aconsejamos el uso de Synthetics Protector (p. 188) para crear una película invisible que evita la adherencia de la suciedad.

## INFORMATION

Vilex material is composed of solution-dyed PVC-coated polyester. This characteristic not only grants Vilex products outstanding UV resistance but also imparts effortless cleanability due to the non-absorbent nature of the yarns. These yarns facilitate rapid drying and exhibit stain-repelling qualities. Every item crafted from Vilex undergoes a manual weaving process, contributing to an artisanal aesthetic and ensuring the distinctiveness of each product.

## MAINTENANCE

Vacuum the material regularly to remove loose dirt. Clean with a garden hose and remove stubborn stains with Synthetics Super Cleaner (p. 188). To protect against stains, Synthetics Protector (p. 188) can be used which applies an invisible film.

## INFORMACIÓN

El material Vilex está compuesto de poliéster recubierto de PVC teñido en masa. Esta característica no solo confiere a los productos de Vilex una excelente resistencia a los rayos UV, sino que también facilita su limpieza sin esfuerzo gracias a la naturaleza no absorbente de los hilos. Estos hilos facilitan un secado rápido y presentan cualidades antimanchas. Cada artículo elaborado con Vilex se somete a un proceso de tejido manual, lo que contribuye a una estética artesanal y garantiza la singularidad de cada producto.

## MANTENIMIENTO

Aspire el material regularmente para eliminar la suciedad suelta. Limpie con una manguera de jardín y elimine las manchas resistentes con Synthetics Super Cleaner (p. 188). Para la protección contra las manchas, se puede utilizar Synthetics Protector (p. 188) que crea una película invisible.

#### INFORMATION

In the world of metals, brass is a distinctive element that has enriched our lives for centuries. Being an alloy of copper and zinc, it is highly malleable and therefore remarkably versatile. Its frequent use in the marine industry also underlines its sustainable quality.

But one of its captivating charms is its capacity to transform over time. When encountering the elements of its surroundings like air, moisture and various environmental factors, a chemical reaction leads to the formation of a thin outer layer, known as patina.

The intrinsic qualities and warm aesthetics of the brass make it the ideal material for our beautifully crafted hardware, detailing the table top and discreetly conjoining multiple SURO dining tables.

#### MAINTENANCE

Brass is easy to clean with clear, fresh water and a pH-neutral liquid detergent. Always use a soft, clean cloth. Over time, brass will develop a sophisticated patina, ranging from greens and blues to a warm brown.

Substances, especially salty and acidic ones like juice, coffee, red wine, balsamic vinegar, bird droppings and leaves, leave no stains but do influence the nuances of the brass' surface. For minimal impact, immediately wipe off all substances.

When cleaning, please avoid intense rubbing to maintain the corroded, matte appearance. Once the brass acquires a shiny glow, the only way to recover its elegantly aged appearance, is to be patient.

#### INFORMACIÓN

En el mundo de los metales, el latón es un elemento distintivo que ha enriquecido nuestras vidas durante siglos. Al tratarse de una aleación de cobre y zinc, es muy maleable y, por lo tanto, notablemente versátil. Su uso frecuente en la industria náutica también demuestra sus cualidades sostenibles.

Pero uno de sus cautivadores encantos es su capacidad para transformarse con el tiempo. Al entrar en contacto con los elementos de su entorno como el aire, la humedad y diversos factores ambientales, una reacción química lleva a la formación de una fina capa exterior, conocida como pátina.

Las cualidades intrínsecas y la cálida estética del latón hacen que sea el material ideal para nuestros bellos herrajes, que detallan la superficie de la mesa y unen discretamente varias mesas de comedor SURO.

#### MANTENIMIENTO

El latón es fácil de limpiar con agua limpia y un detergente líquido de pH neutro. Utilice siempre un paño suave y limpio.

Con el tiempo, el latón desarrollará una pátina sofisticada que va desde tonos verdes y azules hasta un marrón cálido. Las sustancias, especialmente las saladas y ácidas como el zumo, el café, el vino tinto, el vinagre balsámico, los excrementos de pájaros y las hojas no dejan manchas pero sí influyen en los matices de la superficie del latón. Para minimizar el impacto, limpie inmediatamente todas las sustancias.

Al limpiarlo, evite frotarlo intensamente para mantener el aspecto corroído y mate. Una vez que el latón adquiere un brillo resplandeciente, la única manera de recobrar su aspecto elegantemente envejecido es tener paciencia.

## INFORMATION

Trizo, made from HDPE material, is a sturdy water- and mold-resistant material suitable for various environments. This material is colorfast and mass-colored, making it perfect for outdoor use.

## MAINTENANCE

Trizo is easy to maintain. To remove stains, use warm, clean water and a pH neutral liquid cleaner or Synthetics Super Cleaner (p. 188). Gently buffing can help with minor scratches, so be sure not to use harsh abrasives. Using a cover can provide extra protection for the material and reduce the number of necessary maintenance sessions. For additional protection, we recommend the Synthetic Protector (p. 188), which forms an invisible layer that repels dirt.

---

## INFORMACIÓN

El trizo, fabricado con polietileno de alta densidad (HDPE), es un material sólido, resistente al agua y al moho, y apropiado para diversos entornos. Este material coloreado en masa no pierde su color, por lo que resulta perfecto para su uso en exteriores.

## MANTENIMIENTO

El trizo es fácil de mantener. Para eliminar las manchas, utilice agua limpia tibia y un limpiador líquido de pH neutro o Synthetics Super Cleaner (p. 188). Pulir suavemente puede ayudar a eliminar pequeños arañazos, así que procure no utilizar abrasivos fuertes. El uso de una funda puede proporcionar una protección adicional al material y reducir el número de sesiones de mantenimiento necesarias. Para una protección adicional recomendamos Synthetic Protector (p. 188), que forma una capa invisible repelente de la suciedad.

### INFORMATION

Tribù outdoor rugs are the only outdoor rugs on the market that are made of 100% solution dyed PVC coated polyester. This gives them not only an excellent UV resistance - they are also very easy to clean because the yarns do not absorb water. They dry quickly and are stain repellent. All rugs are hand woven which results in an artisanal look and makes each rug unique.

### MAINTENANCE

Vacuum the rug regularly to remove loose dirt. Clean with a garden hose or even a high pressure cleaner. Stubborn stains can be removed with Synthetics Super Cleaner (p. 188). To protect the rug against stains, Synthetics Protector (p. 188) can be used which applies an invisible film.

---

### INFORMACIÓN

Las alfombras de exterior de Tribù son las únicas alfombras de exterior en el mercado que están fabricadas al 100 % en poliéster recubierto de PVC coloreado en masa. Ello no sólo aporta una excelente resistencia a los rayos ultravioleta, sino que también facilita su limpieza porque las fibras no absorben el agua. Se secan rápido y son resistentes a las manchas. Todas las alfombras se tejen a mano, por lo que tienen un aspecto artesanal y cada una es única.

### MANTENIMIENTO

Aspire la alfombra regularmente para eliminar la suciedad suelta. Límpiela con una manguera o incluso con un limpiador de alta presión. Las manchas persistentes se pueden eliminar con Synthetics Super Cleaner (p. 188). Synthetics Protector (p. 188) protege la alfombra de las manchas creando una película invisible que evita la adherencia de la suciedad.

## INFORMATION

The Monsieur Tricot outdoor lamps are made of a sphere in PMMA thermoplastic with a removable hand crocheted or knitted polypropylene cover.

### Standing lamps

- Lamp
  - Dimmable LED, 9-12.6 Volt, Kelvin 2.129
  - 12 hours operational when burning at 100%
- Charging
  - Rechargeable battery
  - Power adaptor with USB-slot, cable included
  - 5 hours of charging time
- Control
  - On/off switch
  - Tribu Monsieur Tricot app (available for free in App Store or Google Play)
- Extra
  - Ceiling hook included to turn your standing lamp into a hanging version

### Hanging lamps

- Lamp
  - E27/E26 fitting with dimmable LED filament bulb included, Kelvin 2200
  - Connect to local power grid, 220-240 volt.
  - 5 meter cable, mounting bracket, ceiling canopy and wire connector clamps included
  - Please contact a local professional to install a hanging Monsieur Tricot lamp
- Control
  - Use an already available switch or have a local professional install a new switch. Switches cannot be purchased from Tribu

### Certificates

- CE (EU + UK), RoHS 2.0 (EU), FCC (USA), IC (Canada), SAA (Australia & New Zealand), RCM (Australia & New Zealand, only for standing lamps), MOC (Israel)
- IK08
- IP65

### MAINTENANCE

The knitted cover can easily be removed to be cleaned in a washing machine at 40° (synthetic washing program). Let dry in open air, certainly not in the dryer. Extend the Lebonnet braiding well before drying. Stubborn stains can be removed with Synthetics Super Cleaner (p. 188). Use a microfiber cleaning cloth to clean the lamp. Do not use a scourer, this causes scratches and damages the surface.

### INFORMACIÓN

Las lámparas de exterior Monsieur Tricot son de plástico PMMA con una funda de polipropileno a ganchillo. Las fundas se tejen a mano.

#### Lámparas de pie

- Lámpara
  - Lámpara led regulable, 9-12.6 voltios, Kelvin 2.129
  - Funciona durante 12 horas si el regulador está al 100%
- Carga
  - Batería recargable
  - Adaptador de corriente con conector USB, cable incluido
  - Tiempo de carga de 5 horas
- Control
  - Interruptor de encendido/apagado
  - Aplicación Tribù Monsieur Tricot (descarga gratuita en la Apple store o en Google Play)
- Extra
  - Incluido gancho de techo, para transformar su lámpara de pie en una lámpara colgante

#### Lámparas colgantes

- Lámpara
  - Adaptador E26/E27 con bombilla led incluida, Kelvin 2200
  - Conectar a la red eléctrica, 220-240 voltios.
  - Cable de 5 metros, soporte de montaje, soporte de techo y abrazaderas de conexión de cables incluidos.
  - Póngase en contacto con un profesional local para instalar una lámpara colgante Monsieur Tricot
- Control
  - Use un interruptor ya disponible o haga que un profesional local instale un interruptor nuevo. Los interruptores no se pueden comprar en Tribù.

#### Certificados:

- CE (UE + RU), RoHS 2.0 (UE), FCC (EE.UU.), IC (Canadá), SAA (Australia y Nueva Zelanda), RCM (Australia y Nueva Zelanda, non para las lámparas colgantes) IMOC (Israel).
- IK08
- IP65

#### MANTENIMIENTO

La funda tejida se puede quitar fácilmente para lavarla en la lavadora a 40° (programa de lavado sintético). Deje que se seque al aire libre, nunca la meta en la secadora. Tire bien del tejido Lebonnet antes de colgar la funda para que se seque. Las manchas persistentes se pueden eliminar con Synthetics Super Cleaner (p. 188). Use un paño de microfibra para limpiar la estructura de la lámpara. No utilice una esponja abrasiva, ya que podría rayar y dañar la superficie.

#### TEAK SUPER CLEANER - D9914 - 500 ml

Cleaner for regular or intensive cleaning.

1. First moisten the furniture with clear water.
2. Shake the Teak Cleaner well before use.
3. Apply Teak Cleaner with a soft cloth and allow to soak for 3 minutes.
4. Brush the furniture clean with the soft scrubbing pad in the direction of the grain.
5. Rinse well with clear water.

Para una limpieza normal o a fondo.

1. Humedecer primero el mueble con agua.
2. Agitar el envase de Teak Cleaner antes de usarlo.
3. Aplique Teak Cleaner con un paño y deje actuar durante 3 minutos.
4. Frote el mueble con un estropajo suave en la dirección de la veta de la madera.
5. Aclare bien el mueble con agua.

#### TEAK SEALER NATURAL - D9959 - 1000 ml

When Teak Sealer is applied every season, a labour-intensive cleaning with Teak Cleaner will not be necessary for many years. A simple cleaning with water and ph-neutral soap will do.

1. Allow new teak to weather for 1 to 2 weeks before applying Teak Sealer.
2. Clean soiled teak with Teak Cleaner or Teak Super Cleaner and leave to dry until the wood is completely dry.
3. Stir the Teak Sealer well and keep mixing throughout the application process.
4. Apply to the teak using a microfiber cloth, synthetic sponge or plants spray in the direction of the grain. Wipe any excess off with a microfiber cloth.
5. Leave to dry for 1 hour and apply a second coat.
6. Wipe over the second coat with a clean cloth.
7. The teak should be dry to the touch in 1 hour and ready for use the next day.

Cuando el Teak Sealer se aplica cada temporada, una limpieza intensiva con Teak Cleaner no será necesario durante muchos años. Una limpieza simple con agua y jabón neutral pH es suficiente.

1. Permita que la teca nueva se desgaste a la intemperie durante 1 a 2 semanas antes de aplicar el Teak Sealer.
2. Limpie la teca sucia con Teak Cleaner o Teak Super Cleaner y deje secar hasta que la madera esté completamente seca.
3. Agite bien el Teak Sealer y continúe mezclando durante todo el proceso de aplicación.
4. Aplicar la teca con un paño de microfibra, una esponja sintética o un pulverizador para plantas en la dirección del grano. Limpie cualquier exceso con un paño de microfibra.
5. Dejar secar durante 1 hora y aplicar una segunda capa.
6. Limpie la segunda capa con un paño limpio.
7. La teca debe estar seca al tacto en 1 hora y lista para el uso al día siguiente.

#### TEAK PROTECTOR GREY COLOUR - D9912 - 500 ml

Protects the teak against stains and green deposit. Doesn't colour the grey patina

1. New teak: leave your new furniture outside during a few weeks until they get a pale colour.
2. Old, grey teak: clean the teak first with Teak Cleaner. If the cleaned wood feels rough, sand slightly before using the Teak Protector.
3. Make sure that the teak is 100% dry and free of dust.
4. Shake the bottle for at least one minute. Apply with the soft and lint-free cloth and allow to soak in the teak.
5. Allow to dry for 4 hours, then apply a second layer.
6. Let the teak dry for 24 hours before exposing it to moisture.

Protege la teca de las manchas y el moho.

1. Teca nueva: deje los muebles varias semanas en el exterior para que tomen un color amarillo pálido.
2. Teca antigua, gris oscuro: limpie primero la teca con Teak Cleaner. Si tiene un tacto áspero, líjela suavemente.
3. Asegúrese de que la teca está totalmente seca y sin polvo.
4. Agite bien el envase de Teak Protector durante al menos un minuto antes de utilizarlo. Aplique una capa con un paño suave y sin pelusas. Deje actuar.
5. Espere 4 horas y aplique una segunda capa.
6. Deje secar la teca durante 24 horas antes de colocarla en el exterior.

#### ALUMINIUM CLEANER - D9952 - 500 ml

Cleans powdercoated aluminium and powdercoated stainless steel.

1. Rinse the furniture with clear water to eliminate loose dirt.
2. Spray the Aluminium Cleaner on the surface and let it rest.
3. In case of stubborn stains use a brush to remove the dirt from the pores.
4. Rinse with clear water and remove the dirt with a clean, moist cloth.
5. Dry with a microfiber cloth. Don't leave the surface to dry in full sun, this can leave white traces behind.

Limpia el aluminio y el acero inoxidable pintados en polvo.

1. Pulverice con Aluminium Cleaner desde abajo hacia arriba sobre toda la superficie y deje actuar.
2. Utilice un cepillo para las manchas persistentes y para eliminar la suciedad de los poros.
3. Aclare y/o retire la suciedad con un paño limpio.
4. No dejar secar al sol directo (puede dejar marcas blancas).
5. Para superficies delicadas, hacer una prueba en una zona no visible.

#### ALUMINIUM PROTECTOR - D9931

Reduces the adhesion of dirt and fingerprints.

1. Shake well before use.
2. Spray onto a clean microfiber cloth and rub on the surface with circular movements.
3. Use a clean, dry microfiber cloth and spread well.

Reduce drásticamente la adherencia de la suciedad y las huellas dactilares.

1. Agitar bien antes de usar.
2. Pulverizar sobre un paño de microfibra limpio y aplicar suavemente.
3. Extienda bien el producto con un paño de microfibra limpio y seco.

#### CERAMIC & LAVA STONE CLEANER - D9938 - 500 ml

Removes local stains.

1. Shake well before use.
2. Spray the surface with the spray and leave for a while.
3. Rub to dry with a clean microfiber cloth and polish with a dry cloth.

Elimina las manchas localizadas persistentes.

1. Agitar bien antes de usar.
2. Pulverizar la superficie con el spray en espuma y dejar actuar unos instantes.
3. Secar con un paño limpio y sin pelusas y volver a frotar con un paño seco.

#### CERAMIC & LAVA STONE PROTECTOR - D9955 - 100 ml

Applies an invisible, dirt repellent coating.

1. Clean the surface with Glass & Ceramic Cleaner.
2. It is essential that the surface is completely clean, dust free and dry before applying the Ceramic Protector.
3. Moisten a microfiber cloth with the Ceramic Protector and apply a layer to the surface, ensuring full and even coverage by fast circular movements.
4. Allow the newly coated surface to dry for a few minutes and then polish the surface with a clean microfiber cloth.

Protege la superficie con una capa transparente que repele la suciedad.

1. Limpie la superficie a fondo con Glass&Ceramic Cleaner D9938 y aclárela con agua limpia. Es importante que la superficie esté limpia, seca y sin polvo.
2. Empape un paño de microfibra con Ceramic Protector D9955 y aplique una capa uniforme mediante movimientos rápidos y circulares, que cubra más de la mitad de la superficie.
3. Continúe frotando la superficie hasta que el paño quede prácticamente seco.
4. Deje secar durante al menos 1 minuto (óptimo 5 minutos) y encere la superficie con un paño de microfibra limpio.

#### SYNTHETICS SUPER CLEANER - D9922 - 500 ml

Cleans stubborn stains from synthetic materials, Canax®, CTR; Elio, Mood, Tosca weave and Batyline®.

1. Rinse the furniture with clear water to eliminate loose dirt.
2. Spray the Synthetics Super Cleaner on the surface and let it soak.
3. In case of stubborn stains use a brush to remove the dirt from the pores.
4. Rinse with clear water and remove the dirt with a clean, moist cloth.
5. Dry with a microfiber cloth. Don't leave the surface to dry in full sun, this can leave white traces behind.

Elimina las manchas persistentes de materiales sintéticos, Canax®, trenza Tosca y Batyline®.

1. Pulverice con Synthetics Super Cleaner desde abajo hacia arriba sobre toda la superficie y deje actuar.
2. Utilice un cepillo para las manchas persistentes y para eliminar la suciedad de los poros.
3. Aclare y/o retire la suciedad con un paño limpio.
4. No dejar secar al sol directo (puede dejar marcas blancas).
5. Para superficies delicadas, hacer una prueba en una zona no visible.

#### SYNTHETICS PROTECTOR - D9921 - 500 ml

Applies an invisible film and protects against the adhesion of dirt. Suitable for synthetic materials, Canax® and Batyline®.

1. First clean your furniture with Synthetics Cleaner.
2. Shake the bottle well during at least one minute.
3. Apply a thin layer with a clean, dry and lint-free cloth.
4. Buff to shine with a soft, clean and dry cloth.

Protege contra la adhesión de suciedad. Adecuado para materiales sintéticos, Canax®, trenza Tosca y Batyline®.

1. Limpie primero sus muebles con Synthetics Cleaner.
2. Agite bien el envase de Synthetics Protector durante al menos un minuto antes de utilizarlo.
3. Aplique una capa fina con un paño suave y limpio.
4. Se formará una capa mate. Límpiela con un paño seco y limpio hasta que la superficie quede brillante.

#### TEXTILE PROTECTOR - D9924 - 400 ml

Makes fabric and weaves water and stain repellent.

1. Shake well before use.
2. Hold the spray can upright at a distance of approximately 30cm and vaporise in equal layers that slightly overlap each other.
3. Leave to dry.
4. For an optimal protection, after each cleaning, we recommend to use Textile Protector.

Crea una capa impermeable y evita la adherencia de la suciedad.

1. Agitar bien el envase.
2. Pulverizar en franjas que se vayan superponiendo ligeramente. Mantener el envase en posición vertical y pulverizar a +/- 30 cm de distancia.
3. Deje secar bien.
4. Para conseguir una protección óptima, recomendamos utilizar Textile Protector después de cada limpieza.

#### GRANITE CLEANER/PROTECTOR - D9961 - 500 ml

Cleans, maintains and protects granite surfaces.

1. Shake before use, then open the spray valve.
2. Spray the surface in an evenly way.
3. Spread and polish with a microfiber cloth until no more streaks or veil is visible.

Limpia y protege las superficies de granito

1. Agitar antes de usar, luego abra la válvula de pulverización
2. Rociar la superficie de manera uniforme
3. Corre y pula con un paño de microfibra hasta que no haya más rayas o velo visible.

**LIGHTENED CONCRETE CARE SET - D9964**

A complete set to take care of tables in lightened concrete.

- 1 Lightened Concrete Conditioner
- 1 Oil, wax & Grease Remover
- 1 sanding disc
- 1 brush
- 1 microfiber cloth

Un set completo para el mantenimiento de mesas en hormigón aligerado.

- 1 Lightened Concrete Conditioner
- 1 Oil, Wax & Grease Remover
- 1 disco lijador
- 1 cepillo
- 1 paño de microfibra

**LIGHTENED CONCRETE CONDITIONER – D9962 – 500ml**

Cleans surfaces in lightened concrete and protects against stains.

1. Wash the surface with clean water first and allow it to dry completely.
2. Shake before use, open the spray valve and spray lightly in an evenly way over the cooled surface.
3. Rub in with a clean, dry microfibre cloth with a circular motion or use a soft brush.
4. After approx. 10 minutes, remove the excess product with a clean, dry microfibre cloth until no more streaks or veil are visible.

Limpia las superficies de hormigón aligerado y protege contra las manchas.

1. Primero, limpie la superficie con agua limpia y déjela secar completamente.
2. Agite el envase antes de usar, abra la válvula de pulverización y aplique el producto de manera uniforme por toda la superficie enfriada.
3. Frote el producto con una bayeta de microfibra limpio y seco en movimientos circulares o use un cepillo.
4. Una vez transcurridos alrededor de 10 minutos, retire el exceso de producto con una bayeta de microfibra limpia y seca hasta que no queden rayas o veladuras.

**OIL, WAX & GREASE REMOVER – D9963 – 250ml**

A creamy paste that removes stains on lightened concrete caused by oil, grease or candle wax.

1. Wash the surface with clean water first to remove any loose dirt and make sure it is completely dry before you apply the product.
2. Apply a layer of paste, approx. 1 mm thick, evenly over the stain using a spatula or brush and leave the paste to soak in. Apply in open air during daytime and dry weather only.
3. After drying for approx. 30-60 minutes, brush off the paste. Repeat this process for stubborn or old stains.
4. Rinse the furniture with clean water and let it dry.
5. For optimal protecting against stains, treat the surface with Tribù Lightened Concrete Conditioner.

Una pasta cremosa que elimina las manchas del hormigón aligerado causadas por aceite, grasa o cera de velas.

1. Primero, limpie el mueble con agua limpia para eliminar la suciedad suelta y asegúrese de que esté completamente seco antes de usar el producto.
2. Aplique la pasta sobre la mancha de manera uniforme creando una capa de 1 mm de espesor con la ayuda de una espátula o una brocha y deje actuar. Aplicar sólo durante el día al aire libre y cuando esté seco.
3. Retire la pasta con la brocha una vez transcurrido un tiempo de secado de aproximadamente 30-60 minutos. En caso de manchas intensas o antiguas se puede repetir el proceso.
4. Aclare la superficie con agua limpia y deje secar.
5. Para una protección óptima contra las manchas, trate el hormigón con Lightened Concrete Conditioner.

### INOX SUPER CLEANER (CB & EP) - D9918 - 250 ml

Intensive cleaner for in-depth cleaning.

1. Rinse the furniture with clear water and let it dry.
2. Shake the bottle well.
3. Apply the cleaner undiluted by dabbing by means of a damp sponge or pad. Apply in the rolling direction of the surface to be treated. Leave to act.
4. Remove the residue carefully with a damp cloth (be careful, loose dirt or oxide may cause minor scratches).
5. Rinse abundantly with clear water.

Limpiador intensivo para la suciedad incrustada.

1. Enjuagar el mueble con agua clara.
2. Agitar bien la botella.
3. Aplique el limpiador sin diluir con una esponja húmeda en la dirección de la veta del material o en la dirección del cepillado o pulido de la superficie.
4. Elimine los residuos cuidadosamente con agua o un paño húmedo (atención: la suciedad y/o los óxidos que se van desprendiendo pueden provocar arañazos superficiales). Frote sin presionar para evitar que la suciedad vuelva a introducirse en los poros.
5. Aclarar abundantemente con agua limpia.

### General Information

Dimensions and technical details may be subject to changes without prior notice. Tribù cannot be held responsible for any possible printing errors.

The reproduction of colors may differ from reality.

In the case of the shade of wengé, the designation refers exclusively to the shade and not to the material.

When ordering a sofa configuration that is not shown in the price list, please include a sketch with your order.

Les dimensions et les détails techniques peuvent être sujets à des modifications sans préavis. Tribù n'est pas responsable pour des erreurs d'impression éventuelles.

La représentation des couleurs peut varier de la réalité.

Dans le cas de la teinte wengé, l'appellation se réfère exclusivement à la teinte et non à la matière.

Lors de la commande d'une configuration de canapé qui ne figure pas dans la liste de prix, veuillez envoyer un dessin avec votre commande.

Afmetingen en technische afwerking kunnen gewijzigd worden zonder voorafgaand bericht. Tribù kan niet verantwoordelijk gesteld worden voor eventuele drukfouten.

De weergave van kleuren kan verschillen met de werkelijkheid.

Bij de tint wengé verwijst de aanduiding uitsluitend naar de tint en niet naar het materiaal.

Bij bestelling van een sofaconfiguratie die niet in de prijslijst is weergegeven, gelieve een schets mee te sturen met uw bestelling.

# WARRANTY

## GARANTIE – GARANTIE

### Terms of warranty

A warranty period of 3 years applies to all Tribù branded furniture items and 1 year for cushions, fabrics and protective covers, against all manufacturing and material errors that would affect their use. The warranty commences on the day the product was bought from an official Tribù trading partner (see date on the proof of purchase).

The warranty applies to manufacturing and material errors that occur during normal usage, and not to errors or deficiencies occurring in the course of time or normal usage (wear and tear). Conditions that are not covered by this warranty include – but are not restricted to – colours fading, changes in wood textures, scratches occurring during use, damage resulting from defective maintenance or incorrect use, etc. The warranty does not for example cover discolouration or colours running, cracks, scratches or tears occurring in the varnish due to usage.

### Conditions de garantie

Pour tous les produits de marque Tribù, une période de garantie de 3 ans (1 an pour des coussins, des tissus et des housses de protection) s'applique pour les erreurs de fabrication ou de matériaux qui affecteraient leur usage. La garantie commence le jour où le produit est acheté chez un partenaire commercial officiel de Tribù (cfr date de la preuve d'achat).

La garantie s'applique sur les erreurs de matériaux et de production qui surviennent en cas d'usage normal et non pas d'erreurs ou d'imperfections dues au passage du temps ou à un usage normal (usure). Les éléments non couverts par cette garantie comprennent – mais sans s'y limiter – l'effacement des couleurs, les modifications au niveau des textures du bois, les griffures liées à l'usage, les dégâts causés par un entretien inapproprié ou une mauvaise utilisation, etc. Par exemple, la garantie ne couvre pas la dégradation ou l'effacement des couleurs, les craquelures, les griffures ou les fissures dans le vernis causés par un usage normal.

### Garantievoorwaarden

Voor alle Tribù merkproducten geldt een garantieperiode van 3 jaar (1 jaar voor kussens, stoffen en beschermhoezen) tegen fabrieks- of materiaalfouten die het gebruik ervan zouden beïnvloeden. De garantie begint op de dag dat het product bij een officiële handelspartner van Tribù is aangekocht (cfr datum aankoopbewijs).

De garantie is van toepassing op materiaal- en productiefouten die bij normaal gebruik zijn ontstaan, niet op fouten of onvolkomenheden als gevolg van het verstrijken van de tijd of normaal gebruik (slijtage). Omstandigheden die niet gedekt zijn door deze garantie omvatten - maar zijn niet gelimiteerd tot – vervagen van kleuren, veranderingen in houttexturen, krassen ontstaan door gebruik, schade ten gevolge van gebrekkig onderhoud of verkeerd gebruik, enz. De garantie dekt bijvoorbeeld geen verkleuring of uitlopen van kleuren, barsten, krassen of scheurtjes in lak die ontstaan zijn door gebruik.

The Dunes and Roots collections are defined by the elegant pattern of the wood grain. Chiseled out of Tribù's plantation-grown teak, every detail, every knot, every crack is proudly on display.

La forme de Dunes and Roots est déterminée par les sinuosités élégantes du grain du bois. Trouvant leur origine dans les plantations de teck de Tribù, chaque détail, chaque nœud, chaque fissure du bois sont superbement mis en valeur.

De Dunes and Roots collecties hebben hun vorm te danken aan de elegante houtnerven. De meubels zijn gemaakt van Tribù's plantage-teak, en dragen elk detail, elke knoop, elke scheur met trots.

# COVERS FOR SOFA'S

Custom covers = 165€ per single seat and 330€ for meridienne and daybed modules. You will receive 1 cover, that is made exactly to the size of your modular sofa.

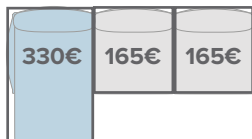

Housses sur mesure = 165€ par siège simple et 330€ pour les modules méridienne et daybed. Vous recevrez 1 housse, qui est faite exactement à la taille de votre canapé modulaire.

Covers op maat = 165€ per enkele zitplaats en 330€ voor meridienne en daybed modules. U ontvangt 1 hoes, die precies op maat van uw modulaire Sofa wordt gemaakt.

## NATAL ALU SOFA

## NODI SOFA

## PURE SOFA

## SENJA SOFA

## VIS À VIS SOFA

Covers cover only the cushions, not the borders or tables. In case you order a high back cushion, please indicate the position on your set.

Les housses couvrent uniquement les coussins, pas les bords ou les tables. Si vous commandez un coussin de dossier élevé, veuillez indiquer sa position sur votre set.

De hozen bedekken enkel de kussens, niet de boorden of tafels. Indien u een high back kussen bestelt, gelieve de positie ervan aan te duiden op uw set.

# TECHNICAL STANDARDS

## NORMES TECHNIQUES - TECHNISCHE NORMEN

A perfect quality is the cornerstone of Tribù's company philosophy. This is guaranteed by a careful selection of the most durable materials, a long term cooperation with industrial partners, each an expert in their field, and a rigorous testing of our models in compliance to both EU and USA standards.

### BIFMA X5- RANGE

BIFMA (Business and Institutional Furniture Manufacturers Association) is an American standard that sets the acceptance levels and test parameters for evaluating the safety, durability and structural adequacy of contract furniture.

### EN 581-1:2006

A EU standard that specifies the general safety requirements for seating and tables.

### EN 1728:2012

A EU standard that specifies the mechanical requirements (strength and stability) and test methods for furniture seating.

### EN 1022:2005 6

A EU standard that measures the stability of domestic furniture.

### CPSD-HL-01012-MTHD

Measures the effect of extreme temperature change (24hrs at -17°C/0 °F and 48°C/120°F).

### CPSD-HL-01063-MTHD

Measures the moisture content of wood, which should be between 8 and 12%.

### CPSD-HL-01010-MTHD/ASTM B117-11

Measures the resistance to corrosion of metal parts.

### AATCC 16

Measures the colourfastness to light.

### AATCC106

Measures the colourfastness to sea water.

### AATCC162

Measures the colourfastness to chlorinated pool water.

### ASTM B117-11

Tests the corrosion resistance of coated metals in a controlled atmosphere.

La philosophie de l'entreprise Tribù repose sur une qualité parfaite que nous garantissons en sélectionnant soigneusement les matériaux les plus résistants et en collaborant avec des partenaires industriels fixes, chacun expert dans son domaine. En outre, nous soumettons nos modèles à des tests rigoureux en conformité aux normes de l'UE et USA.

### BIFMA X5- RANGE

BIFMA (Business and Institutional Furniture Manufacturers Association) est une norme américaine qui fixe les niveaux d'acceptation et les paramètres d'essai test pour évaluer la sécurité, la durabilité et l'adéquation structurelle de meubles pour le secteur du contrat.

### EN 581-1:2006

Une norme européenne qui spécifie les exigences générales de sécurité des sièges et des tables.

### EN 1728:2012

Une norme européenne qui spécifie les exigences mécaniques (résistance et stabilité) et méthodes d'essai pour les sièges.

### EN 1022:2005 6

Une norme européenne qui mesure la stabilité du mobilier domestique .

### CPSD-HL-01012-MTHD

Mesure l'effet des températures extrêmes (24hrs à -17°C et 48°C).

### CPSD-HL-01063-MTHD

Mesure la teneur en humidité du bois. Ceci devrait être compris entre 8 et 12 %.

### CPSD-HL-01010-MTHD/ASTM B117-11

Mesure la résistance à la corrosion des pièces métalliques.

### AATCC 16

Mesure la solidité des couleurs à la lumière.

### AATCC106

Mesure la solidité des couleurs à l'eau de mer.

### AATCC162

Mesure la solidité des couleurs à l'eau de piscine chlorée.

### ASTM B117-11

Teste la résistance à la corrosion des métaux laqués dans une atmosphère contrôlée.

Een perfecte kwaliteit is de hoeksteen van Tribù's bedrijfsfilosofie. Deze kwaliteit wordt gegarandeerd door een zorgvuldige selectie van de meest duurzame materialen, een lange termijn samenwerking met industriële partners, elk expert in hun gebied, en het uitgebreid testen van onze modellen om te voldoen aan zowel EU als VS-normen.

### BIFMA X5- RANGE

BIFMA (Business and Institutional Furniture Manufacturers Association) is een Amerikaanse norm die de aanvaardingniveaus en testparameters vastlegt voor het evalueren van de veiligheid, duurzaamheid en structurele adequaatheid van projectmeubilair.

### EN 581-1:2006

Een EU norm die de algemene veiligheidsvereisten vastlegt voor zitmeubelen en tafels.

### EN 1728:2012

Een EU norm die de mechanische vereisten (sterkte en stabiliteit) en

testmethodes vastlegt voor zitmeubelen.

### EN 1022:2005 6

Een EU norm die de stabiliteit meet van meubelen voor huishoudelijk gebruik.

### CPSD-HL-01012-MTHD

Meet het effect van extreme temperaturen (24u aan -17°C en 48°C).

### CPSD-HL-01063-MTHD

Meet het vochtgehalte van hout dat tussen de 8 en 12% moet zijn.

### CPSD-HL-01010-MTHD/ASTM B117-11

Meet de corrosiebestendigheid van metalen onderdelen.

### AATCC 16

Meet de kleurvastheid bij blootstelling aan licht.

### AATCC106

Meet de kleurvastheid bij blootstelling aan zeewater.

### AATCC162

Meet de kleurvastheid bij blootstelling aan zwembadwater met chloor.

### ASTM B117-11

Test de corrosie van gecoate metalen in een gecontroleerde atmosfeer.

# FIRE RETARDANT CUSHIONS

DES COUSSINS FEU RETARDANT - BRANDVERTRAGENDE KUSSENS

---

For projects, Tribù is able to offer fire retardant cushions (foam and fabric).

We are happy to work with you on your project and find the best solution.  
Please do not hesitate to contact our contract department ([teamcontract@tribu.com](mailto:teamcontract@tribu.com)) for a tailored solution.

---

Pour les projets, Tribù est capable d'offrir des coussins (mousse et tissu) feu retardant.

Nous sommes heureux de travailler avec vous sur votre projet et de rechercher la meilleure solution.  
Contactez notre Service Contractuel ([teamcontract@tribu.com](mailto:teamcontract@tribu.com)) pour une solution sur mesure.

---

Voor projecten kan Tribù brandvertragend kussens (schuim en stof) aanbieden.

Wij werken graag samen met u aan uw project en zoeken naar de beste oplossing.  
Contacteer onze contractafdeling ([teamcontract@tribu.com](mailto:teamcontract@tribu.com)) voor een oplossing op maat.

# FILLINGS

## REMBOURRAGES - VULLINGEN

### OUTDOOR FILLING

All our cushions are weatherproof, which means you can leave them outside, even during short periods of rain. To preserve the beautiful appearance of the cushions, it is best to keep them indoors during autumn and winter. Depending on the design of the cushions, there are 2 different systems:

**water-repellent fillings** have a cover in a laminated, water-repellent polypropylene material which prevents water from penetrating. The thread used to stitch the seams swells when getting wet, preventing water from penetrating through the seams. On top of that, the seams are protected on the inside with an extra covering. If nevertheless water should penetrate, the material is breathable, letting moisture out to prevent moulding.

(AMANU, CTR BACK CUSHIONS, ELIO, MOOD SOFA, NATAL ALU SOFA, NODI SOFA, NOMAD, PURE, SENJA, SURO, TOSCA & VIS À VIS SOFA)

**water-permeable fillings (dryfoam)** have an open cell structure so air can circulate freely. Water passes through the filling but dries quickly thanks to the large open pores, substantially inhibiting fungal growth.

(CTR SEAT CUSHIONS, NODI, PAVILION DAYBED, KOS & UKIYO)

### INCOMPARABLE COMFORT

In addition to the water-repellent properties mentioned above, the cushions of our Nodi sofa, Pure sofa and Elio sofa are filled with an innovative, new generation material with a remarkable softness, outstanding shape-retention and excellent breathability.

This new, natural and recyclable polyester fibre is set to change the world of synthetic foams and fibres used for cushion fillings. As a result of its unique molecular structure, it maintains its bounce even after repeated compressions and

quickly recovers its airy volume. Thanks to its high durability, its unique texture is retained for a long time.

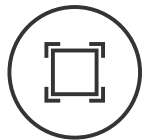

The back cushions consist of compartments fully filled with this new fibre, combined with recycled memory-foam particles. This provides excellent support and form stability.

The seat cushions are filled with high quality PU foam with a padding in non-carded microfibre that has been developed for its softness, fluffiness and comfort, creating a seat cushion with the same performance as feathers and down.

(NODI SOFA, PURE SOFA & ELIO SOFA)

Outstanding softness

Excellent shape retention

Comfortable stretch

Highly ecological

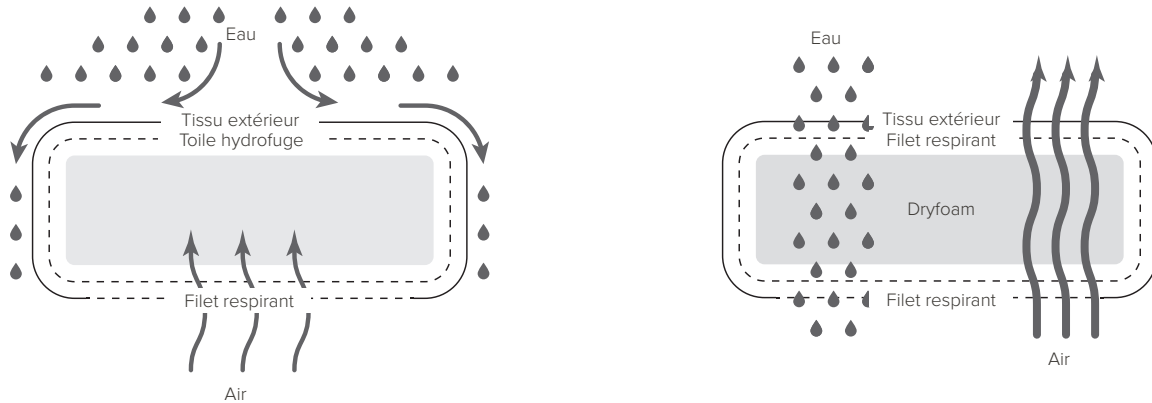

Superior rebound

## REMBOURRAGE POUR L'EXTÉRIEUR

Tous nos coussins sont résistants aux intempéries. Ils peuvent donc rester dehors, même pendant de courtes périodes de pluie. Afin de conserver au mieux la beauté de vos coussins, nous vous recommandons de les rentrer à l'intérieur en automne et en hiver. Dépendant du design des coussins, il existe deux types de rembourrages différents :

les rembourrages imperméables à l'eau disposent d'une toile en polypropylène laminé hydrofuge, ce qui empêche l'eau d'y pénétrer. Le fil utilisé pour coudre les coutures, gonfle quand il est mouillé, empêchant l'eau de pénétrer à travers les coutures. En plus, les coutures sont protégées à l'intérieur avec une couverture supplémentaire. Si néanmoins de l'eau rentre, le matériau est respirant : il permet à l'humidité de s'évacuer afin d'éviter le risque de moisissure.

(AMANU, CTR COUSSINS DOSSIER, ELIO, MOOD SOFA, NATAL ALU SOFA, NODI SOFA, NOMAD, PURE, SENJA, SURO, TOSCA & VIS À VIS SOFA)

les rembourrages perméables à l'eau (dryfoam) disposent d'une structure à cellules ouvertes ce qui permet à l'air de circuler librement. L'eau passe à travers le rembourrage, mais sèche très rapidement grâce aux larges pores, ce qui limite le risque de moisissure.

(CTR COUSSINS D'ASSISE, NODI, PAVILION DAYBED, KOS & UKIYO)

## UN CONFORT INCOMPARABLE.

En plus des propriétés hydrofuges mentionnées ci-dessus, les coussins de notre canapé Nodi sofa, Pure sofa et Elio sofa sont rembourrés d'un matériau innovant de dernière génération qui offre une douceur remarquable, une excellente mémoire de forme et une respirabilité hors du commun.

Ce nouveau fibre de polyester naturel recyclable va révolutionner le monde de la fibre et de la mousse synthétiques utilisées jusqu'à présent pour le rembourrage des coussins. Grâce à sa structure moléculaire unique, elle retrouve rapidement sa forme et son volume aéré, même après des compressions répétées. Grâce à sa haute résistance, elle

conservera longtemps sa texture unique.

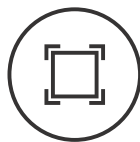

Les coussins de dossier du canapé sont constitués de compartiments entièrement remplis de cette nouvelle fibre, combinée à des particules de mousse à mémoire de forme recyclée. La garantie d'un soutien et d'une stabilité de forme remarquables.

Les coussins de siège sont remplis de mousse PU de haute qualité avec une couche supérieure en microfibre non cardée avec une douceur et un confort comparables à ceux des plumes et du duvet.

(NODI SOFA, PURE SOFA & ELIO SOFA)

### BUITENVULLING

Al onze kussens zijn weerbestendig waardoor u ze gewoon buiten kan laten liggen, ook tijdens korte periodes van regen. Om uw kussens langer mooi te houden, haalt u ze tijdens de herfst- en winterperiode best binnen. Afhankelijk van het design van de kussens, gebruiken we 2 verschillende systemen:

**Waterafstotende kussens** hebben een hoes rond de vulling in gelamineerd, waterafstotend polypropyleen waardoor water niet in de vulling kan binnendringen. De draad die gebruikt wordt om de naden te stikken, zwelt op als hij vochtig wordt, waardoor water ook niet langs de naden kan binnenkomen. Bovendien worden de naden aan de binnenzijde ook nog beschermd met een extra hoesje. Indien water toch nog zou binnensijpelen, kan het vocht eruit omdat de vulling ventilerend is.

(AMANU, CTR RUGKUSSENS, ELIO, MOOD SOFA, NATAL ALU SOFA, NODI SOFA, NOMAD, PURE, SENJA, SURO, TOSCA & VIS À VIS SOFA)

**Waterdoorlaatbare kussens (dryfoam)** hebben een open celstructuur waardoor lucht vrij kan circuleren. Water penetreert door de vulling maar droogt snel dankzij de grote, open poriën waardoor schimmel weinig kans krijgt.

(CTR ZITKUSSENS, NODI, PAVILION DAYBED, KOS & UKIYO)

### EEN ONVERGELIJKBAAR COMFORT.

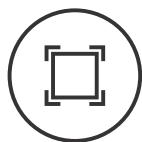

Bovenop de waterafstotende eigenschappen zoals hierboven vermeld, zijn de kussens van onze Nodi sofa, Pure sofa en Elio sofa gevuld met een innovatief materiaal van de nieuwste generatie met een opmerkelijke zachtheid, perfecte vormvastheid en een uitstekend ademend vermogen. Deze nieuwe, natuurlijke, recycleerbare polyestervezels zullen de wereld van synthetische vezels en schuimvullingen voorgoed veranderen. Dankzij hun unieke moleculaire structuur nemen ze snel terug hun vorm en luchtig volume aan, zelfs na herhaaldelijk samendrukken. Dankzij de hoge duurzaamheid

behouden ze hun unieke textuur voor lange tijd. De rugkussens van de sofa bestaan uit compartimenten die volledig gevuld zijn met deze nieuwe vezels gecombineerd met gerecycleerde memory foam deeltjes. Dit zorgt voor een uitstekende ondersteuning en vormstabiliteit. De zitkussens zijn gevuld met hoogwaardig PU-schuim met een toplaag in niet-gekaarde microvezel met een zachtheid en comfort vergelijkbaar met veren en dons.

(NODI SOFA, PURE SOFA & ELIO SOFA)

Voortreffelijke zachtheid

Excellente vormvastheid

Comfortabele stretch

Zeer milieuvriendelijk

Superieure terugvering

# FABRIC TYPES

## TYPES DE TISSUS - STOF TYPES

### INFORMATION

Tribù offers a selection of 124 different outdoor fabrics, all carefully chosen to match our discreet luxury character. Each fabric is engineered with high performance characteristics that provide resistance to fading from sunlight and offer a long life. Durable, yet very tactile. Within our range, we work with 3 different fabric types, see overview beneath. You can find more info on these fabric types on the following pages.

### INFORMATION

Tribù propose une gamme de 124 tissus pour l'extérieur, tous soigneusement choisis afin de correspondre à notre image de luxe discret. Chaque tissu est conçu avec des caractéristiques de haute performance qui offrent une résistance à la décoloration due à la lumière du soleil et une longue durée de vie. Durable, mais aussi très agréable au toucher. Au sein de notre gamme, nous travaillons avec 3 types de tissus différents, voir le tableau ci-dessous. Vous pouvez trouver plus d'informations sur ces types de tissu dans les pages suivantes.

### INFORMATIE

Tribù beschikt over een gamma van 124 verschillende buitenstoffen, allemaal zorgvuldig gekozen om te matchen bij ons discrete luxe karakter. Elke stof is geproduceerd met high-performance kenmerken die weerstaan aan de invloed van de zon en een lange levensduur garanderen. Duurzaam, maar toch zeer tactiel. In ons gamma werken we met 3 verschillend types stof, zie tabel hier beneden. U vindt meer info over deze types stof op de volgende bladzijden.

Smooth fabrics are less prone to looping.  
Les tissus lisses ont moins tendance à produire des boucles.  
Gladde stoffen zijn minder vatbaar voor lusvorming.

# SOLUTION DYED ACRYLICS

DES TEXTILES EN ACRYLIQUE TEINTÉS DANS LA MASSE - IN DE MASSA GEVERFD ACRYL

---

BASC, DUAS, LINEN, NARAM, NATURAL, NESSO, RUSTIC WEAVE, SIVA, SUJÀN, SUNBRELLA® & YUTTU

---

## INFORMATION

Acrylic fabrics are durable, high-performance synthetic fabrics made from acrylic fibers. They have a number of advantages including mildew-resistant properties and a minimal absorbency of liquids. The acrylics Tribù uses are solution-dyed which means that they are dyed before the yarn is created. A liquid acrylic solution is mixed with the dye and is then formed into a fiber so it already has color before it is spun into a yarn. This process guarantees an optimal colour fastness. Their ability to breathe prevents mold from building up on the surfaces of the fabric. The open weave provides air flow helping to reduce heat and humidity. In addition to the technical performance, acrylic fabrics have a very soft look and feel, creating the perfect ambiance for your outdoor furniture. Our solution dyed fabrics are treated with a special Teflon® coating to make them water repellent and resistant to stains, grease, fluids and salt or chlorine water.

## MAINTENANCE

The covers of all our cushions can be removed and cleaned. All solution dyed acrylics can be washed at 30° C. After washing we recommend to apply Textile Protector (p. 209) which provides the fabric with an invisible, water- and stain repellent film.

---

## INFORMATION

Les tissus en acrylique sont des textiles synthétiques résistants, de très grande qualité, fabriqués à partir de fibres en acrylique. Ils ont de très nombreux avantages, parmi lesquels des propriétés antifongiques et un degré d'absorption des liquides très faible. Les tissus en acrylique utilisés par Tribù sont teintés dans la masse ce qui signifie qu'ils sont teintés avant même la création du fil de tissage. On mélange une solution liquide acrylique avec le colorant qui est ensuite transformé en fibre. Celle-ci est donc déjà teintée avant d'être filée. Ce processus garantit une tenue optimale des couleurs. Leurs propriétés respirantes ne laissent aucune chance aux moisissures. Par ailleurs, le tissage aéré permet une meilleure circulation de l'air, de sorte que les tissus ne deviennent jamais ni chauds, ni humides. Outre leurs caractéristiques techniques exceptionnelles, les textiles en acrylique présentent un aspect très doux visuellement, mais également au toucher, ce qui permet de recréer en extérieur une atmosphère confortable et agréable. Tous nos tissus subissent un traitement au Teflon®, ce qui les rend hydrofuges, antitaches et résistants à l'eau saline et chlorée.

## ENTRETIEN

Toutes les housses de nos coussins peuvent être retirées afin d'être nettoyées. Tous les tissus en acrylique peuvent être lavés à 30 °C. Après lavage, il est recommandé de vaporiser dessus Textile Protector (p. 209), qui va le protéger d'un film invisible hydrofuge et antitache.

---

## INFORMATIE

Acryl stoffen zijn duurzame, hoogwaardige synthetische stoffen gemaakt van acrylvezels. Ze hebben een aantal voordelen, zoals een weerstand tegen schimmel en een minimale absorptie van vloeistoffen. De acryl die Tribù gebruikt, is in de massa geverfd wat betekent dat de vezels zijn geverfd voordat het garen wordt gemaakt. Een vloeibare acryloplossing wordt gemengd met de kleurstof en vervolgens tot een vezel gevormd, zodat het al kleur heeft voordat het tot garen gesponnen wordt. Dit proces garandeert een optimale kleurvastheid. Hun ademende eigenschappen geven schimmel weinig kans. De open weving zorgt eveneens voor luchtcirculatie waardoor de stoffen niet heet of plakkerig worden. Naast hun bijzondere technische eigenschappen, hebben acryl stoffen ook een zeer zachte look & feel, waardoor ze de perfecte sfeer op uw terras kunnen creëren. Al onze stoffen hebben een Teflon® behandeling gekregen waardoor ze water, vlek- en vetafstotend zijn en bestand tegen zout en chloorwater.

## ONDERHOUD

Alle hoezen van onze kussens kunnen verwijderd worden en gereinigd. Alle acryl stoffen kunnen gewassen worden op 30° C. Na het wassen is het raadzaam om de stof in te spuiten met Textile Protector (p. 209) die een onzichtbare, water- en vlekafstotende film aanbrengt.

# SOLUTION DYED POLYOLEFIN

DES TEXTILES EN POLYOLÉFINE TEINTÉS DANS LA MASSE - IN DE MASSA GEVERFD POLYOLEFIN

KNIT

## INFORMATION

Solution dyed polyolefin fabrics are the perfect combination of ecology (100% recyclable), durability and performance, being twice as strong as acrylics. Polyolefin fabrics are resistant to water, mildew and stains. Combined with their high abrasion and pilling resistance, it makes them the perfect fabrics for your outdoor furniture. Their UV-resistance is dependent on the colour and might be lower than solution dyed acrylic fabrics (test results can be found on the back of your sample swatch and on p. 160). In case of lower results, slight fading of the colour might occur after 2 years.

## MAINTENANCE

The cover of all our cushions can be removed and cleaned. All solution-dyed polyolefin fabrics can be washed at 30° C. After washing we recommend to apply Textile Protector (p. 209) which provides the fabric with an invisible, water- and stain repellent film.

## INFORMATION

Les tissus en polyoléfine teintés dans la masse constituent l'alliance parfaite entre écologie (100 % recyclables), caractère inusable et haute qualité, étant deux fois plus résistants que les tissus en acrylique. Ils sont imperméables, hydrofuges et antitaches. Le fait qu'ils soient également anti-abrasifs et anti-peluches, en font des tissus parfaits pour habiller vos meubles d'extérieur. Leur résistance aux UV est variable selon la couleur et peut être moins efficace que pour des tissus en acrylique teintés dans la masse (vous pourrez consulter les résultats des tests au dos de chaque coupon de tissu ou p. 160). En cas de moins bons résultats, on observe en général un début de décoloration au bout de 2 ans.

## ENTRETIEN

Toutes les housses de nos coussins peuvent être retirées et nettoyées. Tous les tissus en polyoléfine peuvent être lavés à 30 °C. Après lavage, il est recommandé de vaporiser dessus Textile Protector (p. 209), qui va le protéger d'un film invisible hydrofuge et antitache.

## INFORMATIE

In de massa geleverde polyolefin stoffen, zijn de perfecte combinatie van milieuvriendelijkheid (100% recycleerbaar), duurzaamheid en prestatie. Ze zijn dubbel zo sterk als acrylstoffen. Polyolefin stoffen zijn water-, schimmel- en vlekbestendig. In combinatie met hun hoge weerstand tegen wrijving en pluizen, zijn dit de perfecte stoffen voor uw buitenmeubelen. Hun UV-weerstand is afhankelijk van de kleur en zou lager kunnen zijn dan in de massa geleverd acryl (testresultaten vindt u aan de achterkant van uw stofstalenbundel of op p. 160). In het geval van lagere resultaten, kan lichte vervaging van de kleur optreden na 2 jaar.

## ONDERHOUD

Alle hoezen van onze kussens kunnen verwijderd worden en gereinigd. Alle polyolefin stoffen kunnen gewassen worden op 30° C. Na het wassen is het raadzaam om de stof in te spuiten met Textile Protector (p. 209) die een onzichtbare, water- en vlekafstotende film aanbrengt.

# PVC COATED POLYESTER

POLYESTER ENDUIT DE PVC - PVC GECOAT POLYESTER

---

SUNSCAPE

---

## INFORMATION

These fabrics are composed of polyester that is coated with PVC. The polyester provides strength and dimensional stability, while the PVC coating makes the material waterproof and resistant to dirt, mildew, oil, salt, chemicals and UV rays. It also gives the material added strength and durability.

## MAINTENANCE

PVC coated fabrics are very maintenance friendly and can easily be cleaned with clear water, a pH- neutral soap and a soft brush. Rinse with clear water. Stubborn stains can be removed with Synthetics Super Cleaner (p. 208).

---

## INFORMATION

Ces tissus sont composés de polyester, recouvert de PVC. Le polyester assure solidité et stabilité dimensionnelle, tandis que l'enduit de PVC rend le matériau imperméable et résistant à la saleté, la moisissure, huile, sel, produits chimiques et aux rayons UV. En plus, il augmente encore la solidité et durabilité.

## ENTRETIEN

Le polyester enduit de PVC est très facile à entretenir et se nettoie aisément avec de l'eau pure, un savon à pH neutre et une brosse douce. Rincez ensuite à l'eau propre. Les taches récalcitrantes peuvent être éliminées avec le Synthetics Super Cleaner (p. 208).

---

## INFORMATIE

Deze stoffen zijn samengesteld uit polyester dat gecoat wordt met PVC. De polyester biedt sterkte en dimensionale stabiliteit, terwijl de PVC-coating het materiaal waterdicht maakt en bestand tegen vuil, schimmel, olie, zout, chemicaliën en UV-stralen. Het voegt ook extra sterkte en duurzaamheid toe.

## ONDERHOUD

Deze stoffen zijn zeer onderhoudsvriendelijk en kunnen gemakkelijk gereinigd worden met zuiver water, een pH-neutrale zeep en een zachte borstel. Naspoelen met zuiver water. Hardnekkige vlekken kunnen verwijderd worden met de Synthetics Super Cleaner (p. 208).

# LEGEND FABRIC PROPERTIES

## LÉGENDE PROPRIÉTÉS DES TISSUS - LEGENDE STOFFEIGENSCHAPPEN

---

**Abrasion resistance:** fabric's ability to withstand surface wear from rubbing.

**Martindale test**

Fabric is mounted flat and rubbed in a figure eight-like motion using an abrasive surface. The number of cycles endured before the fabric shows an objectionable change in appearance is counted and determines the fabric's abrasion rating.  
20.000 = general contract upholstery  
40.000 = heavy duty upholstery

**Colour fastness**

The fabrics are tested for UV resistance with an aging accelerator in compliance with ISO standard 4892-2 for 5.000 hours and outdoors in Florida, Indonesia and Belgium. Based on these tests the fabrics are awarded a maximum score of 5.

**Pilling**

The fabric's propensity to pilling. Maximum score is 5 (= least inclined).

---

**Résistance à l'abrasion:** la résistance à l'usure induite par le frottement de textiles.

**Test Martindale**

Le tissu est monté à plat et frotté dans un mouvement en forme huit en utilisant un abrasif. Le nombre de cycles endurés avant que le tissu ne montre un changement d'aspect sensible est compté et détermine le taux d'abrasion du tissu.  
20.000 = tissu à usage général dans le secteur contrat  
40.000 = tissu à usage intensif

**Solidité à la lumière aux intempéries**

Tous les tissus sont testés aussi par nous-mêmes pendant 5.000 heures avec un accélérateur de vieillissement en conformité avec la norme ISO 4892-2 et à l'extérieur en Floride, Indonésie et la Belgique. Le score maximal attribué est 5.

**Pilling**

La propension du tissu au boulochage. Le score maximal est 5 (= le moins incliné).

---

**Slijtvastheid:** geeft de weerstand van de stof aan tegen slijtage door wrijving.

**Martindale test**

Over de strak getrokken stof wordt met behulp van een schuuroppervlak gewreven in een achtvorm. Het aantal cycli dat de stof ondergaat voordat er merkbare slijtage optreedt wordt geteld en bepaalt de slijtvastheid.  
20.000 = algemene contract stoffering  
40.000 = stoffering voor intensief gebruik

**Kleurvastheid bij ververing**

We testen de stoffen zelf ook nog op UV-bestendigheid met een verouderingsversneller gedurende 5.000 uren volgens de ISO standaard 4892-2 en op buitenlandse locaties in Florida, Indonesië en België.  
Op basis hiervan geven we een score van maximaal 5.

**Pilling**

De neiging van de stof tot pillen. De maximum score is 5 (= minste neiging).

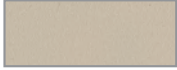

**INFORMATION**

Aluminium is a non-ferrous metal, which combines great mechanical rigidity with light weight. This makes it especially suitable for furniture. If treated correctly, it has a good resistance to corrosion. By powdercoating aluminium, this corrosion resistance can even be enhanced. After a chemical pre-treatment, an epoxy powder is applied statically and baked. Tribù always uses European, ultra-durable and scratch-resistant polyester powdercoatings that guarantee a UV-resistance of 15 years. For certain collections (Branch & Illum) parts of the frame are die-cast under high pressure which results in a seamless and extremely solid frame. Additionally, an extra epoxy primer coat is applied for these collections.

**MAINTENANCE**

Powder coated aluminium is easy to clean with clear water and a pH-neutral fluid detergent. Stubborn stains can be removed with Coated aluminium & stainless steel Cleaner (p. 206). If necessary, use a soft brush to remove the dirt from the pores. To protect the frame against the adhesion of dirt, Coated aluminium & stainless steel Protector (p. 206) can be used which applies an invisible protective film.

**INFORMATION**

L'aluminium est un métal non ferreux qui combine une grande rigidité mécanique à un faible poids. Il convient ainsi idéalement pour la fabrication de mobilier. Moyennant un traitement correct, l'aluminium présente une résistance élevée à la corrosion. Cette résistance à la corrosion peut encore être optimisée en appliquant un laquage en poudre à l'aluminium. Après un prétraitement chimique, une poudre époxy est appliquée par voie statique, puis cuite.

Tribù utilise toujours des laques polyester en poudre européennes ultra durables, avec une résistance aux UV de 15 ans. Dans certaines collections (Branch & Illum), les pièces en aluminium sont moulées sous haute pression, ce qui crée un cadre sans soudures et très robuste. Pour ces collections, on utilise en plus une couche additionnelle de primer époxy.

**ENTRETIEN**

L'aluminium est facile à entretenir avec de l'eau pure et un détergent liquide à pH neutre. Vous pouvez éliminer les taches récalcitrantes avec de l'Coated aluminium & stainless steel Cleaner (p. 206). Si nécessaire, employez une brosse douce pour éliminer les saletés dans les pores. Pour protéger le cadre contre l'incrustation de saletés, on peut employer Coated aluminium & stainless steel Protector (p. 206), qui applique une couche de protection invisible.

**INFORMATIE**

Aluminium is een non-ferro metaal dat een hoge mechanische stijfheid combineert met een licht gewicht. Dit maakt het bijzonder geschikt voor meubilair. Indien correct behandeld, heeft aluminium een grote weerstand tegen corrosie. Door aluminium te poederlakken kan deze corrosiebestendigheid nog verder opgedreven worden. Na een chemische voorbehandeling wordt een epoxy poeder statisch toegepast en gebakken. Tribù gebruikt steeds Europese, ultra-durable en krasbestendige polyesterpoederlakken met een UV-bestendigheid van 15 jaar. Bij bepaalde collecties (Branch & Illum) worden delen van het aluminium onder hoge druk spuitgegoten waardoor een naadloos en zeer sterk frame ontstaat. Bij deze collecties wordt bovendien een extra laag epoxy primer toegepast.

**ONDERHOUD**

Aluminium is makkelijk te onderhouden met zuiver water en een pH-neutraal, vloeibaar detergent. Hardnekkige vlekken kan u verwijderen met Coated aluminium & stainless steel Cleaner (pag. 206). Gebruik indien nodig een zachte borstel om vuil uit de poriën te verwijderen. Om het frame te beschermen tegen vasthechten van vuil, kan Coated aluminium & stainless steel Protector (p. 206) gebruikt worden dat een onzichtbare beschermlaag aanbrengt.

BRANCH, FORUM, ILLUM, NATAL ALU, PAVILION, SENJA & TOSCA

## INFORMATION

Batyline® is a polyester fibre which is coated with solution dyed PVC and then woven. The fibres are then melted together to create an extremely stretch and tear-resistant fabric that keeps its shape perfectly. Apart from its exceptional mechanical strength, it has a high chemical resistance. The synthetic coating guarantees an extremely high weather and UV-resistance. The fact that no moisture is absorbed, results in rapid drying, maximum stain and mould-resistance and simple cleaning. The most important feature is its pliancy and optimal seating comfort.

Canatex® is the marriage between Batyline® and a natural fibre, hemp. The combination of the two leads to more subtle colours and a natural touch, leaving all the technological advantages of the product untouched.

## MAINTENANCE

Batyline® is easy to clean with clear water and a pH-neutral soap. Stubborn stains can be removed with Synthetics Super Cleaner (p. 208). If necessary, use a soft brush to remove dirt from the pores. Do not use acid, alkaline or chlorinated products that can harm the hardware of your furniture.

For extra protection we recommend Synthetics Protector (p. 208) which applies an invisible film and reduces the adhesion of dirt.

## INFORMATION

Batyline® est une fibre polyester qui est recouverte d'une couche de PVC, puis tissée. Ces fibres sont ensuite fondues ensemble pour créer une toile extrêmement résistante à la déchirure, qui conserve parfaitement sa forme. En plus de ses résistances mécaniques exceptionnelles, Batyline® possède aussi une résistance chimique élevée. La couche synthétique de PVC garantit une résistance extrême aux intempéries et UV. Comme Batyline® n'absorbe aucune humidité, il sèche très rapidement et est insensible aux taches et aux moisissures. En outre, il est très flexible, ce qui assure un grand confort d'assise.

Canatex® est une variante spéciale qui combine le Batyline® ordinaire avec la fibre naturelle de chanvre. Cette combinaison produit des coloris plus subtils et un aspect visuel et tactile naturel, mais n'affecte en rien les avantages technologiques du produit.

## ENTRETIEN

Batyline® est très facile à entretenir et peut être nettoyé simplement avec de l'eau pure et un détergent liquide à pH neutre. Les taches récalcitrantes peuvent être éliminées avec le Synthetics Super Cleaner (p. 208). Si nécessaire, employez une brosse douce pour éliminer les saletés dans les pores. N'utilisez pas de produits acides, alcalins ou contenant du chlore, qui risquent d'attaquer la carcasse de votre meuble.

Pour une protection supplémentaire, nous recommandons du Synthetics Protector (p. 208) qui applique un film invisible réduisant l'incrustation de saletés.

## INFORMATIE

Batyline® is een polyestervezel die gecoat wordt met een laag PVC en daarna geweven. De vezels worden daarna samengesmolten om een extreem scheurbestendige doek te creëren die zijn vorm perfect behoudt. Naast zijn buitengewoon mechanische sterktes, heeft Batyline® ook een hoge chemische weerstand. De synthetische pvc laag garandeert een extreem hoge weer- en UV-bestendigheid. Omdat Batyline® geen vocht absorbeert, droogt het erg snel en is het vlek- en schimmelbestendig. Bovendien is het ook erg flexibel waardoor het zitcomfort erg aangenaam is.

Canatex® is een speciale variant die gewone Batyline® combineert met de natuurlijke hennepvezel. Deze combinatie geeft meer subtiele kleuren en een natuurlijke look & feel, waarbij alle technologische voordelen van het product behouden blijven.

## ONDERHOUD

Batyline® is zeer onderhoudsvriendelijk en kan makkelijk gereinigd worden met zuiver water en een pH-neutraal, vloeibaar detergent. Hardnekkige vlekken kunnen verwijderd worden met Synthetics Super Cleaner (p. 208). Gebruik indien nodig een zachte borstel om vuil uit de poriën te verwijderen. Gebruik geen zure, basische of chloorhoudende producten die de hardware van uw meubel kunnen aantasten.

Voor extra bescherming raden we Synthetics Protector (p. 208) aan die een onzichtbare film aanbrengt die de aanhechting van vuil vermindert.

### INFORMATION

In the world of metals, brass is a distinctive element that has enriched our lives for centuries. Being an alloy of copper and zinc, it is highly malleable and therefore remarkably versatile. Its frequent use in the marine industry also underlines its sustainable quality.

But one of its captivating charms is its capacity to transform over time. When encountering the elements of its surroundings like air, moisture and various environmental factors, a chemical reaction leads to the formation of a thin outer layer, known as patina.

The intrinsic qualities and warm aesthetics of the brass make it the ideal material for our beautifully crafted hardware, detailing the table top and discreetly conjoining multiple SURO dining tables.

### MAINTENANCE

Brass is easy to clean with clear, fresh water and a pH-neutral liquid detergent. Always use a soft, clean cloth. Over time, brass will develop a sophisticated patina, ranging from greens and blues to a warm brown.

Substances, especially salty and acidic ones like juice, coffee, red wine, balsamic vinegar, bird droppings and leaves, leave no stains but do influence the nuances of the brass' surface. For minimal impact, immediately wipe off all substances.

When cleaning, please avoid intense rubbing to maintain the corroded, matte appearance. Once the brass acquires a shiny glow, the only way to recover its elegantly aged appearance, is to be patient.

### INFORMATION

Dans le monde des métaux, le laiton est un élément distinctif qui embellit notre vie depuis des siècles.

Alliage de cuivre et de zinc, il est très malléable et donc hautement polyvalent. Son utilisation fréquente dans l'industrie maritime souligne en outre ses qualités durables.

Toutefois, l'un de ses charmes les plus captivants est sa capacité à se transformer au fil du temps. Au contact des éléments de son environnement, tels que l'air, l'humidité et divers facteurs environnementaux, une réaction chimique conduit à la formation d'une fine couche extérieure, appelée patine.

Les qualités intrinsèques et l'esthétique chaleureuse du laiton se prêtent parfaitement à la réalisation de notre raccord, détaillant le plateau de la table et joignant harmonieusement plusieurs tables à manger SURO.

### ENTRETIEN

Le laiton est facile à nettoyer avec de l'eau claire et un détergent liquide au pH neutre. Utilisez toujours un chiffon doux et propre.

Avec le temps, le laiton acquiert une patine sophistiquée, allant des verts et des bleus à un brun chaud. Les substances, notamment salées et acides comme le jus, le café, le vin rouge, le vinaigre balsamique, les fientes d'oiseaux et les feuilles, ne laissent pas de taches, mais altèrent les nuances de la surface du laiton. Pour limiter les effets, essuyez immédiatement toutes les substances.

Pendant le nettoyage, évitez de frotter de manière trop vigoureuse afin de conserver l'aspect corrodé et mat. Une fois que le laiton a acquis un éclat brillant, la seule façon de retrouver son aspect patiné élégant est de s'armer de patience.

### INFORMATIE

In de wereld van metalen is messing een karakteristiek element dat onze levens al eeuwenlang verrijkt. Als legering van koper en zink is het materiaal zeer vormbaar en dus opmerkelijk veelzijdig. Het frequente gebruik in de maritieme industrie onderstreept de duurzame kwaliteit ervan.

Maar zijn fascinerende charme ligt ook in het vermogen om in de loop van de tijd te transformeren. Bij contact met natuurlijke omgevingselementen zoals lucht, vocht en diverse weersomstandigheden ontstaat een chemische reactie die een dunne buitenlaag vormt, bekend als patina.

De intrinsieke kwaliteiten en warme esthetiek maken van messing het ideale materiaal voor het prachtig ontworpen beslag en discrete koppelingselement van onze SURO tafels.

### ONDERHOUD

Messing is gemakkelijk proper te maken met helder kraanwater en een vloeibaar pH-neutraal reinigingsmiddel. Gebruik altijd een zachte, zuivere doek.

Met de tijd ontwikkelt het messing een gesofisticeerd patina, gaande van groene en blauwe tinten tot een warm bruin. Substanties zoals zoute en zure sappen (koffie, rode wijn, balsamico azijn), vogeluitwerpselen en bladeren maken geen permanente vlekken, maar hebben wel een invloed op de nuances van het oppervlak. Veeg voor een minimale impact alle substanties onmiddellijk weg.

Vermijd bij reiniging intensief wrijven om het gecorrodeerde, matte uiterlijk te behouden. Zodra het messing een glans vertoont, is geduld de enige manier om het elegant verouderde patina terug te krijgen.

#### INFORMATION

Canax® is a unique combination of natural hemp and synthetic fibres. Unbreakable polyester fibres give strength and stability. PVC makes the Canax® stain repellent and resistant to outside influences, fungi, frost and UV radiation. The hemp finally, gives the material a surprisingly matte look and a natural touch, almost like leather. Canax® is also a CO2 positive product. As hemp is a natural product, differences in colour and structure may appear, giving the furniture - together with the hand weaving - a unique craft appearance, which cannot be regarded as a fault.

#### MAINTENANCE

Canax® requires hardly any maintenance and is easy to clean with clear water and a PH neutral soap. Stubborn stains and persistent green deposit can be removed with Synthetics Super Cleaner (p. 208). Use a soft brush to clean between the weave.

For extra protection we recommend Synthetics Protector (p. 208) which applies an invisible film and reduces the adhesion of dirt.

#### INFORMATION

Canax® est une combinaison unique de chanvre naturel et de fibres synthétiques. Les fibres polyester incassables garantissent la résistance et la stabilité. Le PVC rend le matériau grand-teint, résistant aux moisissures, au gel et aux taches. Enfin, le chanvre crée un aspect mat surprenant et une sensation naturelle presque comparable à celle du cuir. En outre, le Canax® est un produit CO2 positif. Comme le chanvre est un produit naturel, de légères différences de couleur et de structure peuvent apparaître. Avec le tissage manuel, elles confèrent au meuble un aspect artisanal unique, qui ne peut pas être considéré comme un défaut.

#### ENTRETIEN

Canax® est très facile à entretenir et peut être nettoyé simplement avec de l'eau pure et un détergent liquide à pH neutre. Les taches récalcitrantes peuvent être éliminées avec le Synthetics Super Cleaner (p. 208). Utilisez une brosse douce pour éliminer les saletés entre le tissage.

Pour une protection supplémentaire, nous recommandons du Synthetics Protector (p. 208) qui applique un film invisible réduisant l'incrustation de saletés.

#### INFORMATIE

Canax® is een unieke combinatie van natuurlijke hennep en kunstofvezels. Onbreekbare polystervezels zorgen voor sterkte en stabiliteit. PVC maakt het materiaal kleurvast, schimmel-, vorst- en vlekbestendig. De hennep ten slotte, zorgt voor een verrassend mat uitzicht en een natuurlijk gevoel, bijna vergelijkbaar met leder. Canax® is bovendien een CO2 positief product. Aangezien hennep een natuurlijk product is, kan er een licht verschil in kleur en structuur ontstaan. Samen met het handweven, geeft dit een uniek, artisanaal uitzicht aan het meubel dat niet aanzien kan worden als een fout.

#### ONDERHOUD

Canax® is zeer onderhoudsvriendelijk en kan makkelijk gereinigd worden met zuiver water en een pH-neutraal, vloeibaar detergent. Hardnekkige vlekken kunnen verwijderd worden met Synthetics Super Cleaner (p. 208). Gebruik een zachte borstel om vuil tussen de weving te verwijderen.

Voor extra bescherming raden we Synthetics Protector (p. 208) aan die een onzichtbare film aanbrengt die de aanhechting van vuil vermindert.

AMANU, ILLUM, NOX, OTTO, T-TABLE, TOSCA & UKIYO

---

### INFORMATION

Ceramic has been used for centuries for all kinds of purposes. With its unique characteristics it is the ideal material for outdoor table tops. Ceramic is UV-resistant, frost proof, extremely scratchproof and completely stain-repellent. The ceramic used by Tribù is coloured in the mass and guarantee years of carefree pleasure. The raw materials are selected very carefully by suppliers from Western and Southern Europe only. Every top is unique. For example, the Scisto colour may show subtle veins, but this is not the case for every top. The ceramic table tops are slightly bended so water can flow off.

### MAINTENANCE

Ceramic is very easy to maintain with clear water and a pH-neutral soap. Stubborn stains can be removed with Ceramic, Lava Stone & Glass Cleaner (p. 207). To protect the ceramic, Ceramic, Lava Stone & Glass Protector (p. 207) can be used. This applies a highly water and soiling repellent coating, which also makes the surface brighter, smoother and easier to clean.

---

### INFORMATION

La céramique est utilisée depuis des siècles dans les applications les plus diverses et constitue le matériau idéal pour les plateaux de table destinés à l'extérieur. Elle est extrêmement résistante aux taches, acides, griffes, au feu, au gel et aux rayons UV. La céramique employée par Tribù est complètement teintée dans la masse et vous garantit des années de plaisir sans le moindre souci. Les matières premières sont sélectionnées très soigneusement par des fournisseurs d'Europe Occidentale et du Sud. Chaque plateau est unique. Par exemple, sur la variante Scisto des fines veines peuvent figurer, mais ce n'est pas le cas pour chaque dessus de table. Les plateaux de table en céramique sont légèrement convexes de sorte que l'eau puisse s'en écouler.

### ENTRETIEN

La céramique est facile à entretenir avec de l'eau pure et un détergent liquide à pH neutre. Les taches récalcitrantes peuvent être éliminées avec le Ceramic, Lava Stone & Glass Cleaner (p. 207). Le Ceramic, Lava Stone & Glass Protector (p. 207) applique une couche protectrice invisible qui est hydrofuge et antitaches, et rend la surface plus claire, plus lisse et plus facile à nettoyer.

---

### INFORMATIE

Keramiek wordt al eeuwenlang gebruikt voor allerlei doeleinden en is het ideale materiaal voor tafelbladen voor buitengebruik. Het is uiterst bestand tegen vlekken, zuren, krassen, vuur, vorst en UV-stralen. De keramiek die Tribù gebruikt, is volledig in de massa gekleurd en garandeert u jarenlang plezier zonder zorgen. De selectie van de grondstoffen gebeurt uiterst zorgvuldig door enkel West- en Zuideuropese leveranciers waarbij elk blad uniek is. De Scisto variant kan bijvoorbeeld subtiele aders vertonen, maar dit is niet voor elk blad het geval. Onze keramische tafelbladen zijn lichtjes gebogen zodat het water eraf kan vloeien.

### ONDERHOUD

Keramiek is eenvoudig te onderhouden met zuiver water en een pH-neturaal, vloeibaar detergent. Hardnekkige vlekken kunnen verwijderd worden met Ceramic, Lava Stone & Glass Cleaner (p. 207). Ceramic, Lava Stone & Glass Protector (p. 207) brengt een onzichtbare bescherm laag aan die waterafstotend en vlekwerend werkt en het oppervlak helderder, gladder en makkelijker om te reinigen maakt.

**INFORMATION**

The durability and strength of tempered glass make it an excellent choice for any outdoor application. Being coloured throughout, the glass's hue remains vibrant and consistent, even with prolonged outdoor exposure. Each panel features polished edges, providing a refined finish that is also child-friendly. The unique texture of the surface diffuses and scatters light in a playful manner, resulting in an elegant visual effect.

**MAINTENANCE**

Glass surfaces are easy to clean with pure water or a glass cleaner and a microfibre cloth, preferably when the glass has cooled. On the textured surface, deposits and dirt may remain. Wipe these away with a microfibre cloth as quickly as possible, ensuring you cover the entire surface and edges. For stubborn stains, use our Glass, Ceramic & Lava Stone Cleaner (p. 207). Abrasive cleaners are strongly discouraged. Glass is not impervious and may develop micro-scratches over time due to ageing.

The Glass, Ceramic & Lava Stone Protector (p. 207) protects the glass surface against water rings and the adherence of stubborn dirt, slows the natural ageing of the material, and facilitates effortless cleaning.

Do not place pottery or cement-based vases or pots on the glass, as they may damage the surface upon contact with water. Always use a coaster for ceramic or porcelain plates, pots, and cutlery. Avoid placing hot pots and candles directly on the glass or use an insulating coaster.

**INFORMATION**

La durabilité et la solidité du verre trempé en font un excellent choix pour toute application extérieure. Grâce à la coloration dans la masse, le verre reste vif et d'une couleur constante lors d'une utilisation prolongée à l'extérieur. Chaque panneau est doté de bords polis, une finition esthétiquement attrayante qui est également conviviale pour les enfants. La texture unique de la surface diffuse et réfracte la lumière de manière ludique, produisant un effet visuel élégant.

**ENTRETIEN**

Les panneaux en verre sont faciles à nettoyer avec de l'eau pure ou un nettoyant pour vitres et un chiffon en microfibre, de préférence lorsque le verre a refroidi. Sur la surface texturée, des dépôts et de la saleté peuvent rester – essuyez-les dès que possible avec un chiffon en microfibre jusqu'au bord complet. Pour les taches tenaces, utilisez notre Nettoyant pour Verre, Céramique et Pierre de Lave (p. 207). Les abrasifs sont fortement déconseillés. Le verre n'est pas invulnérable et peut montrer des micro-dommages avec le temps.

Le Protecteur pour Verre, Céramique et Pierre de Lave (p. 207) protège la surface en verre contre les anneaux d'eau et l'adhérence des saletés tenaces, ralentit le vieillissement naturel du matériau et facilite le nettoyage.

Ne placez pas de vases ou de pots en terre cuite ou en ciment sur le verre, car ils peuvent endommager la surface au contact de l'eau. Utilisez toujours un dessous-de-plat pour les assiettes, pots et couverts en céramique ou en porcelaine. Évitez les pots chauds et les bougies ou utilisez un dessous isolant.

**INFORMATIE**

De duurzaamheid en sterkte van gehard glas maken het een uitstekende keuze voor elke buitentoepassing. Door de kleuring in de massa blijft het glas levendig en consistent van kleur bij langdurig gebruik buiten. Elk blad is voorzien van gepolijste randen, een esthetisch aantrekkelijke afwerking die ook kindvriendelijk is. De unieke textuur van het oppervlak breekt en verspreidt het licht op een speelse manier, met een elegant visueel effect als resultaat.

**ONDERHOUD**

Glazen bladen zijn eenvoudig te reinigen met zuiver water of een ruitenreiniger en een microvezeldoek, bij voorkeur wanneer het glas is afgekoeld. Op het gestructureerde oppervlak kunnen neerslag en vervuiling achterblijven – neem deze zo snel mogelijk af met een microvezeldoek tot over de volledige rand. Gebruik voor hardnekkige vlekken onze Glass, Ceramic & Lava Stone Cleaner (p. 207). Schuurmiddelen zijn sterk afgeraden. Glas is niet onaantastbaar en kan door veroudering microbeschadigingen vertonen.

De Glass, Ceramic & Lava Stone Protector (p. 207) beschermt het glazen blad tegen wateringen en de aanhechting van hardnekkig vuil, vertraagt de natuurlijke veroudering van het materiaal en vergemakkelijkt eenvoudig reinigen.

Plaats geen aardewerk of cementgebonden vazen of potten op het glas, omdat deze schade aan het oppervlak kunnen veroorzaken bij contact met water. Gebruik altijd een onderlegger bij keramische of porseleinen borden, potten en bestek. Vermijd hete potten en kaarsen of gebruik een isolerende onderzetter.

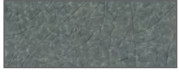

# GLAZED LAVA STONE

PIERRE DE LAVE ÉMAILLÉE - GEGLAZUURDE LAVASTEEN

---

HEXAGON, NOX, SENJA, TAIRU & T-TABLE

---

## INFORMATION

Glazed lava is a unique and handcrafted material that expresses the natural aspect of lava stone. It offers the inherent strength of the volcanic stone combined with all the surface qualities associated with enamels. The density of the lava rock stone allows it to be used in one large piece. Once molten lava, the stone can withstand the very high temperatures used in the glazing process. Glazing makes sure the finished product is UV stable, impervious to water and resistant to heat, frost, chemicals and stains. It is very easy to maintain. Tribù chose for a subtle craquelé effect. As it is a natural product, you will find "aesthetic imperfections" that are just peculiar characteristic of both natural stone and handcrafted finishing. No table top in glazed lava stone will therefore be the same, making it so unique and attractive.

## MAINTENANCE

Glazed lava stone is easy to maintain with clean water and a pH neutral liquid detergent. Possible stains can be removed with Ceramic, Lava Stone & Glass Cleaner (p. 207). To protect the surface we recommend Ceramic, Lava Stone & Glass Protector (p. 207) which fills the micro pores so dirt particles won't attach to the surface and will be rain-washed.

---

## INFORMATION

La pierre de lave émaillée est un matériau unique et artisanal qui souligne de superbe manière l'aspect naturel de la pierre de lave. Elle allie la robustesse de la pierre de lave et les avantages de l'émail.

Grâce à la haute densité de la pierre de lave, elle peut être utilisée en grands morceaux. Originellement de la lave en fusion, la pierre est donc parfaitement adaptée pour supporter les températures élevées du processus d'émaillage. La couche d'émail permet au matériau de résister à l'eau, au gel, à la chaleur, aux taches et aux rayons UV. Par ailleurs, elle offre une résistance élevée aux produits chimiques et ne nécessite presque aucun entretien.

Tribù a opté pour un subtil effet craquelé. Comme il s'agit d'un matériau naturel, il peut présenter quelques « imperfections esthétiques ». Dès lors, il n'existe pas deux tablettes en pierre de lave émaillée qui soient totalement identiques. Et tout ce qui est unique attire.

## ENTRETIEN

La pierre de lave émaillée se nettoie facilement à l'eau, avec un détergent liquide au pH neutre. Pour éliminer les taches éventuelles, il convient d'employer du Ceramic, Lava Stone & Glass Cleaner (p. 207). En guise de protection, nous recommandons Ceramic, Lava Stone & Glass Protector (p. 207), un produit qui bouche les micropores du matériau, de sorte que la saleté ne peut s'accrocher à la surface et sera éliminée par la pluie.

---

## INFORMATIE

Geglazuurde lavasteen is een uniek en ambachtelijk bewerkt materiaal dat het natuurlijke aspect van lavasteen op een prachtige manier benadrukt. Het combineert de sterkte van lavasteen met de voordelen van glazuren. Dankzij de hoge densiteit van lavasteen kan het in grote stukken gebruikt worden. Omdat het ooit gesmolten lava was, kan de steen perfect de hoge temperaturen nodig tijdens het glazuurproces weerstaan. De glazuurlaag zorgt ervoor dat het materiaal erg water-, vorst-, hitte-, vlek- en UV bestendig is. Het heeft een hoge weerstand tegen chemicaliën en vergt bijna geen onderhoud.

Tribù koos voor een subtiel craquelé effect. Omdat het een natuurlijk product is, zijn 'esthetische imperfecties' eigen aan het materiaal. Geen enkel tafelblad in geglazuurde lavasteen zal dus hetzelfde zijn. Net dat maakt het zo uniek en aantrekkelijk.

## ONDERHOUD

Geglazuurde lavasteen is eenvoudig te reinigen met zuiver water en een pH neutraal, vloeibaar detergent. Eventuele vlekken kunnen verwijderd worden met Ceramic, Lava Stone & Glass Cleaner (p. 207). Als bescherming raden we Ceramic, Lava Stone & Glass Protector (p. 207) aan. Dit product vult de microporiën van het materiaal waardoor vervuiling zich niet kan hechten aan het oppervlak en door een gewone regenbui weg gewassen zal worden.

#### INFORMATION

Granite is an igneous rock that is formed deep below the earth's surface by compression. Because the pressure below the Earth's surface is so high, granite is immensely hard. After diamond, it is the strongest rock species on earth. Granite is little porous and has good scratch resistance. Germs and fungi have no chance. The name granite comes from the Latin 'granus', which means 'grain'. This 'granular' look is typical of granite. No two table tops will be ever alike. Tribù granite table tops have a 'leather touch' finish. This soft, brushed finish accentuates the natural colour of the material and gives a unique, soft touch.

#### MAINTENANCE

Granite can be cleaned with water and pH neutral soap. Granite Cleaner/Protector (p. 209) refreshes the gloss of the granite and makes it water and stain repellent. Do not use aggressive detergents as they attack the lime in the stone.

#### INFORMATION

Le granite est une roche magmatique formée profondément sous la surface de la terre par compression. Comme la pression à cette profondeur est tellement élevée, le granite est exceptionnellement dur. Après le diamant, c'est le type de roche le plus dur sur terre. Le granite est peu poreux et présente une bonne résistance aux rayures. Les bactéries et moisissures n'y ont aucune chance. Granite vient du latin « granus », qui signifie « grain ». Cet aspect « granulaire » est typique pour le granite. Il n'y a jamais deux plateaux de table identiques. Les plateaux de table en granite de Tribù présentent une finition « leather touch ». Cette finition brossée douce accentue la couleur naturelle du matériau et donne une sensation unique et douce au toucher.

#### ENTRETIEN

Le granite peut être nettoyé avec de l'eau pure et un savon à pH neutre. Granite Cleaner/Protector (p. 209) rafraîchit également le brillant du granite, et le rend résistant à l'eau et aux taches. N'employez pas de détergents agressifs étant donné que ceux-ci peuvent attaquer le calcaire dans la pierre.

#### INFORMATIE

Graniet is een stollingsgesteente dat diep onder het aardoppervlak wordt gevormd door compressie. Omdat de druk onder het aardoppervlak zo hoog is, is graniet ontzettend hard. Na diamant is het de sterkste steensoort op aarde. Graniet is weinig poreus en heeft een goede krasbestendigheid. Bacteriën en schimmels maken geen kans. Graniet komt van het Latijnse 'granus', wat 'korrel' betekent. Deze 'granulaire' look is typisch voor graniet. Geen twee tafelbladen zullen ooit gelijk zijn.

#### ONDERHOUD

Graniet kan gereinigd worden met zuiver water en pH neutrale zeep. Granite Cleaner/Protector (p. 209) frist de glans van het graniet op en maakt het water- en vlekafstotend. Gebruik geen agressieve detergents aangezien ze de kalk in de steen kunnen aantasten.

## INFORMATION

Our tables in lightened concrete do not contain gravel, like ordinary concrete, but a mix of quartz granulates and fibres, making the material a lot lighter. Nevertheless, it is very sturdy\* and durable. Frost and heat have no influence and the colouring in the mass ensures that your table will retain its original colour for a long time. Each furniture piece is hand-finished by an Italian craftsman, giving it a unique patina and a smooth surface texture.

However, lightened concrete is a natural product and sensitive to stains. Despite the fact that we treat our tables with a concrete conditioner that reduces stains and moisture absorption, some caution is required, as with natural stone and marble.

\*We recommend a maximum load of 10 kg on the coffee table tops.

## MAINTENANCE

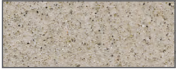

For daily cleaning, dip a soft, clean cloth in a solution of warm, clear water and a pH-neutral fluid detergent. Rinse thoroughly and let dry. Stains should be wiped off immediately, especially acidic substances (juice, coffee, red wine, balsamic vinegar,...) since they may cause permanent stains. Also bird droppings and leaves may cause permanent stains if not removed immediately. We recommend to use a protective cover if you are not using your table.

Oil, grease and wax stains can be removed by using Tribù Oil, Wax and Grease Remover (p. 210). Do not use corrosive or acidic detergents.

To protect your table, we recommend to use Tribù Lightened Concrete Conditioner (p. 210) regularly. However, this product does not protect against acidic substances. It can also be used for removing stains. Depending on the type of stain and its age, the stain can be completely removed or its intensity reduced.

Lightened concrete contains natural fibers that can surface over time due to temperature fluctuations, which could feel slightly unpleasant to the touch. If this happens, we recommend to lightly hand sand the table top with a sanding disc making circular movements until the surface feels smooth again.

### INFORMATION

Nos plateaux de table en béton allégé ne contiennent pas de gravier comme le béton ordinaire, mais un mélange de granulés de quartz et de fibres qui rendent le matériau beaucoup plus léger. Le béton allégé est néanmoins un matériau très solide\* et durable. Il est insensible au gel et à la chaleur et, comme il est coloré dans la masse, votre table conservera longtemps sa couleur d'origine. Chaque pièce est finie à la main par un artisan italien, ce qui lui confère une patine unique et une texture de surface lisse.

Le béton allégé est toutefois un produit naturel et sensible aux taches. Malgré le fait que nous prévoyons un produit de conditionnement pour le béton limitant les taches et l'absorption d'humidité, une certaine prudence est de mise, comme avec la pierre naturelle et le marbre.

\* La charge maximale des plateaux de tables basses est de 10 kg.

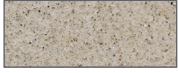

### ENTRETIEN

Pour le nettoyage quotidien, plongez un chiffon propre dans une solution d'eau chaude et un détergent liquide au pH neutre. Rincez abondamment et laissez sécher. Des taches doivent être essuyées immédiatement, en particulier les substances acides (jus, café, vin rouge, vinaigre balsamique,...) car elles peuvent provoquer des taches permanentes. Les fientes d'oiseaux et les feuilles peuvent également provoquer des taches permanentes si elles ne sont pas enlevées immédiatement. Nous vous recommandons d'utiliser une housse de protection si vous n'utilisez pas votre table.

Les taches d'huile, de graisse et de cire peuvent être enlevées à l'aide du Tribù Oil, Wax and Grease Remover (p. 210). N'utilisez pas de détergents corrosifs ou acides.

Pour protéger votre table, nous vous recommandons d'utiliser régulièrement du Tribù Lightened Concrete Conditioner (p. 210). Cependant, ce produit ne protège pas contre les substances acides. Il peut également être utilisé pour éliminer les taches. Selon le type de tache et son âge, la tache peut être complètement éliminée ou son intensité réduite.

Le béton allégé contient des fibres naturelles qui pourraient remonter à la surface sous l'effet des changements de température, ce qui peut provoquer une sensation désagréable. Dans ce cas, vous pouvez utiliser un disque de ponçage pour poncer le plateau de table légèrement à la main, en effectuant des mouvements circulaires, jusqu'à ce qu'il soit à nouveau lisse.

### INFORMATIE

Onze tafels uit verlicht beton bevatten geen grind zoals gewoon beton, maar een mix van kwartsgranulaten en vezels waardoor het materiaal een stuk lichter is. Desalniettemin is het zeer stevig\* en duurzaam. Vorst en hitte hebben geen invloed en de kleuring in de massa zorgt ervoor dat uw tafel langdurig haar originele kleur zal behouden. Elk stuk wordt met de hand afgewerkt door een Italiaanse vakman, waardoor het een unieke patina en een gladde oppervlaktetextuur krijgt.

Verlicht beton is echter een natuurlijk product en gevoelig voor vlekken. Ondanks het feit dat wij onze tafels voorzien van een betonconditioner die vlekken en vochtopname beperkt, is enige voorzichtigheid geboden, zoals bij natuursteen en marmer.

\*Maximale belasting van de tafelbladen van lage salontafels is 10kg.

### ONDERHOUD

Dompel voor de dagelijkse reiniging een zachte, propere doek onder in een oplossing van warm, zuiver water en een pH-neutraal vloeibaar reinigingsmiddel. Spoel grondig af en laat drogen. Vlekken dienen onmiddellijk worden afgeveegd, vooral zure stoffen (sap, koffie, rode wijn, balsamico azijn,...) daar ze permanente vlekken kunnen veroorzaken. Ook vogeluitwerpselen en bladeren kunnen permanente vlekken veroorzaken als ze niet onmiddellijk worden verwijderd. We raden u aan een beschermhoes te gebruiken als u uw tafel niet gebruikt.

Olie-, vet- en kaarsvetvlekken kunnen worden verwijderd met Tribù Oil, Wax & Grease Remover (p. 210).

Gebruik geen bijtende of zure reinigingsmiddelen.

Om uw tafel te beschermen, raden wij u aan om regelmatig Tribù Lightened Concrete Conditioner (p. 210) te gebruiken. Dit product beschermt echter niet tegen zure stoffen. Het kan ook gebruikt worden voor het verwijderen van vlekken. Afhankelijk van het soort vlek en de leeftijd kan de vlek volledig worden verwijderd of de intensiteit ervan worden verminderd.

Verlicht beton bevat natuurlijke vezels die onder invloed van temperatuurschommelingen aan de oppervlakte kunnen komen, wat een onaangenaam gevoel kan veroorzaken. In dat geval raden wij aan het blad met de hand licht cirkelvormig op te schuren met een schuurschijfje tot het oppervlak weer glad aanvoelt.

# MONSIEUR TRICOT

## OUTDOOR LAMPS

---

### INFORMATION

The Monsieur Tricot outdoor lamps are made of a sphere in PMMA thermoplastic with a removable hand crocheted or knitted polypropylene cover.

#### Standing lamps

- Lamp
  - Dimmable LED, 9-12.6 Volt, Kelvin 2.129
  - 12 hours operational when burning at 100%
- Charging
  - Rechargeable battery
  - Power adaptor with USB-slot, cable included
  - 5 hours of charging time
- Control
  - On/off switch
- Extra
  - Ceiling hook included to turn your standing lamp into a hanging version

#### Hanging lamps

- Lamp
  - E27/E26 fitting with dimmable LED filament bulb included, Kelvin 2200
  - Connect to local power grid, 220-240 volt.
  - 5 meter cable, mounting bracket, ceiling canopy and wire connector clamps included
  - Please contact a local professional to install a hanging Monsieur Tricot lamp
- Control
  - Use an already available switch or have a local professional install a new switch. Switches cannot be purchased from Tribù

#### Certificates

- CE (EU + UK), RoHS 2.0 (EU), FCC (USA), IC (Canada), SAA (Australia & New Zealand), RCM (Australia & New Zealand, only for standing lamps), MOC (Israel)
- IK08
- IP65

#### MAINTENANCE

The knitted cover can easily be removed to be cleaned in a washing machine at 40° (synthetic washing program). Let dry in open air, certainly not in the dryer. Extend the Lebonnet braiding well before drying. Stubborn stains can be removed with Synthetics Super Cleaner (p. 208). Use a microfiber cleaning cloth to clean the lamp. Do not use a scourer, this causes scratches and damages the surface.

### INFORMATION

Les lampes d'extérieur de Monsieur Tricot sont composées d'une sphère en thermoplastique PMMA avec une housse removable en polypropylène croché à la main ou tricotée.

#### Lampes sur pied

- Lampe
  - Lampe LED dimmable, 9-12.6 Volt, Kelvin 2.129
  - Autonomie 12 heures lorsque le dimmer est à 100 %
- Chargement
  - Batterie rechargeable
  - Chargeur avec port USB, câble inclus
  - 5 heures de chargement
- Contrôle
  - Bouton on/off
- Extra
  - Crochet de plafond inclus pour transformer votre lampe sur pied en une version suspendue

#### Lampes à suspendre

- Lampe
  - Douille E27/E26 avec ampoule à incandescence LED incluse, Kelvin 2200.
  - Connexion sur le réseau électrique, 220-230 V
  - Câble de 5 mètres, support de montage, auvent de plafond et pinces de connexion de fil inclus
  - Prenez contact avec un professionnel local pour installer les lampes.
- Mise en fonction
  - Utilisez une prise de la maison (ou demandez à un professionnel local d'installer une nouvelle). Les prises ne sont pas fournies par Tribù.

#### Certificats

- CE (UE + UK), RoHS 2.0 (UE), FCC (USA), IC (Canada), SAA (Australie & Nouvelle-Zélande), RCM (Australie & Nouvelle-Zélande, uniquement pour les lampes sur pied), MOC (Israël)
- IK08
- IP65

#### ENTRETIEN

La housse crochée peut être retirée facilement pour être nettoyée en machine à 40°C (programme synthétique). Laissez-la sécher à l'air, jamais au sèche-linge. Étirez bien le tricot Lebonnet avant de le mettre à sécher. Les taches récalcitrantes peuvent être éliminées avec Synthetics Super Cleaner (p. 208). Utilisez un chiffon en microfibre pour nettoyer la lampe. N'utilisez pas d'éponge à récurer, qui laisse des rayures et endommage la surface.

#### INFORMATIE

De buitenbestendige lampen van Monsieur Tricot (voor bestaan uit een bol in PMMA kunststof met een verwijderbare handgehaakte of gebreide hoes uit polypropyleen.

#### Staanlampen

- Lamp
  - dimbare LED lamp, 9-12.6 Volt, Kelvin 2.129
  - brandt gedurende 12 uur indien de dimmer op 100% staat
- Opladen
  - Herlaadbare batterij
  - Voedingsadapter met USB-aansluiting, kabel inbegrepen
  - 5 uur oplaadtijd
- Besturing
  - Aan/uit schakelaar
- Extra
  - Inclusief plafondhaak om uw staande lamp om te vormen in een hanglamp

#### Hanglampen

- Lamp
  - E27/E26 fitting met dimbare LED-gloeilamp inbegrepen, Kelvin 2200
  - Aansluiten op het elektriciteitsnet, 220-240 volt.
  - 5 meter kabel, montagebeugel, plafondkap en draadaansluitklemmen inbegrepen
  - Neem contact op met een plaatselijke professional om een hangende Monsieur Tricot-lamp te installeren
- Besturing
  - Gebruik een reeds beschikbare schakelaar of laat een lokale professional een nieuwe schakelaar installeren. Schakelaars kunnen niet worden gekocht bij Tribù.

#### Certificaten

- CE (EU + UK), RoHS 2.0 (EU), FCC (VS), IC (Canada), SAA (Australië & Nieuw-Zeeland), RCM (Australië & Nieuw-Zeeland, enkel voor staanlampen), MOC (Israël).
- IK08
- IP65

#### ONDERHOUD

De gehaakte hoes kan eenvoudig worden verwijderd om te worden gereinigd in de wasmachine op 40° (synthetisch wasprogramma). Laten drogen in de lucht, zeker niet in de droogkast. Trek het Lebonnet-breiwerk goed uit voordat u het te drogen legt. Hardnekkige vlekken kunnen worden verwijderd met Synthetics Super Cleaner (p. 208). Gebruik een microvezeldoekje om de lampvorm te reinigen. Gebruik geen schuurspons, dit veroorzaakt krassen en beschadigt het oppervlak.

### INFORMATION

Tribù outdoor rugs are the only outdoor rugs on the market that are made of 100% solution dyed PVC coated polyester. This gives them not only an excellent UV resistance - they are also very easy to clean because the yarns do not absorb water. They dry quickly and are stain repellent. All rugs are hand woven which results in an artisanal look and makes each rug unique.

### MAINTENANCE

Vacuum the rug regularly to remove loose dirt. Clean with a garden hose or even a high pressure cleaner. Stubborn stains can be removed with Synthetics Super Cleaner (p. 208). To protect the rug against stains, Synthetics Protector (p. 208) can be used which applies an invisible film.

---

### INFORMATION

Les tapis d'extérieur de Tribù sont les seuls tapis sur le marché fabriqués par 100% en polyester enduit de PVC teinté dans la masse. Cela leur confère non seulement une excellente résistance aux UV, mais les rend très faciles à nettoyer parce que les fibres n'absorbent pas d'eau. Ils sèchent rapidement et sont antitaches. Tous les tapis sont tissés à la main, ce qui produit un aspect artisanal et rend chaque tapis unique.

### ENTRETIEN

Aspirez régulièrement le tapis pour éliminer les saletés superficielles. Nettoyez avec un flexible d'arrosage ou même un nettoyeur haute pression. Les taches récalcitrantes peuvent être éliminées avec Synthetics Super Cleaner (p. 208). Pour protéger le tapis contre les taches, vous pouvez appliquer Synthetics Protector (p. 208), qui applique un film invisible antisalissures.

---

### INFORMATIE

De buitentapijten van Tribù zijn de enige buitentapijten op de markt die 100% gemaakt zijn van polyester gecoat met in de massa gekleurde PVC. Dit geeft hen niet alleen een uitstekende UV-bestendigheid - ze zijn ook zeer gemakkelijk te reinigen omdat de vezels geen water absorberen. Ze drogen snel en zijn vlekafstotend. Alle tapijten worden met de hand geweven wat resulteert in een ambachtelijk uitzicht en elk tapijt uniek maakt.

### ONDERHOUD

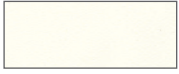

Stofzuig het tapijt regelmatig om los vuil te verwijderen. Reinig met een tuinslang of zelfs een hogedrukreiniger. Hardnekkige vlekken kunnen verwijderd worden met Synthetics Super Cleaner (p. 208). Om het tapijt te beschermen tegen vlekken, kan Synthetics Protector (p. 208) gebruikt worden dat een onzichtbare, vuilafstotende film aanbrengt.

# POWDERCOATED STAINLESS STEEL

INOX LAQUÉ - GEPOEDERLAKT INOX

CTR, NODI, NOX, TOSCA & T-TABLE

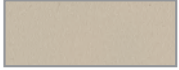

## INFORMATION

Stainless steel is an iron alloy in which the resistance to corrosion is increased by the addition of chrome, molybdenum and nickel. When exposed to air, a chromium oxide skin is formed spontaneously that protects the metal against rust. By powdercoating stainless steel, you can increase its corrosion resistance to the same level as that of aluminium. For its powdercoated stainless steel furniture Tribù uses 304L stainless steel that is ceramic blasted before it is powdercoated. Tribù always uses European, ultra-durable and scratch-resistant polyester powdercoating that guarantee a UV-resistance of 15 years.

## MAINTENANCE

Powdercoated stainless steel is easy to clean with clear water and a pH-neutral fluid detergent. Stubborn stains can be removed with Coated aluminium & stainless steel Cleaner (p. 206). If necessary, use a soft brush to remove the dirt from the pores. To protect the frame against the adhesion of dirt and to reduce fingerprints, Coated aluminium & stainless steel Protector (p. 206) can be used which applies an invisible protective film.

## INFORMATION

L'acier inoxydable ou « inox » est un alliage de fer dont la résistance à la corrosion a été améliorée par l'adjonction de chrome, de molybdène et de nickel. En cas d'exposition à l'air, il se forme spontanément une pellicule d'oxyde de chrome qui protège contre la rouille. Le laquage par poudre de l'inox accroît sa résistance à la corrosion jusqu'au niveau de celle de l'aluminium. Pour l'acier inox revêtu de laque en poudre, Tribù utilise l'inox 304L, qui subit un grenailage céramique avant l'application du laquage en poudre. Tribù utilise toujours des laques polyester en poudre européennes ultra durables, avec une résistance aux UV de 15 ans.

## ENTRETIEN

L'acier inoxydable revêtu de laque en poudre est facile à entretenir avec de l'eau pure et un détergent liquide à pH neutre. Vous pouvez éliminer les taches récalcitrantes avec de l'Coated aluminium & stainless steel Cleaner (p. 206). Si nécessaire, employez une brosse douce pour éliminer les saletés dans les pores. Pour protéger le cadre contre l'incrustation de saletés, on peut employer Coated aluminium & stainless steel Protector (p. 206), qui applique une couche de protection invisible.

## INFORMATIE

Roestvast staal of inox is een ijzerlegering waarvan de corrosiebestendigheid verhoogd wordt door de toevoeging van chroom, molybdenum en nikkel. Bij blootstelling aan lucht wordt spontaan een chroomoxidehuid gevormd, die tegen roest beschermt. Door inox te poederlakken wordt de corrosiebestendigheid tot het niveau van dat van aluminium verhoogd. Voor gepoederlakt roestvast staal gebruikt Tribù 304L inox, dat keramisch gepareelstraald wordt vóór het poederlakken. Tribù gebruikt steeds ultra-durable Europese krasbestendige polyesterpoederlakken met een UV-bestendigheid van 15 jaar.

## ONDERHOUD

Gepoederlakt roestvast staal is makkelijk te onderhouden met zuiver water en een pH-neutraal, vloeibaar detergent. Hardnekkige vlekken kan u verwijderen met Coated aluminium & stainless steel Cleaner (p. 206). Gebruik indien nodig een zachte borstel om vuil uit de poriën te verwijderen. Om het frame te beschermen tegen vasthechten van vuil, kan Coated aluminium & stainless steel Protector (p. 206) gebruikt worden dat een onzichtbare beschermlaag aanbrengt.

GOBI

## INFORMATION

Illia Eckhard's goal was to uncover the true essence of the basket. He created Gobi after conducting an in-depth study of skill and artisanship, which we believe are the most authentic expressions of people's humanity and creativity. The beauty of the Gobi basket makes it a stellar example of Belgian dexterity and artisanship. Each one is made by skilled artisans using traditional weaving techniques.

The ropes are made from recycled plastic bottles, with an outer layer of recycled acrylic. The result is a unique product every time, with slight differences in colour and shape.

To maintain the original look and feel of your Gobi baskets, we recommend not leaving them out in the rain, as they take a long time to dry out. If your baskets do get wet, it's best to leave them to dry out fully in the open air, allowing all the moisture to evaporate. We have decided not to produce protective covers, as we believe it's better to bring the baskets indoors when it rains.

## MAINTENANCE

Our synthetic furniture pieces are easy to maintain with clear water and a pH neutral soap. Stubborn stains can be removed with Synthetics Super Cleaner (p. 208). If necessary, use a soft brush to remove dirt from the pores. For extra protection we recommend Synthetics Protector (p. 208) which apply an invisible film and reduces the adhesion of dirt.

## INFORMATION

Illia Eckhard s'est efforcé de retrouver l'essence du panier. Au terme d'une recherche esthétique autour du travail manuel et de l'artisanat, il a créé Gobi. Nous croyons qu'il représente l'expression la plus authentique de l'humanité et de la créativité. Le savoir-faire manuel et l'artisanat belges sont incarnés dans la beauté de ce produit. Chaque panier GOBI a été confectionné par un maître-artisan mettant en œuvre des techniques de vannerie traditionnelles.

La couche externe des cordes est en acrylique recyclé tandis que leur âme est fabriquée à partir de bouteilles en plastique recyclées. Chaque article est unique car il varie légèrement en termes de couleur et de forme.

Pour que les paniers Gobi conservent leur look-and-feel, nous vous recommandons de ne pas les laisser dehors sous la pluie. S'ils sont mouillés, il leur faut longtemps pour sécher. Il est recommandé de les laisser sécher complètement à l'air libre. Nous avons décidé de ne pas proposer de protections car nous pensons qu'il vaut mieux les rentrer en cas de pluie.

## ENTRETIEN

Le synthétique s'entretient aisément avec de l'eau pure et un détergent liquide à pH neutre. Les taches récalcitrantes peuvent être éliminées avec le Synthetic Super Cleaner (p. 208). Si nécessaire, employez une brosse douce pour éliminer les saletés dans les pores. Pour une protection supplémentaire, nous recommandons du Synthetics Protector (p. 208) qui appliquent un film invisible réduisant l'incrustation de saletés.

## INFORMATIE

Illia Eckhard ging op zoek naar de ware essentie van de mand. Hij creëerde Gobi na een diepgaande studie van handwerk en vakmanschap, volgens ons de meest authentieke uiting van menselijkheid en creativiteit. De schoonheid van de Gobi-mand is een prachtig voorbeeld van Belgische technische vaardigheid en vakmanschap. Elk exemplaar is gemaakt door bekwame ambachtslieden met traditionele weeftechnieken.

De touwen zijn gemaakt van gerecycleerde petflessen, met een buitenlaag van gerecycleerd acryl. Het resultaat is telkens een uniek product, met kleine verschillen in kleur en vorm.

Om de originele look en feel van uw Gobi-manden te behouden, raden we u aan ze niet in de regen te laten staan, want het duurt lang voor ze drogen. Als uw manden nat worden, kunt u ze het best in de open lucht volledig laten drogen, zodat al het vocht kan verdampen. We hebben ervoor gekozen geen covers te maken omdat we het beter vinden dat u de manden binnen zet als het regent.

## ONDERHOUD

Kunststof is eenvoudig te reinigen met zuiver water en een pH neutraal detergent. Hardnekkige vlekken kunnen verwijderd worden met Synthetics Super Cleaner (p. 208). Gebruik indien nodig een zachte borstel om vuil uit de poriën te verwijderen. Voor extra bescherming raden we Synthetics Protector (p. 208) aan die een onzichtbare film aanbrengen die de aanhechting van vuil vermindert.

**INFORMATION**

Tribù only uses high grade virgin polypropylene compound for the production of the Vintage and Branch collection. The mass dyed PP is made anti-static, anti-fungal, frost resistant and stain repellent by the addition of additives. Also, contact with salt or chlorine water causes no problems. A very high percentage of UV stabilizing additives guarantees extremely high colour fastness, even after a long exposure to sunlight. Sharp objects should be avoided as they may cause scratches.

**MAINTENANCE**

Our synthetic furniture pieces are easy to maintain with clear water and a pH neutral soap. Stubborn stains can be removed with Synthetics Super Cleaner (p. 208). If necessary, use a soft brush to remove dirt from the pores. For extra protection we recommend Synthetics Protector (p. 208) or Coated aluminium & stainless steel Protector (p. 206) which apply an invisible film and reduces the adhesion of dirt.

**INFORMATION**

Pour les collections contenant des matières synthétiques, Tribù emploie exclusivement des composants de haute qualité avec polypropylène pur. Le PP teinté dans la masse est rendu antistatique, antimoisissures, résistant au gel et aux taches par l'adjonction d'additifs. Le contact avec l'eau saline ou chlorée ne provoque pas de problèmes non plus. Un pourcentage très élevé d'additifs de stabilisation UV garantit une tenue très élevée des couleurs, même après une longue exposition au soleil. Il faut éviter les objets tranchants, qui risquent provoquer des rayures.

**ENTRETIEN**

Le synthétique s'entretient aisément avec de l'eau pure et un détergent liquide à pH neutre. Les taches récalcitrantes peuvent être éliminées avec le Synthetic Super Cleaner (p. 208). Si nécessaire, employez une brosse douce pour éliminer les saletés dans les pores. Pour une protection supplémentaire, nous recommandons du Synthetics Protector (p. 208) ou Coated aluminium & stainless steel Protector (p. 206), qui appliquent un film invisible réduisant l'incrustation de saletés.

**INFORMATIE**

Tribù gebruikt enkel hoogwaardige, zuivere polypropyleen samenstellingen voor de collecties die kunststof bevatten. De in de massa gekleurde PP is anti-statisch, anti-schimmel, vorst- en vlekbestendig gemaakt door de toevoeging van additieven. Ook contact met zout of chloor water veroorzaakt geen problemen. Een zeer hoog percentage UV-stabiliserende additieven garandeert een extreem hoge kleurvastheid, zelfs na een lange blootstelling aan zonlicht. Scherpe voorwerpen dienen vermeden te worden aangezien ze krassen kunnen veroorzaken.

**ONDERHOUD**

Kunststof is eenvoudig te reinigen met zuiver water en een pH neutraal detergent. Hardnekkige vlekken kunnen verwijderd worden met Synthetics Super Cleaner (p. 208). Gebruik indien nodig een zachte borstel om vuil uit de poriën te verwijderen. Voor extra bescherming raden we Synthetics Protector (p. 208) of Coated aluminium & stainless steel Protector (p. 206) aan die een onzichtbare film aanbrengen die de aanhechting van vuil vermindert.

---

### INFORMATION

Because Tribù makes no concessions when it comes to quality, we only use carefully selected, fully grown teak, which is harvested in accordance with the strictest environmental standards from the three highest quality Indonesian plantations in the East of Java. The local productions are checked all year round by subsidiary Tribù Asia, based in Semarang and led by a European management. Tribù designs its furniture in the way that the wood is used as efficiently as possible.

Teak is classed as the most premium wood on the planet and therefore the most suitable species for outdoor furniture. Beyond its beauty, teak possesses some natural properties that other woods don't have. It is extremely durable, stable, water and weather resistant. This is due to the high levels of natural oils which result in minimal moisture absorption, giving it great stability. Moreover, the wood is extremely resistant to fungi, as well as against parasite attacks and insects.

A tree is mature after 75 to 80 years. The trees are ringed, which means that the lower band of the bark is removed. The tree then loses most of its sap. About two years later it is felled and sawed up. Tribù selects each log based on its structure. Drying the wood is a very important phase and determines how it reacts later on. The time and speed of drying depends on the thickness of the material. Ideally the level of moisture lies between 8 and 12%.

### MAINTENANCE

Teak left in its natural state, is virtually maintenance-free. It can be left outside all year round, surviving even the most extreme weather conditions. New teak will experience natural oil surfacing that appears like a "watermark" or irregular pattern of discoloration. These areas are part of the natural maturing process and can be removed with gentle washing with Teak Super Cleaner (p. 204).

Over time, untreated teak furniture which is exposed to sun and rain will turn silver grey. This process is cosmetic and does not harm the strength or quality of the wood.

To avoid the annual cleaning of the wood, you can apply Teak Sealer (p. 204). Teak Sealer contains UV protection to slow down the graying from the sun as well as a fungicide to prevent the growth of mold and mildew. Teak Sealer can be applied to new teak or old teak furniture after it has been cleaned. We recommend using Teak Super Cleaner (p. 204) to clean soiled furniture. If Teak Sealer is applied every season, a simple cleaning with water and a pH neutral soap will do for years. Teak Sealer is a sealer and is not the same as varnish. It is breathable, letting the natural oils escape without bubbling or peeling like varnish.

Teak Protector (p. 205) protects the wood against stains and green deposit, without colouring the wood. We recommend to apply it after each cleaning.

### USE OF VARNISH AND OIL ON TEAK

Teak is protected by its own natural oils that migrate to the surface of the wood and make the wood virtually impervious to water. As such, the use of varnish and oil (especially linseed oil) on teak furniture is not recommended. Products such as varnish and polyurethane may peel and chip and require vigorous sanding to remove. Oiling teak does not prevent the wood from graying, and often results in mold and mildew growing on the furniture. Removing mold and mildew on the surface requires washing the furniture with bleach and soap followed by sanding. Tribù and authorities from the timber profession itself tend to advise against the use of teak oil.

### OIL STAINS ON CUSHIONS

Because teak does not absorb water and is rich in natural oils and silicates, the weathering process includes oil surfacing. This teak oil can cause stains on cushions. Fabric stained by natural teak oil can be cleaned with soap and water or a special eucalyptus-based cleaner. Please be aware oil surfacing is a naturally repeating process that cannot be prevented.

### INFORMATION

Comme Tribù ne fait aucune concession à la qualité, nous utilisons exclusivement des arbres adultes soigneusement sélectionnés, qui sont récoltés dans le respect des normes environnementales les plus strictes dans les trois plantations les plus qualitatives de l'est de Java. Les productions locales sont contrôlées pendant toute l'année par notre filiale Tribù Asia, établie à Semarang et dirigée par un management européen. Tribù conçoit ses meubles de façon à ce que le bois soit utilisé de la manière la plus efficace possible et qu'il y ait un minimum de déchets.

Le teck est considéré comme l'espèce de bois possédant la plus haute qualité au monde et constitue donc l'essence la plus appropriée pour le mobilier de jardin. Outre sa beauté, le teck possède une série de propriétés naturelles que ne possèdent pas les autres essences. Il est extrêmement durable, stable, et résiste à l'eau et aux intempéries. Cela s'explique par sa concentration élevée en huiles naturelles, qui résulte en une absorption minimale d'humidité et qui confère au bois une stabilité importante. En outre, le teck est extrêmement résistant aux champignons et insensible aux parasites et insectes.

Un arbre est adulte après 75 à 80 ans. Les arbres sont annelés, c.-à-d. que la partie inférieure de l'écorce est enlevée. L'arbre perd alors la plus grande partie de sa sève. Environ deux ans plus tard, l'arbre est abattu et débité. Tribù sélectionne chaque lot selon la structure de chaque dosse. Le séchage du bois constitue une phase très importante et détermine le comportement ultérieur du bois. La vitesse de séchage dépend de l'épaisseur du matériau. Le niveau idéal de l'hygrométrie se situe entre 8 et 12 %.

### ENTRETIEN

Le teck est une essence unique qui n'exige pratiquement pas d'entretien dans son état naturel. Les meubles en teck peuvent rester au grand air pendant toute l'année, même dans les intempéries les plus extrêmes. Chez le teck neuf, un « filigrane » ou motif de décoloration irrégulière peut apparaître en raison de la migration de l'huile naturelle vers la surface. Cela fait partie du processus de vieillissement naturel, et peut être éliminé par un nettoyage doux au Teak Super Cleaner (p. 204).

Après un certain temps, le teck non traité prendra une teinte gris argent en raison de son exposition au soleil et à la pluie. Il s'agit d'un processus esthétique qui n'a aucune influence sur la résistance ou la qualité du bois. Afin d'éviter le nettoyage annuel du teck, vous pouvez appliquer du Teak Sealer (p. 204). Ce produit contient une protection UV pour ralentir le grisonnement par le soleil, ainsi qu'un fongicide pour empêcher la prolifération de moisissures et de mildiou. Teak Sealer peut être utilisé pour un mobilier en teck neuf ou ancien après que celui-ci ait été nettoyé. Nous recommandons d'utiliser Teak Super Cleaner (p. 204) en cas de mobilier encrassé. Si vous appliquez le Teak Sealer chaque saison, un simple nettoyage avec de l'eau et un savon au pH neutre suffira pendant des années. Le Teak Sealer est un scellant, ce qui n'est pas la même chose qu'un vernis. Il est respirant, ce qui permet aux huiles naturelles de s'évaporer sans formation de cloques ou d'écaillage.

Le Teak Protector (p. 205) protège le bois contre les taches et les dépôts verts, sans teindre le bois; il est conseillé de l'appliquer après chaque nettoyage.

### UTILISATION DE VERNIS ET D'HUILE SUR LE TECK

Le teck est protégé par ses propres huiles naturelles qui migrent vers la surface du bois et qui le rendent étanche. L'utilisation de vernis et d'huile (surtout l'huile de lin) sur le teck est déconseillée. Les produits comme le vernis ou le polyuréthane peuvent s'écailler et peuvent être éliminés uniquement par un ponçage énergique. Huiler le teck n'empêche pas le bois de griser et provoque souvent des moisissures et l'apparition de mildiou. Ils peuvent être éliminés avec un blanchiment et du savon, suivis par un ponçage. Tribù et l'industrie du bois conseillent de ne pas utiliser d'huile sur le teck.

### TACHES DE TECK SUR LES COUSSINS

Comme le teck n'absorbe pas d'eau et est riche en huiles naturelles et en silicates, l'huile finit toujours par remonter spontanément. Cette huile peut provoquer des taches sur les coussins, qui peuvent être éliminées avec de l'eau et du savon ou un nettoyant spécial à base d'eucalyptus. Il faut tenir compte du fait que la remontée d'huile est un phénomène naturel et répétitif qu'il n'est pas possible de prévenir.

AMANU, DUNES, ELIO, HEXAGON, ILLUM, KOS, MOOD, NOMAD, PAVILION, PURE SOFA, ROOTS, SENJA, OTTO, TAIRU, T-TABLE, UKIYO & VIS À VIS

### INFORMATIE

Omdat Tribù geen toegevingen doet als het gaat over kwaliteit, worden enkel zorgvuldig geselecteerde, volgroeide teakbomen gebruikt, die met respect voor de strengste milieunormen geoogst worden uit de drie meest kwalitatieve plantages uit Oost-Java. De plaatselijke producties worden het hele jaar door gecontroleerd door dochterfirma Tribù Asia, gevestigd in Semarang en geleid door een Europees management. Tribù ontwerpt zijn meubels op die manier dat het hout zo efficiënt mogelijk gebruikt wordt en er zo weinig mogelijk afval is.

Teak wordt geclassificeerd als de meest superieure houtsoort ter wereld en is daarom de meest geschikte soort voor buitenmeubilair. Naast zijn schoonheid, beschikt teak over een aantal natuurlijke eigenschappen die andere houtsoorten niet hebben. Het is uiterst duurzaam, stabiel en water- en weerbestendig. Dit komt door het hoge niveau van natuurlijke oliën wat resulteert in een minimale vochtabsorptie, waardoor het hout een grote stabiliteit krijgt. Bovendien is teakhout extreem schimmelbestendig, alsook bestand tegen parasieten en insecten.

Een boom is volgroeid na 75 tot 80 jaar. De bomen worden geringd, dit wil zeggen dat de onderste laag van de bast verwijderd wordt. De boom verliest dan het meeste van zijn sap. Ongeveer twee jaar later wordt de boom gekapt en verzaagd. Tribù selecteert elk lot stuk per stuk op zijn structuur. Het drogen van het hout is een zeer belangrijke fase en bepaalt hoe het later zal reageren. De snelheid van het drogen hangt af van de dikte van het materiaal. Het ideale niveau van het vochtgehalte ligt tussen 8 en 12%.

### ONDERHOUD

Teak is een unieke houtsoort die in zijn natuurlijke toestand vrijwel geen onderhoud vraagt. Teakmeubelen kunnen heel het jaar door buiten blijven, zelfs in de meest extreme weeromstandigheden. Bij nieuwe teak kan een 'watermerk' of een onregelmatig patroon van verkleuring verschijnen door de natuurlijke olie die naar boven komt. Dit maakt deel uit van het natuurlijke rijpingsproces en kan verwijderd worden met een zachte reiniging met Teak Super Cleaner (p. 204).

Na verloop van tijd zal onbehandeld teak door blootstelling aan zon en regen zilvergrijs kleuren. Dit is een esthetisch proces en heeft geen invloed op de sterkte of kwaliteit van het hout. Om de jaarlijkse reiniging met Teak Cleaner te vermijden, kan u het teak met Teak Sealer (p. 204) behandelen. Teak Sealer bevat UV bescherming om vergrijzing door de zon te vertragen, alsook een fungicide om de groei van schimmel en meeldauw te voorkomen. Teak Sealer kan gebruikt worden voor nieuw of oud teak meubilair nadat het gereinigd is. Wij raden aan om Teak Super Cleaner (p. 204) te gebruiken bij vervuild meubilair. Als u Teak Sealer 1x per seizoen aanbrengt, volstaat gedurende jaren een eenvoudige reiniging met water en een neutrale zeep. Teak Sealer is een sealer en is niet hetzelfde als vernis. Het is ademend, waardoor de natuurlijke oliën kunnen ontsnappen zonder bubbelvorming of afbladderend.

Teak Protector (p. 205) beschermt het hout tegen vlekken en groenaanslag, zonder het hout te kleuren en brengt u best na elke reiniging aan.

### GEBRUIK VAN VERNIS EN OLIE OP TEAK

Teak wordt beschermd door zijn eigen natuurlijke oliën die migreren naar het oppervlak van het hout en die het hout waterdicht maken. Het gebruik van vernis en olie (vooral lijnzaadolie) op teak worden afgeraden. Producten zoals vernis en polyurethaan kunnen afbladderen en kunnen enkel verwijderd worden door krachtig schuren. Teak oliën voorkomen niet dat het hout gaat vergrijzen en veroorzaakt vaak schimmel en groei van meeldauw. Deze kunnen verwijderd worden met bleekmiddel en zeep, gevolgd door schuren. Tribù en de houtindustrie adviseren om geen olie te gebruiken op teak.

### TEAKVLEKKEN OP KUSSENS

Omdat teak geen water absorbeert en rijk is aan natuurlijke oliën en silicaten, komt die natuurlijke olie met de tijd spontaan naar boven. Deze olie kan vlekken op kussens veroorzaken die verwijderd kunnen worden met zeep en water of een speciaal reinigingsmiddel op basis van eucalyptus. Gelieve in acht te nemen dat het aan de oppervlakte komen van olie een natuurlijk, herhalend proces is, dat niet kan voorkomen worden.

# TEXTILENE STRAPS

BANDES TEXTILENE - TEXTILEEN BANDEN

---

NATAL ALU SOFA

---

## INFORMATION

The textilene straps of the Natal Alu Sofa consist of a coated polyester weave. The combination of PVC and polyester guarantees a lasting high tension and provides an excellent resistance to all weather conditions. The straps dry quickly and are stain repellent. A fungi-repellent treatment prevents the formation of mold.

## MAINTENANCE

The textilene straps are easy to clean with clear water and a pH-neutral soap. Stubborn stains can be removed with Synthetics Super Cleaner (p. 208). If necessary, use a soft brush to remove dirt between the straps. Do not use acid, alkaline or chlorinated products that can harm the hardware of your furniture.

For extra protection we recommend Synthetics Protector (p. 208) which applies an invisible film and reduces the adhesion of dirt.

---

## INFORMATION

Les bandes en textilène du Natal Alu Sofa sont constituées d'un tissage en polyester couché, tout comme les Batyline. La composition du matériau garantit une tension prolongée et élevée de l'assise, ainsi qu'une excellente résistance aux intempéries. Les bandes ne se décolorent pas, sont insensibles aux taches et sèchent rapidement. Un traitement antimoisissures prévient la prolifération de moisissures par l'humidité.

## ENTRETIEN

Les bandes textilène peuvent être nettoyées simplement avec de l'eau pure et un détergent liquide à pH neutre. Pour les taches récalcitrantes, vous pouvez utiliser Synthetics Super Cleaner (p. 208). Utilisez une brosse douce pour éliminer les saletés entre le tissage. N'employez pas de sel ou de produits contenant du chlore, car ceux-ci pourraient attaquer la carcasse du meuble.

Pour une protection supplémentaire, nous recommandons du Synthetics Protector (p. 208) qui applique un film invisible réduisant l'incrustation de saletés.

---

## INFORMATIE

De textieleen banden van de Natal Alu Sofa bestaan uit een weving van gecoat polyester, net als de Batylines. De samenstelling van het materiaal garandeert een langdurige en hoge spanning van de zitting en een uitstekende weerbestendigheid. De banden verkleuren niet, zijn vlekwerend en drogen snel. Een schimmelwerende behandeling voorkomt het ontstaan van schimmel door vocht.

## ONDERHOUD

De textieleen banden zijn eenvoudig te reinigen met zuiver water en een pH-neutraal, vloeibaar detergent. Voor hardnekkige vlekken kan u Synthetics Super Cleaner (p. 208) gebruiken. Met een zachte borstel kan u vuil tussen de banden verwijderen. Gebruik geen zout of chloorhoudende producten omdat die de hardware van het meubel zou kunnen aantasten.

Voor extra bescherming raden we Synthetics Protector (p. 208) aan die een onzichtbare film aanbrengt die de aanhechting van vuil vermindert.

### INFORMATION

The extra-large weave that is used for the Tosca collection is made with a material that was developed exclusively by Tribù. A great deal of research went into the material, resulting in a unique product with a natural and soft appearance, that is nevertheless 100% weatherproof. An EPDM foam filling is over braided with a tubular, seamless cover of knitted textile and Tricord (polyolefin). The material is fungi-resistant, stain-repellent, does not fade and dries relatively quickly. It is 100% suitable for outdoor use in any environment. However, to minimize cleaning, we advise to use our covers when not using the furniture.

### MAINTENANCE

Rinse the braiding regularly with clean water. For intensive cleaning, use Synthetics Super Cleaner (p. 208). This cleaner also works perfectly for the powdercoated stainless steel frame. Always rinse the furniture with clean water after treatment with cleaning agents. Allow the braid to dry and treat with Textile Protector (p. 209). This will apply an invisible stain repellent film which enables the furniture to dry quicker. The cleaning will also become easier, less frequent and requires mainly rinsing with clean water.

---

### INFORMATION

Le tissage extralarge employé pour la collection Tosca est une exclusivité mise au point par Tribù. Il a fallu de longues recherches pour trouver un matériau à l'aspect doux et naturel, mais cependant 100 % résistant aux intempéries. Une housse sans coutures en textile et Tricord (polyoléfine) est tricotée autour d'un garnissage en mousse EPDM. Le matériau résiste aux moisissures, aux taches et aux UV, et sèche relativement vite. Il convient pour être utilisé au grand air dans n'importe quel environnement. Pour limiter au maximum le nettoyage, nous conseillons de protéger les meubles avec des housses lorsque vous ne les utilisez pas.

### ENTRETIEN

Nettoyez régulièrement le tissage avec de l'eau pure. Les taches récalcitrantes peuvent être éliminées avec le Synthetics Super Cleaner (p. 208). Ce produit peut être utilisé également pour nettoyer le cadre en inox revêtu de laque en poudre. Rincez toujours bien les meubles à l'eau pure. Après nettoyage avec des produits de nettoyage laissez bien sécher le tissage et traitez-le ensuite avec Textile Protector (p. 209), qui le rend résistant aux taches et lui permet de sécher plus rapidement. Le nettoyage deviendra ainsi plus facile et pourra être effectué moins fréquemment.

---

### INFORMATIE

De extra brede weving die gebruikt wordt voor de Tosca collectie werd exclusief door Tribù ontwikkeld. Er ging veel research aan vooraf om te komen tot een materiaal dat er zacht en natuurlijk uitziet, maar toch 100% weerbestendig is. Rond een EPDM schuimvulling wordt een naadloze hoos van textieleen en Tricord (polyolefine) gebreid. Het materiaal is schimmel-, vlek- en UV bestendig en droogt relatief snel. Het is geschikt voor buitengebruik in elke omgeving. Om reinigen tot een minimum te beperken, raden we wel aan de meubelen te bedekken met beschermhoezen als u ze niet gebruikt.

### ONDERHOUD

Reinig de weving regelmatig met zuiver water. Hardnekkige vlekken kunnen verwijderd worden met Synthetics Super Cleaner (p. 208). Dit product kan ook gebruikt worden om het gepoederlakte rvs frame te reinigen. Spoel de meubelen altijd goed na met zuiver water. Laat de weving goed drogen en behandel daarna met Textile Protector (p. 209) die vlekwerend werkt en ervoor zorgt dat de weving sneller droogt. Het reinigen zal hierdoor makkelijker worden en minder frequent nodig zijn.

#### INFORMATION

Travertine, a captivating natural stone, boasts unique characteristics and extensive applications. Formed by mineral deposits in natural springs, it features a distinctive porous texture that lends an elegant and rustic charm to both indoor and outdoor spaces. Its soft, neutral tones range from warm beige to cool gray, ensuring that every top is unique.

This originality is intensified by the stain-sensitive nature of the material. Oil, red wine, as well as other liquids and acids are absorbed, resulting in a permanent stain. This makes it a 'living thing' that, in time, displays subtle changes in colour and even surface structure. A product that becomes more and more unique with use, perfect for people who appreciate a table with personality.

#### MAINTENANCE

For daily cleaning, rub with a soft clean cloth immersed in a solution of hot, pure water and a pH-neutral detergent. Rinse thoroughly and leave to dry. Spills should be wiped up immediately, particularly acids, which can stain. Bird droppings and leaves can also stain if not removed immediately. We advise you to cover your table with a protective cover when not in use.

#### INFORMATION

Le travertin, une pierre naturelle captivante, possède des caractéristiques uniques et de nombreuses applications. Formé par les dépôts minéraux des sources naturelles, il présente une texture poreuse distincte qui confère un charme élégant et rustique aux espaces intérieurs et extérieurs. Ses tons doux et neutres se déclinent du beige chaud au gris froid, ce qui fait de chaque surface un objet unique.

Cette originalité est renforcée par la sensibilité du matériau aux taches. Il absorbe l'huile, le vin rouge, ainsi que d'autres liquides et acides pour créer une tache indélébile. Il est donc « vivant » et sa surface présente, avec le temps, de subtils changements de couleur et même de structure pour former un produit dont le caractère unique s'affirme au fil des utilisations. Il est donc parfait pour les personnes qui aiment une table avec de la personnalité.

#### ENTRETIEN

Pour le nettoyage quotidien, frottez le produit avec un chiffon doux et propre plongé au préalable dans une solution d'eau chaude et d'un détergent au pH neutre. Rincez abondamment et laissez sécher. Les liquides renversés doivent être essuyés immédiatement, en particulier les acides, qui peuvent laisser des taches. Les fientes d'oiseaux et les feuilles peuvent également provoquer des taches si elles ne sont pas essuyées immédiatement. Nous vous recommandons d'utiliser une housse de protection lorsque vous n'utilisez pas votre table.

#### INFORMATIE

Travertine ziet er uniek uit en kan voor talrijke zaken worden aangewend. Deze steensoort wordt gevormd door natuurlijke minerale afzettingen en heeft een kenmerkende poreuze textuur die zowel binnen als buiten een elegante en rustieke charme uitstraalt. De zachte, neutrale tinten van warmbeige tot koel grijs garanderen een uniek tafelblad.

Het bijzondere karakter wordt versterkt door de vlekgevoeligheid van het materiaal. Olie, rode wijn, maar ook andere vloeistoffen en zuren worden geabsorbeerd, waardoor een permanente vlek ontstaat. Het product is gemaakt van een 'levend materiaal' dat na verloop van tijd subtiele veranderingen in kleur en zelfs oppervlaktestructuur vertoont. Een product dat met gebruik zijn eigen karakter verder ontwikkelt, speciaal voor mensen die een tafel met persoonlijkheid waarderen.

#### ONDERHOUD

Dompel voor dagelijkse reiniging een zachte, propere doek onder in een oplossing van warm, zuiver water en een pH-neutraal vloeibaar reinigingsmiddel. Spoel grondig af en laat drogen. Vlekken dienen onmiddellijk te worden afgeveegd, vooral zure stoffen daar ze permanente vlekken kunnen veroorzaken. Ook vogeluitwerpselen en bladeren kunnen permanente vlekken veroorzaken als ze niet onmiddellijk worden verwijderd. We raden u aan een beschermhoes te gebruiken als u uw tafel niet gebruikt.

#### INFORMATION

Tricord® is a brand new composite material for which Tribù has exclusivity. It is a unique combination of nautical and synthetic fibres. The inside consists of unbreakable polyester that gives it strength and stability. The outside is a combination of nautical fibres that create a surprisingly soft touch and natural appearance. The composition of these nautical fibres (polyofin) makes Tricord® completely resistant to outside influences: frost, water, fungi and UV-rays.

The furniture is hand woven - no two pieces are ever alike. The unique craft appearance is part and parcel of the charm of the product and cannot be regarded as a fault. The backs of the Mood and CTR collection can be purchased individually and easily replaced if necessary.

#### MAINTENANCE

Before use, we recommend to treat the Tricord® weave with Textile Protector (p. 209) which applies an invisible, dirt and water repellent film. The straps can be cleaned with clear water and a ph-neutral detergent or Synthetics Super Cleaner (p. 208). Allow the detergent to act for a while, then rinse abundantly with clean water. Drying may take a while on cloudy days.

After cleaning, treat with Textile Protector (p. 209). The cleaning will become easier and will require mainly rinsing with clean water.

#### INFORMATION

Tricord® est un matériau composite tout à fait nouveau, spécialement mis au point pour Tribù. Il s'agit d'une combinaison unique de fibres nautiques et de synthétique. L'intérieur est constitué de fibres polyester incassables qui assurent résistance et stabilité. L'extérieur est une combinaison de fibres nautiques qui confèrent au matériau un toucher et une apparence naturels. La composition de ces fibres nautiques (polyoléfine) fait que Tricord® est totalement résistant au grand air: résistant au gel, à l'eau, aux moisissures et aux UV. Les meubles sont tissés à la main, il n'y a pas deux pièces identiques. L'aspect artisanal unique ainsi conféré au produit, fait partie de son charme et ne peut être considéré comme un défaut. Les dossiers des collections Mood et CTR peuvent être obtenus séparément et peuvent être remplacés facilement en cas de besoin.

#### ENTRETIEN

Avant l'emploi, nous recommandons de vaporiser les bandes Tricord® avec Textile Protector (p. 209), qui crée un film invisible résistant aux taches et hydrofuge. Les bandes peuvent être nettoyées avec de l'eau pure et un détergent liquide à pH neutre ou Synthetics Super Cleaner (p. 208). Il est recommandé de laisser agir un peu le détergent. Rincez abondamment avec de l'eau. Le séchage peut prendre un certain temps pendant les journées sans soleil.

Après nettoyage traitez les bandes avec Textile Protector (p. 209), le nettoyage deviendra ainsi plus facile et devra être effectué moins fréquemment.

#### INFORMATIE

Tricord® is een gloednieuw composietmateriaal speciaal ontwikkeld voor Tribù. Het is een unieke combinatie van nautische vezels en kunststof. De binnenzijde bestaat uit onbreekbare polyestervezels die voor sterkte en stabiliteit zorgen. De buitenzijde is een combinatie van nautische vezels die het materiaal een natuurlijk gevoel en uitstraling geven. De samenstelling van deze nautische vezels (polyofine) zorgt ervoor dat Tricord® volledig buitenbestendig is: vorst-, water-, schimmel- en UV-bestendig. De meubels worden met de hand geweven, geen enkel stuk is hetzelfde. Het unieke, artisanale uitzicht dat hieruit ontstaat, maakt deel uit van de charme van het product en kan niet gezien worden als een fout. De ruggen van de Mood en CTR collectie kunnen apart verkregen worden en zijn makkelijk te vervangen indien nodig.

#### ONDERHOUD

Vóór gebruik raden we aan de Tricord® weving in te spuiten met Textile Protector (p. 209) dat een zichtbare film legt die vlekbestendig en waterafstotend werkt. Reinigen kan met zuiver water en een pH-neutraal, vloeibaar detergent of Synthetics Super Cleaner (p. 208). Het detergent best even laten inwerken. Overvloedig spoelen met water. Het drogen kan een tijdje duren op niet-zonnige dagen.

Behandel daarna met Textile Protector (p. 209) dat vlekwerend werkt en ervoor zorgt dat de weving sneller droogt. Het reinigen zal hierdoor makkelijker worden en minder frequent nodig zijn.

## INFORMATION

Vilex material is composed of solution-dyed PVC-coated polyester. This characteristic not only grants Vilex products outstanding UV resistance but also imparts effortless cleanability due to the non-absorbent nature of the yarns. These yarns facilitate rapid drying and exhibit stain-repelling qualities. Every item crafted from Vilex undergoes a manual weaving process, contributing to an artisanal aesthetic and ensuring the distinctiveness of each product.

## MAINTENANCE

Vacuum the material regularly to remove loose dirt. Clean with a garden hose and remove stubborn stains with Synthetics Super Cleaner (p. 208). To protect against stains, Synthetics Protector (p. 208) can be used which applies an invisible film.

## INFORMATION

Le matériau Vilex est composé de polyester enduit de PVC teinté dans la masse. Cette caractéristique confère aux produits Vilex une résistance exceptionnelle aux UV, ainsi qu'une facilité de nettoyage grâce à la nature non absorbante des fils. Ces fils permettent un séchage rapide et présentent des qualités anti-taches. Chaque article confectionné en Vilex est soumis à un processus de tissage manuel, ce qui lui confère une esthétique artisanale et garantit le caractère distinctif de chacun des produits.

## ENTRETIEN

Passez régulièrement l'aspirateur sur le matériau pour enlever les saletés qui s'y sont déposées. Pour le nettoyage, utilisez un tuyau d'arrosage et éliminez les taches tenaces avec Synthetics Super Cleaner (p. 208). Pour protéger le produit contre les taches, utilisez le Synthetics Protector (p.208) qui laisse un film invisible

## INFORMATIE

Vilex is gemaakt van in de massa geverfd pvc-gecoat polyester. Hierdoor hebben ze een uitstekende uv-bestendigheid en zijn ze niet-absorberend waardoor ze gemakkelijk schoon te maken zijn. Vilex droogt snel en is vlekafstotend. Elk Vilex-product wordt met de hand geweven, wat bijdraagt tot de ambachtelijke uitstraling die uniek is voor elk product.

## ONDERHOUD

Stofzuig het product regelmatig om los vuil te verwijderen. Reinig met een tuinslang of zelfs een hogedrukreiniger. Hardnekkige vlekken kunnen verwijderd worden met Synthetics Super Cleaner (p. 208). Om het tapijt te beschermen tegen vlekken, kan Synthetics Protector (p. 208) gebruikt worden dat een onzichtbare, vuilafstotende film aanbrengt.

#### INFORMATION

Trizo, made from HDPE material, is a sturdy water- and mold-resistant material suitable for various environments. This material is colorfast and mass-colored, making it perfect for outdoor use.

#### MAINTENANCE

Trizo is easy to maintain. To remove stains, use warm, clean water and a pH neutral liquid cleaner or Synthetics Super Cleaner (p. 208). Gently buffing can help with minor scratches, so be sure not to use harsh abrasives. Using a cover can provide extra protection for the material and reduce the number of necessary maintenance sessions. For additional protection, we recommend the Synthetic Protector (p. 208), which forms an invisible layer that repels dirt.

#### INFORMATION

Fabriqué à partir de PEHD, Trizo est un matériau robuste, résistant à l'eau et à la moisissure, qui convient à divers environnements. Ce matériau est inaltérable et coloré dans la masse, idéal pour une utilisation en extérieur.

#### ENTRETIEN

Trizo est facile à entretenir. Pour enlever les taches, utilisez de l'eau chaude et propre et un détergent liquide au pH neutre ou notre Synthetics Super Cleaner (p. 208). Un léger lustrage peut aider à gommer les petites rayures, mais veillez à ne pas utiliser d'abrasifs trop agressifs. L'utilisation d'une housse offre une protection supplémentaire au matériau et permet de réduire le besoin d'entretien. Pour une protection supplémentaire, nous recommandons le Synthetic Protector (p. 208), qui laisse un film protecteur pour repousser la saleté.

#### INFORMATIE

Trizo, gemaakt van HDPE-materiaal, is een stevig water- en schimmelbestendig materiaal dat geschikt is voor diverse omgevingen. Dit materiaal is in de massa gekleurd voor levendige, kleurvaste kleuren, perfect om buiten te gebruiken.

#### ONDERHOUD

Trizo is gemakkelijk te onderhouden. Gebruik een oplossing van warm, zuiver water en een pH-neutraal vloeibaar reinigingsmiddel of de Synthetics Super Cleaner (p. 208) om vlekken te verwijderen. Zacht schuren verhelpt kleine krassen zodat Trizo zijn charme behoudt, gebruik hier zeker geen harde schuurmiddelen voor. Het gebruik van een cover kan het materiaal extra bescherming bieden en het aantal benodigde onderhoudsbeurten verminderen. We raden de Synthetics Protector (p. 208) aan voor extra bescherming, dit product vormt een onzichtbaar laagje dat vuil afstoot.

#### TEAK SUPER CLEANER - D9914 - 500 ml

Cleaner for regular or intensive cleaning.

1. First moisten the furniture with clear water.
2. Shake the Teak Cleaner well before use.
3. Apply Teak Cleaner with a soft cloth and allow to soak for 3 minutes.
4. Brush the furniture clean with the soft scrubbing pad in the direction of the grain.
5. Rinse well with clear water.

Produit pour un nettoyage normal ou intensif.

1. Mouillez d'abord le meuble avec de l'eau.
2. Agitez Teak Cleaner avant l'emploi.
3. Appliquez Teak Cleaner avec un chiffon sur le meuble et laissez agir 3 minutes.
4. Brossez le meuble avec le patin de ponçage doux en suivant le fil du bois.
5. Rincez bien le meuble à l'eau.

Reiniger voor normale of intensieve reiniging.

1. Het meubel eerst vochtig maken met water.
2. Teak Cleaner schudden voor gebruik.
3. Breng de Teak cleaner met een doek op het meubel aan en laat dit 3 minuten intrekken.
4. Borstel het meubel met het zachte schuurpad richting houtnerf schoon.
5. Het meubel goed afspoelen met water.

#### TEAK SEALER NATURAL - D9959 - 1000 ml

When Teak Sealer is applied every season, a labour-intensive cleaning with Teak Cleaner will not be necessary for many years. A simple cleaning with water and ph-neutral soap will do.

1. Allow new teak to weather for 1 to 2 weeks before applying Teak Sealer.
2. Clean soiled teak with Teak Cleaner or Teak Super Cleaner and leave to dry until the wood is completely dry.
3. Stir the Teak Sealer well and keep mixing throughout the application process.
4. Apply to the teak using a microfiber cloth, synthetic sponge or plants spray in the direction of the grain. Wipe any excess off with a microfiber cloth.
5. Leave to dry for 1 hour and apply a second coat.
6. Wipe over the second coat with a clean cloth.
7. The teak should be dry to the touch in 1 hour and ready for use the next day.

Appliquer Teak Sealer une fois par saison permet de se passer d'un nettoyage intensif avec Teak Cleaner pendant plusieurs années. Nettoyer de temps en temps à l'eau avec un savon au pH neutre entre les traitements suffira.

1. Laissez le teck neuf se patiner une ou deux semaines avant le traitement.
2. Nettoyez soigneusement le teck souillé avec Teak Cleaner ou Teak Super Cleaner et laissez bien sécher.
3. Remuez bien le Teak Sealer et continuez à remuer souvent pendant l'application.
4. Appliquez avec un chiffon en microfibre, une éponge synthétique ou un pulvérisateur plante dans le sens du bois. Essuyez le produit excédentaire avec un chiffon en microfibre.
5. La 1re couche est sèche au bout d'une heure. Appliquez immédiatement une 2e couche.
6. Frottez avec un chiffon propre ne peluchant pas.
7. Le bois est sec hors poussière au bout d'une heure et prêt à l'emploi le lendemain.

Als u elk seizoen Teak Sealer aanbrengt, is een arbeidsintensieve reiniging met Teak Cleaner jarenlang niet meer nodig. Een eenvoudige reiniging met water en een neutrale zeep volstaat.

1. Nieuwe teak eerst 1 tot 2 weken laten verweren vóór behandeling met Teak Sealer.
2. Vervuilde teak grondig reinigen met Teak Cleaner of Teak Super Cleaner en goed laten drogen.
3. Teak Sealer goed roeren, ook tijdens de verwerking.
4. Aanbrengen met een microvezeldoek, een kunstspoon of een plantensproeier in de richting van de nerven, overtollig product met een microvezeldoek wegvegen.
5. 1 uur laten drogen en 2de laag aanbrengen.
6. Opwrijven met schone pluisvrije doek.
7. Na 1 uur stofdroog, volgende dag gebruiksklaar

### TEAK PROTECTOR GREY COLOUR - D9912 - 500 ml

Protects the teak against stains and green deposit. Doesn't colour the grey patina

1. New teak: leave your new furniture outside during a few weeks until they get a pale colour.
2. Old, grey teak: clean the teak first with Teak Cleaner. If the cleaned wood feels rough, sand slightly before using the Teak Protector.
3. Make sure that the teak is 100% dry and free of dust.
4. Shake the bottle for at least one minute. Apply with the soft and lint-free cloth and allow to soak in the teak.
5. Allow to dry for 4 hours, then apply a second layer.
6. Let the teak dry for 24 hours before exposing it to moisture.

Protège le teck des taches et de la mousse. Ne colore pas la patine grise.

1. Teck neuf: placez d'abord les meubles quelques semaines dehors afin qu'ils prennent une couleur jaune pâle.
2. Teck vieux et grisé: nettoyez d'abord le bois avec Teak Cleaner. Si la surface du teck est rugueuse, poncez-la légèrement.
3. Assurez-vous que le teck soit 100 % sec et dépoussiéré.
4. Agitez Teak Protector au moins une minute avant d'appliquer. Appliquez une couche avec un chiffon doux ne peluchant pas. Laissez agir.
5. Appliquez une seconde couche au bout de 4 heures.
6. Laissez le teck sécher pendant 24 heures avant de l'exposer aux intempéries.

Beschermt de teak tegen vlekken en mos. Kleurt de grijze patina niet.

1. Nieuw teak: zet de teak meubels eerst enkele weken buiten zodat ze een wat bleekgele kleur krijgen.
2. Oud, donkergrijs teak: maak het teak eerst schoon met Teak Cleaner. Als het teak ruw aanvoelt, schuur het lichtjes op.
3. Zorg dat het teak 100% droog is en stofvrij.
4. Teak Protector voor gebruik minstens één minuut goed schudden. Breng één laag aan met een zachte, pluïsvrije doek. Laat goed intrekken.
5. Breng na 4 uur droogtijd een tweede laag aan.
6. Laat het teak nu 24 uur drogen alvorens het aan de weersomstandigheden bloot te stellen.

#### POWDERCOATED ALUMINIUM & STAINLESS STEEL CLEANER - D9952 - 500 ml

Cleans powdercoated aluminium and powdercoated stainless steel.

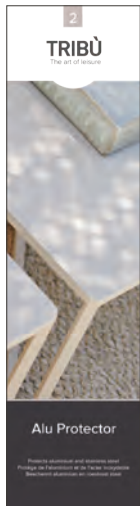

1. Rinse the furniture with clear water to eliminate loose dirt.
2. Spray the Coated aluminium & stainless steel Cleaner on the surface and let it rest.
3. In case of stubborn stains use a brush to remove the dirt from the pores.
4. Rinse with clear water and remove the dirt with a clean, moist cloth.
5. Dry with a microfiber cloth. Don't leave the surface to dry in full sun, this can leave white traces behind.

Nettoie l'aluminium et l'innox laqué par poudrage.

1. Rincez le meuble d'abord afin d'éliminer des saletés.
2. Pulvérissez Coated aluminium & stainless steel Cleaner de bas en haut sur la surface et laissez agir.
3. Si la saleté est incrustée, utilisez une brosse pour éliminer la saleté des pores.
4. Rincez avec de l'eau claire et éliminez la saleté avec un chiffon propre et humide.
5. Séchez avec un chiffon microfibre. Ne laissez pas sécher en plein soleil (peut laisser des traînées blanches).

Reinigt gepoederlakt aluminium en gepoederlakt roestvast staal.

1. Spoel het meubel eerst om los vuil te verwijderen.
2. Vernevel de Coated aluminium & stainless steel Cleaner over het oppervlak en laat inwerken.
3. Gebruik bij hardnekkig vuil een borstel om het vuil uit de poriën te verwijderen.
4. Spoel af met zuiver water en verwijder het vuil met een propere, vochtige doek.
5. Niet laten drogen in volle zon ( kan witte sporen achterlaten).

#### POWDERCOATED ALUMINIUM & STAINLESS STEEL PROTECTOR - D9931

Reduces the adhesion of dirt and fingerprints.

1. Shake well before use.
2. Spray onto a clean microfiber cloth and rub on the surface with circular movements.
3. Use a clean, dry microfiber cloth and spread well.

Réduit sensiblement l'adhérence de la saleté ou des empreintes.

1. Agitez bien avant l'emploi.
2. Pulvérissez sur un chiffon en microfibre et faites pénétrer en frottant légèrement avec des mouvements circulaires.
3. Utilisez un chiffon en microfibre propre et sec et frottez bien.

Vermindert gevoelig de aanhechting van vuil of vingerafdrukken.

1. Goed schudden voor gebruik.
2. Op een schone microvezeldoek spuiten en licht inwrijven met cirkelvormige bewegingen.
3. Gebruik een schone, droge microvezeldoek en wrijf goed uit.

### CERAMIC, LAVA STONE & GLASS CLEANER - D9938 - 500 ml

Removes local stains.

1. Shake well before use.
2. Spray the surface with the spray and leave for a while.
3. Rub to dry with a clean microfiber cloth and polish with a dry cloth.

Élimine les taches tenaces locales.

1. Agitez bien le flacon avec l'emploi.
2. Pulvérisez la mousse à la surface et laissez agir quelques instants.
3. Essuyez avec un chiffon propre au microfibre et séchez avec un chiffon sec.

Verwijdert plaatselijk hardnekkige vlekken.

1. Bus goed schudden voor gebruik.
2. Het oppervlak inspuiten met de schuimspray en even laten inwerken.
3. Droogwrijven met een propere, microvezel doek en nawrijven met een droge doek.

### CERAMIC, LAVA STONE & GLASS PROTECTOR - D9955 - 100 ml

Applies an invisible, dirt repellent coating.

1. Clean the surface with Ceramic, Lava Stone & Glass Cleaner.
2. It is essential that the surface is completely clean, dust free and dry before applying the Ceramic Protector.
3. Moisten a microfiber cloth with the Ceramic Protector and apply a layer to the surface, ensuring full and even coverage by fast circular movements.
4. Allow the newly coated surface to dry for a few minutes and then polish the surface with a clean microfiber cloth.

Offre une protection invisible contre les taches et la saleté.

1. Nettoyez parfaitement la surface avec Ceramic, Lava Stone & Glass Cleaner et rincez à l'eau claire. Il est important que la surface soit complètement propre, sèche et dépolvoiliée.
2. Imprégnez un chiffon en microfibre de Ceramic Protector et appliquez une couche uniforme en mouvements circulaires.
3. Continuez à frotter la surface jusqu'à ce que le chiffon soit presque sec.
4. Laissez sécher au minimum 1 minute (idéalement 5 minutes) et lustrez la surface avec un chiffon en microfibre propre.

Brengt een transparante, vuilwerende bescherming aan.

1. Maak het oppervlakte grondig schoon met Ceramic, Lava Stone & Glass Cleaner en spoel na met zuiver water. Het is belangrijk dat het oppervlak volledig schoon, droog en stofvrij is.
2. Doordreng een microvezel doek met Ceramic Protector en breng door middel van circulaire bewegingen een gelijkmatige coating aan.
3. Ga door met het oppervlak in te wrijven totdat de doek bijna droog is.
4. Laat minimum 1 minuut drogen (ideaal 5 minuten) en boen vervolgens het oppervlak met een schone microvezel doek.

#### SYNTHETICS SUPER CLEANER - D9922 - 500 ml

Cleans stubborn stains from synthetic materials, Canax®, CTR; Elio, Mood, Tosca weave and Batyline®.

1. Rinse the furniture with clear water to eliminate loose dirt.
2. Spray the Synthetics Super Cleaner on the surface and let it soak.
3. In case of stubborn stains use a brush to remove the dirt from the pores.
4. Rinse with clear water and remove the dirt with a clean, moist cloth.
5. Dry with a microfiber cloth. Don't leave the surface to dry in full sun, this can leave white traces behind.

Enlève des taches tenaces sur matériaux synthétiques, les tressages Canax®, CTR, Elio, Mood et Tosca et du Batyline®.

1. Rincez le meuble d'abord avec de l'eau claire afin d'enlever la saleté.
2. Pulvérisez Synthetics Super Cleaner sur la surface et laissez agir.
3. Si la saleté est incrustée, utilisez une brosse pour éliminer la saleté des pores.
4. Rincez et éliminez la saleté avec un chiffon propre, humide.
5. Séchez avec un chiffon en microfibre. Ne laissez pas sécher en plein soleil (peut causer des traînées blanches).

Verwijdert hardnekkige vlekken op kunststof, Canax®, CTR, Elio, Mood en Tosca weving en Batyline®.

1. Spoel het meubel eerst met zuiver water om loszittend vuil te verwijderen.
2. Vernevel de Synthetics Super Cleaner van onder naar boven over het oppervlak en laat inwerken.
3. Gebruik bij hardnekkig vuil een borstel om het vuil uit de poriën te verwijderen.
4. Spoel af en verwijder het vuil met een propere, vochtige doek.
5. Droogwrijven met een microvezeldoek. Niet laten drogen in volle zon ( kan witte sporen achterlaten).

#### SYNTHETICS PROTECTOR - D9921 - 500 ml

Applies an invisible film and protects against the adhesion of dirt. Suitable for synthetic materials, Canax® and Batyline®.

1. First clean your furniture with Synthetics Cleaner.
2. Shake the bottle well during at least one minute.
3. Apply a thin layer with a clean, dry and lint-free cloth.
4. Buff to shine with a soft, clean and dry cloth.

Offre une protection invisible contre les taches. A utiliser sur des matériaux synthétiques, Canax® et du Batyline®.

1. Nettoyez d'abord vos meubles avec Synthetics Cleaner.
2. Agitez Synthetics Protector au moins une minute avant d'appliquer.
3. Appliquez une couche mince avec un chiffon doux et sec.
4. Frottez ensuite avec un chiffon propre et sec jusqu'à ce que la surface devienne brillante.

Brengt een onzichtbare laag aan die beschermt tegen de aanhechting van vuil. Geschikt voor kunststof, Canax® en Tosca weving en Batyline®.

1. Reinig eerst uw meubels met Synthetics Cleaner.
2. Synthetics Protector vóór gebruik minstens één minuut goed schudden
3. Breng een dunne laag aan met een schone, droge doek.
4. Oppoetsen met een droge, schone doek tot er een glans ontstaat.

### TEXTILE PROTECTOR - D9924 - 400 ml

Makes fabric and weaves water and stain repellent.

1. Shake well before use.
2. Hold the spray can upright at a distance of approximately 30cm and vaporise in equal layers that slightly overlap each other.
3. Leave to dry.
4. For an optimal protection, after each cleaning, we recommend to use Textile Protector.

Rend des tissus et des tissages hydrofuges et résistants aux taches.

1. Agitez bien le flacon.
2. Pulvérisez en bandes se chevauchant légèrement. Maintenez le flacon droit et pulvérisez à +/- 30 cm de distance.
3. Laissez bien sécher.
4. Pour une protection parfaite, nous vous conseillons d'utiliser Textile Protector après chaque nettoyage.

Maak stoffen en wevingen waterafstotend en vlekwerend.

1. De bus goed schudden
2. De bus rechtop houden en spuiten op +/- 30cm afstand. Spuiten in banden die elkaar licht overlappen.
3. Goed laten drogen.
4. Voor een perfecte bescherming raden we aan na iedere reinigingsbeurt Textile Protector te gebruiken.

### GRANITE CLEANER/PROTECTOR - D9961 - 500 ml

Cleans, maintains and protects granite surfaces.

1. Shake before use, then open the spray valve.
2. Spray the surface in an evenly way.
3. Spread and polish with a microfiber cloth until no more streaks or veil is visible.

Nettoie, traite et protège des surfaces en granite.

1. Secouez avant utilisation, puis ouvrir la buse de pulvérisation
2. Pulvérisez bien régulièrement les surfaces.
3. Etalez et polissez avec un chiffon en microfibre, jusqu'à ce que plus aucune strie ou voile ne soit visible.

Reinigt, verzorgt en beschermt oppervlakken in graniet.

1. Schudden voor gebruik, daarna sproeiventiel openen.
2. Het oppervlak gelijkmatig besproeien.
3. Met een microvezeldoek verdelen en napolieren tot er geen strepen of sluier meer zichtbaar zijn.

**LIGHTENED CONCRETE CARE SET - D9964**

A complete set to take care of tables in lightened concrete.

- 1 Lightened Concrete Conditioner
- 1 Oil, wax & Grease Remover
- 1 sanding disc
- 1 brush
- 1 microfiber cloth

Un set complet pour l'entretien des tables en béton allégé.

- 1 Lightened Concrete Conditioner
- 1 Oil, wax & Grease Remover
- 1 disque de ponçage
- 1 brosse
- 1 chiffon en microfibre

Een complete set voor het onderhoud van tafels in verlicht beton.

- 1 Lightened Concrete Conditioner
- 1 Oil, Wax & Grease Remover
- 1 schuurschijfje
- 1 borstel
- 1 microvezeldoek

**LIGHTENED CONCRETE CONDITIONER – D9962 – 500ml**

Cleans surfaces in lightened concrete and protects against stains.

1. Wash the surface with clean water first and allow it to dry completely.
2. Shake before use, open the spray valve and spray lightly in an evenly way over the cooled surface.
3. Rub in with a clean, dry microfibre cloth with a circular motion or use a soft brush.
4. After approx. 10 minutes, remove the excess product with a clean, dry microfibre cloth until no more streaks or veil are visible.

Nettoie des surfaces en béton allégé et protège contre des taches.

1. Avant toute chose, nettoyez la surface à l'eau claire, puis laissez sécher complètement.
2. Secouez le flacon avant utilisation. Enclenchez le pulvérisateur et vaporisez uniformément une fine couche de produit.
3. Ensuite, frottez avec un chiffon microfibre sec et propre en effectuant des mouvements circulaires ou utilisez une brosse.
4. Après 10 minutes environ, retirez l'excédent de produit à l'aide d'un chiffon sec et propre jusqu'à ce que plus aucune strie ou voile ne soit visible.

Reinigt oppervlakken in verlicht beton en beschermt tegen vlekken.

1. Vooraf het oppervlak met zuiver water schoonmaken en volledig laten opdrogen.
2. De fles schudden voor gebruik, het sproeiventiel openen en het product lichtjes en gelijkmatig vernevelen over het afgekoelde oppervlak.
3. Vervolgens het product met een zuivere, droge microvezel doek met cirkelvormige bewegingen inwrijven of een borstel gebruiken.
4. Na ca 10min het overtollige product met een zuivere, droge microvezeldoek verwijderen tot er geen strepen of sluier meer zichtbaar zijn.

**OIL, WAX & GREASE REMOVER – D9963 – 250ml**

A creamy paste that removes stains on lightened concrete caused by oil, grease or candle wax.

1. Wash the surface with clean water first to remove any loose dirt and make sure it is completely dry before you apply the product.
2. Apply a layer of paste, approx. 1 mm thick, evenly over the stain using a spatula or brush and leave the paste to soak in. Apply in open air during daytime and dry weather only.
3. After drying for approx. 30-60 minutes, brush off the paste. Repeat this process for stubborn or old stains.
4. Rinse the furniture with clean water and let it dry.
5. For optimal protecting against stains, treat the surface with Tribù Lightened Concrete Conditioner.

Une pâte crémeuse qui enlève des taches causées par l'huile, la graisse ou la cire de bougie sur le béton allégé.

1. Avant toute chose, nettoyez le meuble à l'eau claire afin d'enlever toute trace de saleté. Assurez-vous qu'il est complètement sec avant d'appliquer le produit.
2. À l'aide d'une spatule ou d'une brosse, répartissez une couche uniforme d'environ 1 mm, et laissez agir. Appliquer en plein air pendant la journée et par temps sec uniquement.
3. Après 30-60 minutes environ, retirez la pâte avec une brosse. En cas de tache tenace ou ancienne, répétez l'opération.
4. Rincez à l'eau claire et laissez sécher.
5. Pour une protection optimale contre les taches, traitez le béton allégé avec du Tribù Lightened Concrete Conditioner.

Een smeijge pasta die vlekken op verlicht beton, veroorzaakt door olie, vet of kaarsvet verwijdt.

1. Spoel het meubel eerst met zuiver water om loszittend vuil te verwijderen en zorg dat het volledig droog is vooraleer je het product gebruikt.
2. Breng de pasta gelijkmatig met een spatel of borstel ca 1mm dik aan over de vlek en laat deze inwerken. Alleen overdag in open lucht en bij droog weer aanbrengen.
3. Na een droogtijd van ca 30-60min kan je de pasta afborstelen. Bij intense of oude vlekken moet dit proces eventueel meerdere keren herhaald worden.
4. Spoel het oppervlak met zuiver water en laat drogen.
5. Voor een optimale bescherming tegen vlekken, behandel het verlicht beton met Tribù Lightened Concrete Conditioner.

### INOX SUPER CLEANER (CB & EP) - D9918 - 250 ml

Intensive cleaner for in-depth cleaning.

1. Rinse the furniture with clear water and let it dry.
2. Shake the bottle well.
3. Apply the cleaner undiluted by dabbing by means of a damp sponge or pad. Apply in the rolling direction of the surface to be treated. Leave to act.
4. Remove the residue carefully with a damp cloth (be careful, loose dirt or oxide may cause minor scratches).
5. Rinse abundantly with clear water.

Nettoyant intensif pour des saletés tenaces.

1. Rincez le meuble et laissez sécher.
2. Agitez bien le flacon.
3. Appliquez le produit non dilué avec une éponge humide dans le sens du laminage du matériau ou dans le sens de la surface brossée ou meulée. Laissez agir.
4. Éliminer précautionneusement les résidus à l'eau ou avec un chiffon humide (attention : la saleté et/ou les oxydes détachés pourraient provoquer de légères rayures).
5. Rincez abondamment à l'eau claire.

Intensieve reiniger voor hardnekkige verontreiniging.

1. Spoel het meubel met zuiver water en laat drogen.
  2. De fles goed schudden.
  3. Breng de reiniger onverdund aan met een vochtige spons al deppend in de walsrichting van het materiaal. Even laten inweken.
  4. Verwijder residuen zorgvuldig met water of een vochtige doek (let op: het loskomend vuil en/of oxiden kunnen eventueel lichte krassen veroorzaken).
  5. Overvloedig spoelen met zuiver water.

# PRODUCTS

## PRODUITS - PRODUCTEN

---

### TRAVERTINE CONDITIONER - D9967

1. Cleaning: The surface must be clean, dry, and free of layers. For outdoor use, ensure that the stone does not contain harmful salts (nitrates, sulfates, chloride), as these can reduce the absorption capacity of the impregnation.
  2. Shake before use.
  3. To check the usage, color deepening, and effectiveness, it is recommended to test on a small surface.
  4. Processing temperature: 10°C to 25°C; avoid direct sun exposure and moisture until the product is fully effective.
  5. Depending on the porosity of the stone, apply the product undiluted, wet on wet, evenly on the stone one or more times with a brush, mop, spray device, or lint-free cloth.
  6. Always treat the entire surface.
  7. Approximately 20 minutes after application, as the surface begins to dry, remove the excess product with a cloth. For polished surfaces, polish with a lambswool.
  8. Full effectiveness is reached after approximately 24 hours.
  9. Non-compliance with processing guidelines may lead to irreversible damage.
- 
1. Nettoyage : La surface devrait être propre, sèche et exempte de couches. Pour une utilisation en extérieur, assurez-vous que la pierre ne contient pas de sels nocifs (nitrates, sulfates, chlorure), car ils peuvent réduire la capacité d'absorption de l'imprégnation.
  2. Agiter avant l'usage.
  3. Pour vérifier l'usage, la profondeur de la couleur et l'efficacité, il est recommandé de prendre un échantillon.
  4. Température de traitement: 10°C à 25° degrés; éviter l'exposition directe au soleil et l'humidité jusqu'à ce que le produit soit entièrement efficace.
  5. En fonction de la porosité de la pierre, appliquez le produit non dilué, humide sur humide, uniformément sur la pierre une ou plusieurs fois avec un pinceau, une serpillière, un pulvérisateur ou un chiffon non pelucheux.
  6. Traiter toujours toute la surface.
  7. Environ 20 minutes après l'application, lorsque la surface commence à sécher, enlever l'excédent de produit avec un chiffon. Pour les surfaces polies, polir avec une laine d'agneau.
  8. L'efficacité totale est atteinte après environ 24 heures.
  9. Le non-respect des directives de traitement peut causer des dégâts irréversibles.
- 
1. Reiniging: het oppervlak moet zuiver, droog en vrij zijn van andere producten. Bij buitengebruik moet erop gelet worden dat de steen geen schadelijke zouten bevat (nitraten, sulfaten, chloride), aangezien deze het opnamevermogen van de impregnering verminderen.
  2. Schudden voor gebruik.
  3. Om het gebruik, de kleurverdieping en de werkzaamheid te controleren, wordt aangeraden een proefstuk te nemen.
  4. Verwerkingstemperatuur: 10°C tot 25°C; directe zoninwerking en vochtinwerking vermijden totdat het product volledig werkzaam is.
  5. Afhankelijk van de poreusiteit van de steen één- of meerdere malen het product onverdund, nat op nat, gelijkmatig op de steen aanbrengen met een penseel, mop, spuittoestel of pluisvrije doek.
  6. Behandel steeds het volledige oppervlak.
  7. Ongeveer 20 minuten na het aanbrengen, als het oppervlak begint te drogen, het overtollige product met een doek verwijderen. Bij gepolijste oppervlakken met een lamsvel napolijsten.
  8. De volle werkzaamheid wordt bereikt na ongeveer 24 uur.
  9. Het niet naleven van de verwerkingsrichtlijnen kan leiden tot onherstelbare schade.
